

practice location	EHR --> practice location --> EHR setup --> Ehr configuration --> details that have already been added can be added again.	In the EHR Setup section of the Practice Location frontend route is /location/clinical-data/allergies, an EHR config section it has dropdown section EHR configuration like given below Allergies, Risk Factors, Quick Memos, Directives, Documents, Messages, and Flowsheets in this each from have seperate adding forms (routes like /location/clinical-data/risk-factor) so in these adding form when an already created data should not allow to create again ,avoid creating duplicate entries.
practice location	EHR --> practice location --> user management --> staff creation --> view --> Department --> drop down list is blank	In the Practice Location Dashboard User Management Staff Creation section,in View section the Department dropdown fields are displayed as completely blank when clicked, with no options available for selection.
Doctors	EHR --> doctor dashboard --> patient -->check eligibility --> error message is displayed	In the Doctor Dashboard Patient section in sidebar (route : /provider/patient) in the page there is list of patient view patient button, clicking the button it will show the patient details section in that we havbe two button "Check Eligibility" and view Eligibility summary displays an error message and the values are not showing .fix that issue.
Doctors	EHR --> doctor dashboard --> reference - received-->patient and Referred by --> full name is not displayed	In the Doctor Dashboard Reference section - received (route is .provider/referral-recieved),the patient name and referred by field should show the full value in patient name feild currently it showing only firstname instead show the full name and in refferd by feild also show the full value.
