How to read the evidence. 'Actual result & evidence' records what was observed: the HTTP status and response message from the API, values read back from the UI or API, and timings. 'Fig.' numbers point to screenshots in the appendix. Bug IDs match the Final QA Test Report (FUN, UI, API, DB, PERF, SEC). Personal data of real customers seen during testing is not reproduced.

Failed test cases (87)

Each failed case links to its defect. Evidence is the observed API status/message or UI behaviour at execution time.

TC ID	Module	Type	Scenario	Steps / test data	Expected result	Actual result & evidence	Bug / Fig
TC-004	Admin - Authentication	Security	Token storage and lifetime	Inspect localStorage / JWT	Short-lived token, httpOnly cookie for refresh	24 h access + 7 d refresh in localStorage | Detail: Access 24 h, refresh 7 d, both readable by script. Evidence: exp - iat = 86,400 s.	SEC-13
TC-007	Admin - Authentication	Security	Login brute force protection	25 wrong passwords then correct	Throttle/lockout after N failures	No throttling; correct password accepted after 25 failures | Detail: 401 x25, then 200 'Login successful'. Retest 11 Nov: 10 x 401, no throttling. Evidence: Status sequence captured.	SEC-03
TC-010	Admin - Dashboard	Performance	Dashboard API calls	Load dashboard	Each endpoint once	dashboard x4, /me x2, /stores x2 on load | Detail: Each call made twice (re-confirmed on groomer availability, 11 Nov). Evidence: Resource timings.	PERF-02
TC-023	Admin - Store management	API / Negative	Unknown client ID	clientId NOPE-999	400 friendly	500 with raw SQL FK error | Detail: 500 with messages such as "Cannot add or update a child row ... `shearheaven`.`store_master` ... REFERENCES `client_master` ... ON DELETE CASCADE" and "Unknown column 'NaN' in 'where clause'". Evidence: Captured responses; (b) re-confirmed 11 Nov.	SEC-04
TC-024	Admin - Store management	Security	SQL injection in name / storeId	name "QA' OR '1'='1", storeId "QAQ-001'--"	Stored safely or rejected	Stored literally (parameterised); storeId accepts special chars | Detail: Created. Evidence: Re-confirmed 11 Nov.	FUN-18
TC-026	Admin - Store management	UI / Boundary	Cancellation 200 in UI	Type 200, Create	Client-side max with friendly text	Server error with raw field name shown | Detail: 'cancellationThresholdHours must be less than or equal to 168'. Evidence: Screenshot.	UI-13 / Fig. 8
TC-028	Admin - Store management	API / Negative	Edit non-existent / non-numeric ID	PUT /stores/999999, /stores/abc	404 / 400	404 OK; 'abc' -> 500 Unknown column 'NaN' | Detail: 500 with messages such as "Cannot add or update a child row ... `shearheaven`.`store_master` ... REFERENCES `client_master` ... ON DELETE CASCADE" and "Unknown column 'NaN' in 'where clause'". Evidence: Captured responses; (b) re-confirmed 11 Nov.	SEC-04
TC-030	Admin - Store management	Data validation	Duplicate store names	Existing data	Unique or warned	Duplicates exist (Testing x2, Bowen Arlington Spa x2) | Detail: 'Testing' x2, 'Bowen Arlington Spa' x2. Evidence: Store list.	FUN-19
TC-032	Admin - Store hours & holidays	Validation	Close before open	Monday 18:00-09:00	400	200 saved | Detail: 200 saved. Evidence: Re-confirmed 11 Nov.	FUN-08
TC-033	Admin - Store hours & holidays	Boundary	Zero-length day	10:00-10:00	400	200 saved | Detail: 200 saved. Evidence: Re-confirmed 11 Nov.	FUN-08
TC-039	Admin - Store hours & holidays	Validation	Duplicate holiday code / date	QA-HOL-1 again; same date	Rejected	Both created | Detail: All created. Evidence: Re-confirmed 11 Nov.	FUN-09
TC-040	Admin - Store hours & holidays	Validation	Past-date holiday	2020-01-01	Rejected	Created | Detail: All created. Evidence: Re-confirmed 11 Nov.	FUN-09
TC-041	Admin - Store hours & holidays	Negative	Invalid calendar date	2026-02-30	400	500 SQL 'Incorrect date value' | Detail: 500 with messages such as "Cannot add or update a child row ... `shearheaven`.`store_master` ... REFERENCES `client_master` ... ON DELETE CASCADE" and "Unknown column 'NaN' in 'where clause'". Evidence: Captured responses; (b) re-confirmed 11 Nov.	SEC-04
TC-047	Admin - Groomer management	Security	Weak password accepted	'aaaaaaaa'	Complexity enforced	Accepted | Detail: Both accepted and usable for login. Profile hint says 'min 6'. Evidence: Groomer id 111 created 11 Nov with 'aaaaaaaa' (then deleted).	SEC-07

TC ID	Module	Type	Scenario	Steps / test data	Expected result	Actual result & evidence	Bug / Fig
TC-056	Admin - Groomer management	Validation	Mobile 'abc'	abc	400	Saved | Detail: Saved as 'abc'. Evidence: Groomer id 111.	FUN-17
TC-057	Admin - Groomer management	Data integrity	Non-existent store	storeId NOPE-1	400	201 created, can log in | Detail: 201; login 200. Re-confirmed 11 Nov (NOPE-9). Evidence: Groomer ids 95, 110.	FUN-05
TC-058	Admin - Groomer management	Functional	Groomer without email	email omitted	Created or clear 400	409 'Email already used' | Detail: 409 'Email already used in user management'. Evidence: Re-confirmed 11 Nov.	FUN-16
TC-060	Admin - Groomer availability	Validation	Weekly hours end before start	Thu 17:00-10:00	400	Saved; Thursday has 0 slots - fixed in 11 Nov build (retest: 400)	CLS-01
TC-064	Admin - Groomer availability	Validation	Leave end date before start	11-20 -> 11-18	400	201 - fixed in 11 Nov build (retest: 400)	CLS-02
TC-065	Admin - Groomer availability	Validation	Break end time before start	15:00 -> 14:00	400	201 - fixed in 11 Nov build (retest: 400)	CLS-02
TC-067	Admin - Groomer availability	Negative	Invalid date in availability query	2026-13-45	400	500 SQL error | Detail: 500 with messages such as "Cannot add or update a child row ... `shearheaven`.`store_master` ... REFERENCES `client_master` ... ON DELETE CASCADE" and "Unknown column 'NaN' in 'where clause'". Evidence: Captured responses; (b) re-confirmed 11 Nov.	SEC-04
TC-070	Admin - Services & packages	Data integrity	Duplicate service code (API)	serviceCode SRV-001	409	Overwrote service 309 | Detail: Service 309 overwritten (name, prices, tiers) with toast 'Service created'; store content overwritten in place (same id 2). Evidence: Re-confirmed 11 Nov (service 310 overwritten then restored).	FUN-04
TC-071	Admin - Services & packages	Data integrity	Duplicate service code (UI)	Type SRV-001 in New service	Rejected	Overwrote; toast 'Service created' | Detail: Service 309 overwritten (name, prices, tiers) with toast 'Service created'; store content overwritten in place (same id 2). Evidence: Re-confirmed 11 Nov (service 310 overwritten then restored).	FUN-04
TC-072	Admin - Services & packages	Validation	Odd duration 7 min / Main+Add-on / neither	POST	Rejected / clear text	7 min & both accepted; 'value failed custom validation because' | Detail: 7-minute and Main+Add-on accepted; error messages cut off ('... failed custom validation because'). Evidence: Customer edit 11 Nov.	FUN-20
TC-077	Admin - Services & packages	Data integrity	Invalid / cross-store / deleted service IDs	999999, 135, 311	400, nothing saved	400 but packages 21-23 saved | Detail: 400, yet packages 21-23 (and QP-REG on 11 Nov) saved, active, with no services. Evidence: Re-confirmed 11 Nov.	DB-04
TC-078	Admin - Services & packages	UI / Caching	Package form after service changes	Without reload	Fresh list	Stale names, deleted service shown | Detail: Old names and deleted services listed. Evidence: Labels before/after reload.	UI-05
TC-079	Admin - Services & packages	Validation	Pet size tiers: overlap / min>max / duplicate key / negative	PUT pet-size-prices (store)	400	Only negative rejected | Detail: Saved; defaults leave 10-11 lb and <1 lb uncovered. Evidence: Re-confirmed 11 Nov.	FUN-10
TC-080	Admin - Services & packages	Business logic	Weight coverage of default tiers	1-10, 11-30, 31-60, 61-999	Continuous	Gaps at 10-11 lb and <1 lb | Detail: Saved; defaults leave 10-11 lb and <1 lb uncovered. Evidence: Re-confirmed 11 Nov.	FUN-10
TC-090	Admin - Store admin & tenancy	Security	Groomer token on admin APIs	GET/POST /stores, /customers, PUT /groomers	403	401 (blocked, wrong code) | Detail: 401 'Invalid or expired access token' (clients may log the user out). Evidence: Re-confirmed 11 Nov.	API-03
TC-099	Groomer module	Functional	Pages load: calendar, availability, customers, forecast, notifications, profile	Navigate all	Load without errors	All load; availability first call 409 | Detail: Each call made twice (re-confirmed on groomer availability, 11 Nov). Evidence: Resource timings.	PERF-02
TC-102	Groomer module	Security	Mass assignment via profile	slotBookingLimit 20, storeId, role	Ignored	slotBookingLimit changed | Detail: 200; slotBookingLimit changed (1 -> 20 on 1 Nov, 1 -> 7 on 11 Nov). storeId/role were ignored. Evidence: Response data.slotBookingLimit.	SEC-06

TC ID	Module	Type	Scenario	Steps / test data	Expected result	Actual result & evidence	Bug / Fig
TC-103	Groomer module	Security	Password change policy	'abc123'	Rejected	Accepted | Detail: Both accepted and usable for login. Profile hint says 'min 6'. Evidence: Groomer id 111 created 11 Nov with 'aaaaaaaa' (then deleted).	SEC-07
TC-105	Customer - Registration & login	UI / Negative	Signup with invalid mobile and short password	mobile 'abc', password 'short'	Field-level messages	Generic 'Validation failed' | Detail: Generic 'Validation failed' only. Evidence: Profile retested 11 Nov.	UI-03 / Fig. 13
TC-107	Customer - Registration & login	Functional	OTP rate limiting	4 signup attempts	Limit OTP sends per email	Per-IP 429 for 15+ min incl. empty requests | Detail: 429 'Too many OTP requests' for any email, even an empty body, for 15+ minutes. Evidence: 429 timestamps on 1 Nov.	FUN-12 / Fig. 14
TC-114	Customer - Registration & login	Security	Forgot password enumeration	Real vs unknown email	Identical response	Same message, timing 1.7 s vs 0.34 s | Detail: Same message, but 1,701 ms vs 337 ms. Evidence: Timings captured.	SEC-12
TC-119	Customer - Browse catalog	UI	First paint / hero widget	Home page	Store catalog only	Hero quick-booking lists hard-coded demo services | Detail: Hero widget offers 'The Royal Spa Sanctuary ($139)' / 'Hydro-Aroma Spa Bath ($65)' even when logged in to a store selling neither. Developer banner was removed in the 11 Nov build. Evidence: Page text.	UI-01 / Fig. 15
TC-120	Customer - Browse catalog	Functional	Advertised promo code	HEAVEN20	Valid coupon	Invalid format, no such coupon | Detail: 400 'Coupon code must be 6 characters'. Still in the 11 Nov build. Evidence: Banner text + API response.	FUN-15 / Fig. 16
TC-122	Customer - Browse catalog	Accessibility	Images alt, form labels, button names	DOM audit	All labelled	Newsletter email unlabeled | Detail: None. Evidence: DOM audit.	UI-09
TC-126	Customer - Pets	Security	HTML disguised as PNG	evil.png	Rejected by content check	Accepted, served as image/png, no nosniff | Detail: Accepted (pet 20) and served as image/png with HTML body, no nosniff. SVG/.html extensions are rejected. Evidence: GET /uploads/pets/pet-1794384464556-8818422.png returns the HTML.	SEC-09
TC-128	Customer - Pets	Validation	Free-text weight	'Gigantic'	400	Saved; priced as Medium | Detail: Saved; priced $55 (Medium) - an XL pet would be under-charged. Evidence: Pets 21, 22; booking 229.	FUN-14
TC-129	Customer - Pets	UI	Weight options	Add pet dropdown	Configured tiers only	Placeholder 'Weight band 1-4' shown | Detail: 'Weight band 1-4 (Set min-max lbs)' listed. Evidence: Dropdown.	UI-04
TC-141	Customer - Booking	Validation	Empty package	packageId 21	400	400 'no linked services' (but offered in wizard) | Detail: 400, yet packages 21-23 (and QP-REG on 11 Nov) saved, active, with no services. Evidence: Re-confirmed 11 Nov.	DB-04
TC-142	Customer - Booking	Validation	Invalid date	2026-02-30	400 'Invalid date'	400 'past dates' | Detail: 'Cannot book appointments on past dates'; 'Booking cancelled successfully' with status cancellation_requested. Evidence: Responses captured.	API-04
TC-145	Customer - Booking	Business logic	Same-day past time	Book 09:00 at 13:47 IST	Rejected	Accepted (#231) | Detail: Booking #231 at 09:00 created; all slots from 09:00 listed. Evidence: Availability + booking response.	FUN-13
TC-148	Cross-role - Booking lifecycle	UI	List refresh after accept	Requests tab	Consistent list and badge	Stale list | Detail: Only the accepted card remains under Requests; badge disagrees until tab switch/reload. Evidence: Page text.	UI-10
TC-152	Cross-role - Booking lifecycle	Security	Other groomer approves booking	QA Beta approves Alpha's #228	403	200 confirmed | Detail: 200 'Booking approved successfully'; status confirmed. Evidence: Beta token groomerId 109; booking groomerId 96.	SEC-02

TC ID	Module	Type	Scenario	Steps / test data	Expected result	Actual result & evidence	Bug / Fig
TC-153	Cross-role - Booking lifecycle	Functional	Customer cancels confirmed booking	#228	cancellation_requested	cancellation_requested (message says 'cancelled') | Detail: 'Cannot book appointments on past dates'; 'Booking cancelled successfully' with status cancellation_requested. Evidence: Responses captured. || Ambiguous labels. Evidence: Dialog text.	API-04/UI-07
TC-154	Cross-role - Booking lifecycle	Data integrity	Slot after cancellation request	Book #230 in same slot, Keep booking, approve	No overbooking	Two confirmed bookings in capacity-1 slot | Detail: Slot shown free; booking #230 created in the same slot. Evidence: Availability before/after; booking 230 created. || #228 and #230 both confirmed at 18 Nov 14:00-15:00 for a groomer with limit 1. Evidence: Groomer schedule 18 Nov shows both confirmed.	FUN-02/FUN-03
TC-155	Cross-role - Booking lifecycle	Functional	Customer reschedule via UI	#227 -> 19 Nov 11:30	Moved	404 'Groomer 96 not found' | Detail: 404 'Groomer 96 not found'. The same request without groomerId succeeds, so the UI path is broken. Evidence: PUT /api/bookings/227/reschedule request/response captured.	FUN-01
TC-162	Cross-role - Booking lifecycle	Validation	Tip negative / huge / bad method	-20, 1e9, 'bitcoin'	400 each	400 / 500 SQL / accepted | Detail: 200 'Tip of $5.00 confirmed'. Evidence: Response captured. || 500 "Out of range value for column 'tipAmount' at row 1". Evidence: API response captured.	API-01/SEC-05
TC-163	Cross-role - Booking lifecycle	Reporting	Admin dashboard after completion	QAA-001	completed +1, revenue +$55	completed 0, revenue $0 | Detail: Dashboard revenue $122 (pre-coupon) and earlier $0 for several seconds after a completion. Financial report: 3 completed checkouts (counts #235), sales $122, gross $147.34. Forecast revenue uses pre-coupon prices. Evidence: Dashboard totals, reports/summary and detail captured. || completedCount 1, completedSalesAmount $171.50 (includes unfinished #235); collected $141.84 (correct). Evidence: financialSummary captured.	DB-01/DB-03
TC-164	Cross-role - Booking lifecycle	Reporting	Groomer forecast after completion		Count and amount consistent	count 0, sales $55 | Detail: Dashboard revenue $122 (pre-coupon) and earlier $0 for several seconds after a completion. Financial report: 3 completed checkouts (counts #235), sales $122, gross $147.34. Forecast revenue uses pre-coupon prices. Evidence: Dashboard totals, reports/summary and detail captured. || completedCount 1, completedSalesAmount $171.50 (includes unfinished #235); collected $141.84 (correct). Evidence: financialSummary captured.	DB-01/DB-03
TC-165	Cross-role - Booking lifecycle	Functional	Receipt content	#231	Line items	lineItems empty | Detail: lineItems []; tax rate shown as 8.88 instead of 8.875. (Booking #236 receipt had 2 lines.) Evidence: Receipts 231 vs 236.	FUN-21
TC-167	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-002	Duplicate service code overwrite	Fixed	Still reproduces | Detail: Service 309 overwritten (name, prices, tiers) with toast 'Service created'; store content overwritten in place (same id 2). Evidence: Re-confirmed 11 Nov (service 310 overwritten then restored).	FUN-04
TC-168	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-003	10 failed logins, no throttling	Fixed	Still reproduces | Detail: 401 x25, then 200 'Login successful'. Retest 11 Nov: 10 x 401, no throttling. Evidence: Status sequence captured.	SEC-03
TC-169	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-004	stores/abc -> 500 SQL	Fixed	Still reproduces | Detail: 500 with messages such as "Cannot add or update a child row ... `shearheaven`.`store_master` ... REFERENCES `client_master` ... ON DELETE CASCADE" and "Unknown column 'NaN' in 'where clause'". Evidence: Captured responses; (b) re-confirmed 11 Nov.	SEC-04

TC ID	Module	Type	Scenario	Steps / test data	Expected result	Actual result & evidence	Bug / Fig
TC-170	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-005	Groomer in store NOPE-9 created	Fixed	Still reproduces | Detail: 201; login 200. Re-confirmed 11 Nov (NOPE-9). Evidence: Groomer ids 95, 110.	FUN-05
TC-171	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-006	Package with invalid service saved	Fixed	Still reproduces | Detail: 400, yet packages 21-23 (and QP-REG on 11 Nov) saved, active, with no services. Evidence: Re-confirmed 11 Nov.	DB-04
TC-172	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-009	Store hours 18:00-09:00 saved	Fixed	Still reproduces | Detail: 200 saved. Evidence: Re-confirmed 11 Nov.	FUN-08
TC-173	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-012	Duplicate holiday code saved	Fixed	Still reproduces | Detail: All created. Evidence: Re-confirmed 11 Nov.	FUN-09
TC-174	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-013	Tier min>max saved	Fixed	Still reproduces | Detail: Saved; defaults leave 10-11 lb and <1 lb uncovered. Evidence: Re-confirmed 11 Nov.	FUN-10
TC-175	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-016	Duplicate calls on groomer availability page	Fixed	Still reproduces | Detail: Each call made twice (re-confirmed on groomer availability, 11 Nov). Evidence: Resource timings.	PERF-02
TC-176	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-017	No security headers	Fixed	Still reproduces | Detail: None present; pages can be framed (clickjacking). Evidence: Header check 11 Nov.	SEC-10
TC-177	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-018	Swagger still public	Fixed	Still reproduces | Detail: Public; 26 endpoints listed (schemas empty). Evidence: HTTP 200 on 11 Nov.	SEC-11
TC-178	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-021	HEAVEN20 still in build	Fixed	Still reproduces | Detail: 400 'Coupon code must be 6 characters'. Still in the 11 Nov build. Evidence: Banner text + API response.	FUN-15
TC-179	Regression (build index-C-Bk9gyt, 11 Nov)	Regression	Re-test BUG-022	Dev banner 'start PetCareServer on port 3444'	Removed	Banner removed; hero widget still hard-coded | Detail: Hero widget offers 'The Royal Spa Sanctuary ($139)' / 'Hydro-Aroma Spa Bath ($65)' even when logged in to a store selling neither. Developer banner was removed in the 11 Nov build. Evidence: Page text.	UI-01
TC-181	Admin - Appointment book	UI	Week header matches grid	Same page	Header range = grid days	Header '2026-11-08 - 2026-11-13' but grid shows 11-08 ... 11-14	UI-14
TC-183	Admin - Reports	Database	Summary matches receipts (2 completions, coupon)	GET reports/summary 2026-11-11	2 completed, sales $116.50, gross $141.84	completedCheckouts 3, actualSalesTotal 122, actualGrossRevenue 147.34	DB-01
TC-187	Admin - Reports	API	PDF export	GET reports/export?format=pdf	PDF or 400	200 but content-type text/csv (CSV body)	API-02
TC-188	Admin - Reports	API	Inverted date range rejected	startDate 2026-11-30, endDate 2026-11-01	400	200 'Financial report summary retrieved'	API-02
TC-191	Admin - Dashboard	Database	Revenue after coupon completion	GET /common/dashboard after #231, #236 completed	Revenue $116.50 net	revenue 122 (pre-coupon); earlier 0 for several seconds after first completion	DB-01
TC-196	Admin - Store content	Data integrity	Duplicate key rejected	POST same contentKey again	409	201, same id 2 overwritten	FUN-04
TC-197	Admin - Store content	Validation	Invalid metadata JSON rejected	metadataJson '{not json'	400	201; stored metadata {}	FUN-11
TC-198	Admin - Store content	Integration	Content shown on customer site	Public endpoints / customer pages	Admin content visible	/api/public/content, /api/public/store-content -> 404; site content hard-coded	FUN-11
TC-201	Admin - Bookings	Business rule	Start only on appointment date	POST bookings/228/start on 11 Nov (booking 18 Nov)	400	200 'Appointment started successfully', status in_progress	FUN-06

TC ID	Module	Type	Scenario	Steps / test data	Expected result	Actual result & evidence	Bug / Fig
TC-202	Admin - Bookings	Functional	Complete actually completes	POST bookings/228/complete	completed or refused	200 'Appointment completed successfully' but status in_progress, stage grooming_completed, unpaid	FUN-06
TC-208	Admin - Customers	Validation	Edit name with punctuation	name 'QA Customer (admin edit)'	Saved or clear message	400 'name failed custom validation because' (truncated)	FUN-20
TC-211	Admin - UI	Responsive	Mobile 375 px	Admin pages at 375 px	No page overflow	scrollWidth 694 px on all 8 pages checked	UI-12 / Fig. 18, Fig. 19
