Shear Heaven Pet Care - QA Retest Report (updated)

All 76 issues in ShearHeaven_Retest_Report_BSLuOf2X were retested again on front-end build index-BSLuOf2X (14 Nov 2026 (2nd pass)) using the original reproduction steps. Issues are separated into Still Open, Partially Fixed, Blocked (could not be checked because the screen does not load) and Fixed. Every issue that is not fully fixed has a full record (ID, module/screen, steps, expected, actual, priority, current status) and screenshot evidence. No issue is marked Fixed without a retest.

Current status	Issues	High	Medium	Low
Open	6	2	2	2
Partially Fixed	4	0	2	2
Blocked	16	0	5	11
Fixed	50	3	14	33
Total	**76**	5	23	48

• NEW-REG-01 (High) is still open and is the main blocker: store QAA-001 contains a legacy 7-minute service and the 10-minute rule is applied when reading data. Admin Service master, the customer catalog and groomer Upcoming / Appointment book / Forecast fail (HTTP 400). Because of this, 16 issues are Blocked and UI-LP-01 remains regressed (demo catalog shown).
• No status changed compared with the first pass on this build earlier today; the build (index-BSLuOf2X) is unchanged.
• Test data: this pass left no records. Earlier leftovers: customer 14 email is qa.cust1101.tmp@mailinator.com (NEW-REG-02) and two inactive test services cannot be deleted while the service list fails.

Issues not fully fixed - overview

Issue ID	Module / Screen	Issue	Priority	Current status
NEW-REG-01	Service master / customer site / groomer portal (store QAA-001)	Store with a legacy service under 10 minutes: service lists, groomer schedule, forecast and customer site fail; creates/deletes report 400 but succeed	High	Open
NEW-VAL-04	Package master (Admin)	Creating a valid package fails with a lock-wait timeout	High	Open
NEW-REG-02	Admin > Customers - Email	Customer's own original email cannot be restored after a change (409 'Email already used')	Medium	Open
UI-LP-01	Landing page - Header / Hero (page load)	Developer 'demo content' banner and placeholder store shown on first load	Medium	Open
NEW-REG-03	Admin > Promotions > New coupon	'Coupon title is required' error shown before the user types anything	Low	Open
NEW-UI-07	Landing page - Services (1440 px)	Sticky category tab bar floats over service cards while scrolling	Low	Open
NEW-VAL-09	Customer (Admin)	Customer email can be set to an existing staff / groomer login	Medium	Partially Fixed
NEW-VAL-14	Groomer - Appointment modal (pet photos)	Upload control offered to groomers but uploads forbidden; oversized file gives 500	Medium	Partially Fixed
NEW-VAL-15	All Admin/Groomer forms	No maxlength on text inputs	Low	Partially Fixed
NEW-VAL-18	Validation messages (all portals)	Raw / technical server messages shown to users	Low	Partially Fixed
NEW-UI-02	Groomer - Appointment book	Appointment preview panel opens partly off-screen	Medium	Blocked
NEW-UI-06	Landing page - All Inclusive Spa Packages (1440 px)	Single package card squeezed to 136 px and off-centre; price clipped	Medium	Blocked
UI-GR-01	Groomer portal - Appointment book	Two appointments at the same start time are drawn on top of each other - one is hidden	Medium	Blocked
UI-GR-02	Groomer portal - Appointment book (mobile)	Time axis scrolls out of view and the colour legend is clipped inside the horizontal scroller	Medium	Blocked
UI-GR-03	Groomer portal - My appointments - Upcoming	Page instructions refer to an 'Update milestone' button that is not shown on any card	Medium	Blocked

Issue ID	Module / Screen	Issue	Priority	Current status
NEW-UI-01	Groomer - Appointment book	Stacked 12:45 PM block overflows into the 2:00 PM block	Low	Blocked
NEW-UI-03	Groomer - Appointment book	Clicking an existing appointment on a past day shows an unrelated error toast	Low	Blocked
NEW-UI-04	Groomer - Appointment modal	Time in header card truncated and phone unformatted	Low	Blocked
UI-GR-04	Groomer portal - My availability / Appointment details	Internal technical text and raw codes shown to groomers	Low	Blocked
UI-GR-08	Groomer portal - Appointment book / Availability / Reports / Notifications	Inconsistent date and time formats	Low	Blocked
UI-GR-09	Groomer portal - Forecast & reports	Appointment statuses shown as raw lowercase text	Low	Blocked
UI-GR-17	Groomer portal - Appointment details - Client tab	Read-only client fields look like editable inputs	Low	Blocked
UI-LP-08	Landing page - Signature Spa & Salon Services	Every service card uses the same placeholder photo	Low	Blocked
UI-LP-09	Landing page - Services / Packages / Stylists	Card rows with only 1-2 items are left-aligned, leaving large empty areas	Low	Blocked
UI-LP-10	Landing page - Meet Our Certified Pet Stylists	Carousel arrows shown and active although every stylist is already visible	Low	Blocked
UI-LP-19	Landing page - All Inclusive Spa Packages	Only package carries a 'Most Recommended' badge and a redundant price note	Low	Blocked

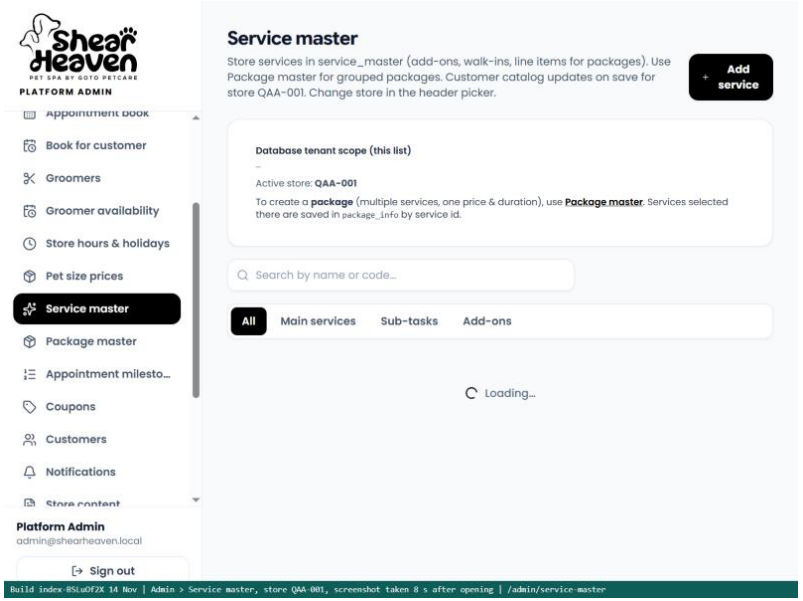

Section 1 - Still Open (6 issues)

NEW-REG-01	Store with a legacy service under 10 minutes: service lists, groomer schedule, forecast and customer site fail; creates/deletes report 400 but succeed
Module / Screen	Service master / customer site / groomer portal (store QAA-001)
Priority	High
Current status	Open
Steps to reproduce	1. Admin token: GET /api/common/service-master and GET /api/service-packages for StoreId QAA-001 (store contains legacy 7-minute service 'QA OddDur'). 2. Open Admin > Service master, Groomer portal > My appointments > Upcoming, Appointment book, Forecast & reports, and the landing page with QAA-001 selected. 3. POST a valid service, then repeat the same serviceCode.
Expected result	Existing data that predates the 10-minute rule is still listed (or flagged) - the new rule should only apply when saving; pages load normally.
Actual result	Retest 14 Nov (index-BSLuOf2X): GET service-master / public service-packages / groomer schedule, upcoming, forecast and customer detail for QAA-001 still return 400 'Service duration must be at least 10 minutes.' because the store holds a legacy 7-minute service. UI: Admin > Service master stays on 'Loading...' indefinitely (screenshot 8 s after open); groomer Upcoming/Appointment book/Forecast do not load; landing page falls back to demo data.
Status in previous report	New (regression)

Evidence for NEW-REG-01 (2 screenshots):

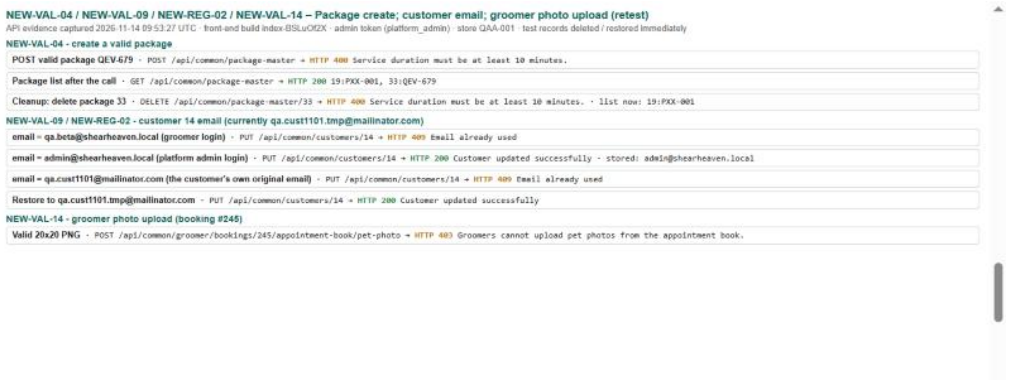

API panel: service-master / service-packages / groomer schedule etc. for QAA-001 -> 400 "Service duration must be at least 10 minutes."

Admin > Service master (QAA-001) 8 s after opening: list stuck on "Loading...".

NEW-VAL-04	Creating a valid package fails with a lock-wait timeout
Module / Screen	Package master (Admin)
Priority	High
Current status	Open
Steps to reproduce	1. POST /api/common/package-master with a valid package (one service, #309, 4 size tiers). 2. Wait for the response; re-read the package list.
Expected result	Package created (HTTP 201) within a few seconds.
Actual result	Creating a valid package (QEV-679) still returns HTTP 400 'Service duration must be at least 10 minutes.', yet the package is saved (list shows 33:QEV-679). Deleting it also returns 400 with the same message although the package is removed (list back to 19:PXX-001).
Status in previous report	Still Reproducible

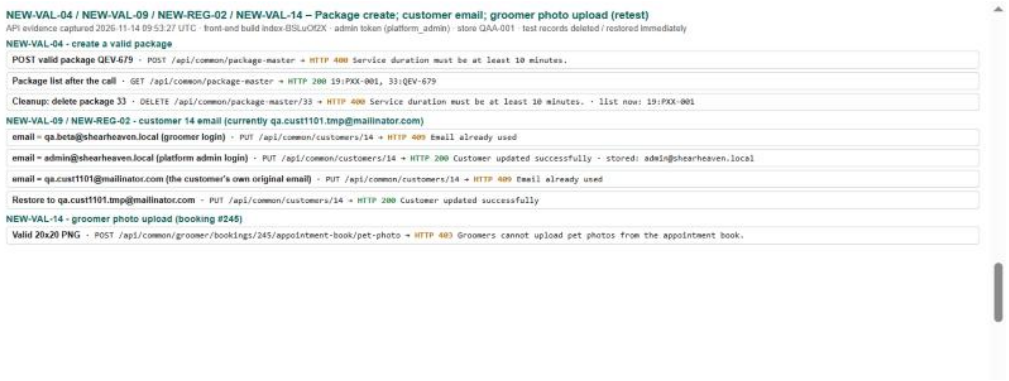

Evidence for NEW-VAL-04 (1 screenshot):

API panel (2nd pass): package create/delete 400 but applied (NEW-VAL-04); customer email accepts admin login email (NEW-VAL-09); own email restore 409 (NEW-REG-02); groomer PNG upload 403 (NEW-VAL-14).

NEW-REG-02	Customer's own original email cannot be restored after a change (409 'Email already used')
Module / Screen	Admin > Customers - Email
Priority	Medium
Current status	Open
Steps to reproduce	1. PUT /api/common/customers/14 with email admin@shearheaven.local (accepted). 2. PUT again with the original email qa.cust1101@mailinator.com.
Expected result	The customer's own previous email can be set back; the duplicate check excludes the customer's own login.
Actual result	Setting customer 14 back to its own original email qa.cust1101@mailinator.com still fails: HTTP 409 'Email already used'. Customer remains on qa.cust1101.tmp@mailinator.com.
Status in previous report	New (regression)

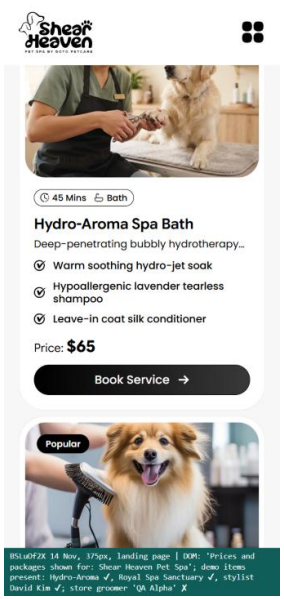

Evidence for NEW-REG-02 (1 screenshot):

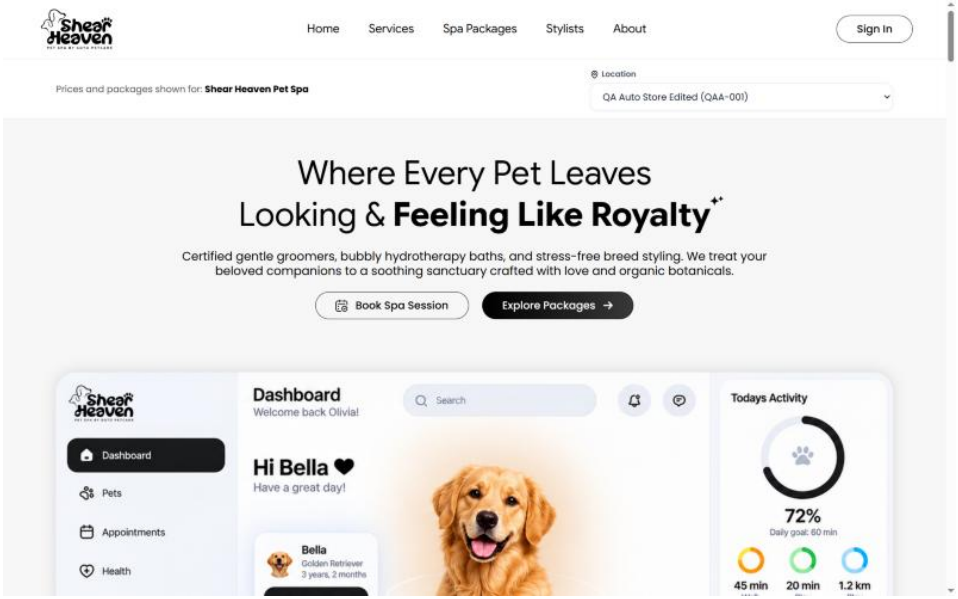

API panel (2nd pass): package create/delete 400 but applied (NEW-VAL-04); customer email accepts admin login email (NEW-VAL-09); own email restore 409 (NEW-REG-02); groomer PNG upload 403 (NEW-VAL-14).

UI-LP-01	Developer 'demo content' banner and placeholder store shown on first load
Module / Screen	Landing page - Header / Hero (page load)
Priority	Medium
Current status	Open
Steps to reproduce	1. Open https://pcmdev.shearheavenpetspa.com/ in a fresh tab (signed out). 2. Watch the top of the page while it loads (first ~1 s).
Expected result	No developer/debug message is ever shown to visitors; the location bar renders in its final state (or a neutral skeleton) without content jumping.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Still regressed: with store QAA-001 the landing page shows 'Prices and packages shown for: Shear Heaven Pet Spa' and built-in demo content (service 'Hydro-Aroma Spa Bath $65', package 'The Royal Spa Sanctuary', stylist 'David Kim'); the store's own groomers (QA Alpha) are not shown. Cause: GET /api/service-packages for QAA-001 → 400 (NEW-REG-01).
Status in previous report	Still Reproducible

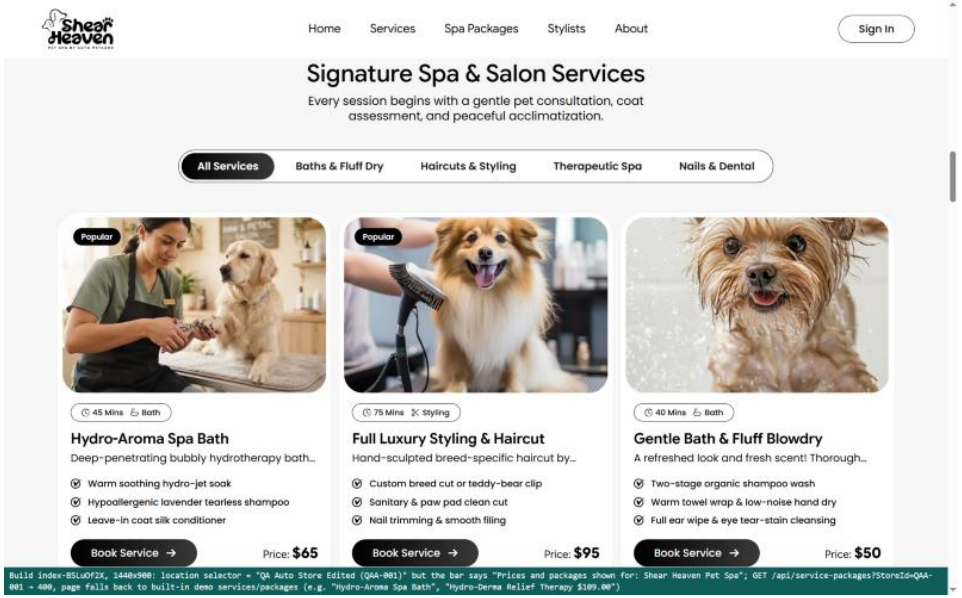

Evidence for UI-LP-01 (4 screenshots):

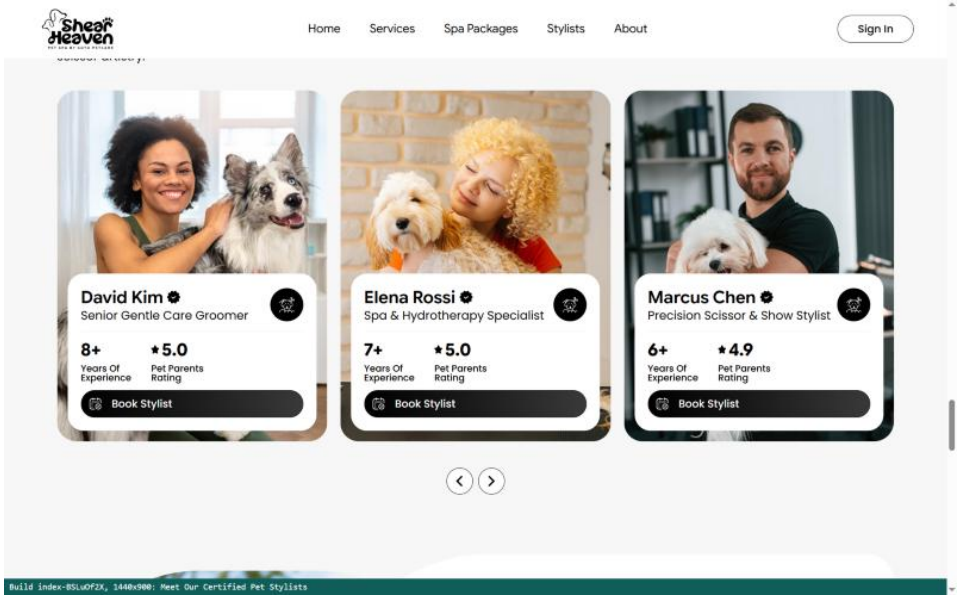

Landing page with QAA-001: demo service "Hydro-Aroma Spa Bath $65" shown; DOM banner confirms demo package/stylist present and QA Alpha absent.

UI-LP-01: Retest 14 Nov (index-BSLuOf2X, 2nd pass): Still regressed: with store QAA-001 the landing page shows 'Prices and packages shown for: Shear Heaven Pet ...

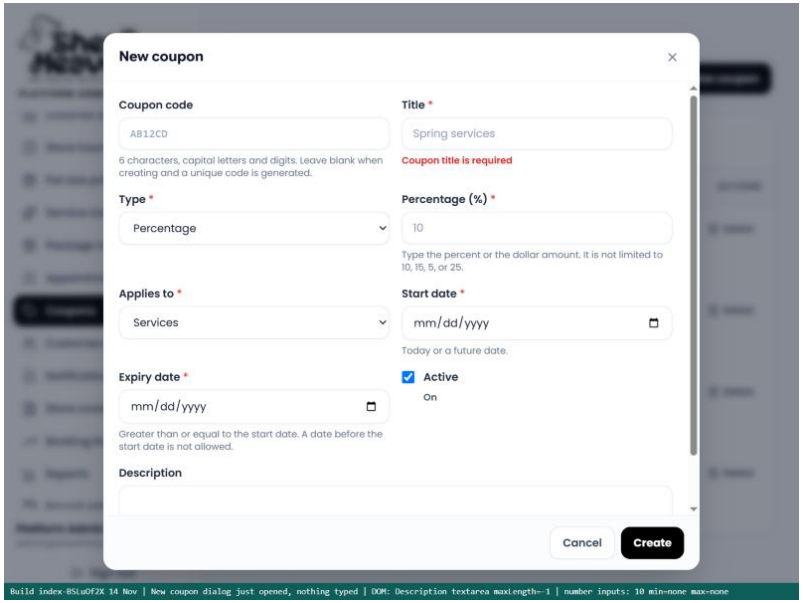

UI-LP-01: Retest 14 Nov (index-BSLuOf2X, 2nd pass): Still regressed: with store QAA-001 the landing page shows 'Prices and packages shown for: Shear Heaven Pet ...

UI-LP-01: Retest 14 Nov (index-BSLuOf2X, 2nd pass): Still regressed: with store QAA-001 the landing page shows 'Prices and packages shown for: Shear Heaven Pet ...

NEW-REG-03	'Coupon title is required' error shown before the user types anything
Module / Screen	Admin > Promotions > New coupon
Priority	Low
Current status	Open
Steps to reproduce	1. Admin > Promotions > New coupon. 2. Look at the Title field without typing.
Expected result	Required-field errors appear only after the user leaves the field or submits.
Actual result	Retest 14 Nov (index-BSLuOf2X): Admin > Coupons > New coupon - the red error 'Coupon title is required' is shown immediately when the dialog opens, before anything is typed or Create is pressed.
Status in previous report	New

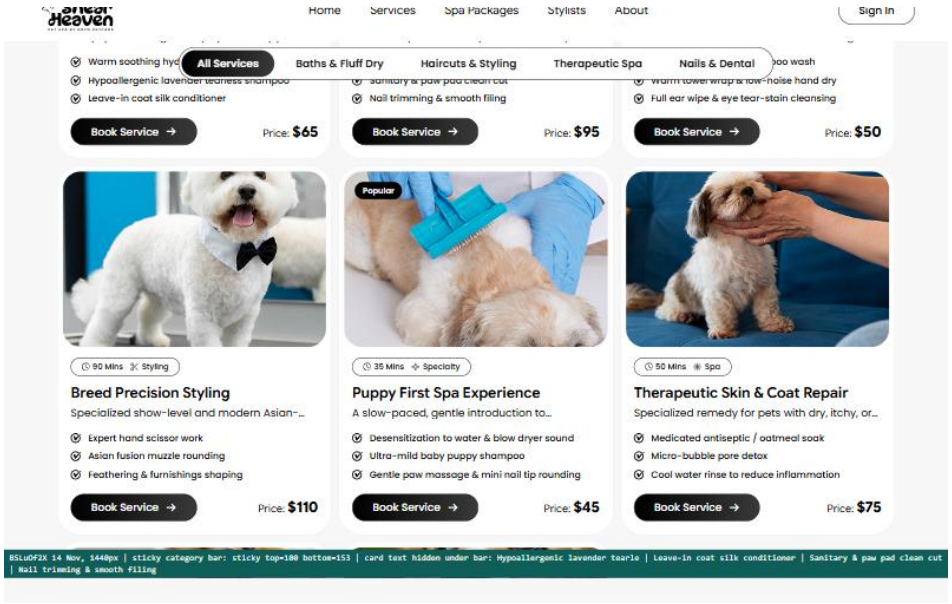

Evidence for NEW-REG-03 (1 screenshot):

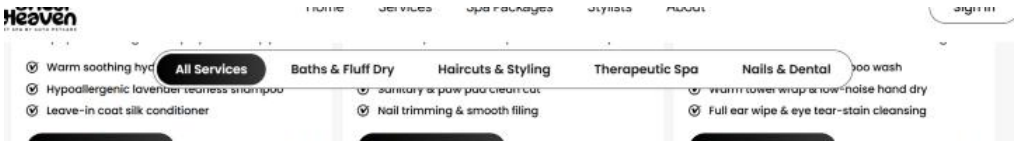

Admin > Coupons > New coupon right after opening: "Coupon title is required" already shown; Description maxLength -1, Percentage no min/max.

NEW-UI-07	Sticky category tab bar floats over service cards while scrolling
Module / Screen	Landing page - Services (1440 px)
Priority	Low
Current status	Open
Steps to reproduce	1. Landing page at 1440 px. 2. Scroll slowly through Signature Spa & Salon Services.
Expected result	Sticky bar does not cover card content (add top offset/background or make it non-sticky).
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): 1440 px: sticky category bar (position: sticky, top 100–153 px) sits over the service cards while scrolling; card lines 'Hypoallergenic lavender tearless shampoo', 'Sanitary & paw pad clean cut' etc. are hidden under it.
Status in previous report	New

Evidence for NEW-UI-07 (2 screenshots):

Landing page 1440 px: sticky category tab bar covering the service-card bullet lines.

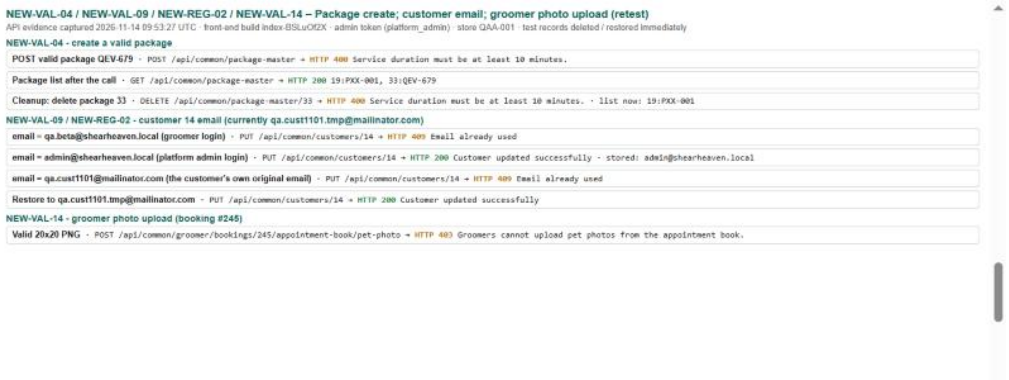

Close-up of the same: card text hidden behind "All Services ... Nails & Dental" bar.

Section 2 - Partially Fixed (4 issues)

NEW-VAL-09	Customer email can be set to an existing staff / groomer login
Module / Screen	Customer (Admin)
Priority	Medium
Current status	Partially Fixed
Steps to reproduce	1. PUT /api/common/customers/14 with email admin@shearheaven.local. 2. Repeat with qa.beta@shearheaven.local. 3. Restore.
Expected result	HTTP 409 'Email already used' (as when creating a store admin with a groomer email).
Actual result	Groomer login email is rejected (409 'Email already used'), but customer 14 can still be given the platform-admin login email admin@shearheaven.local (HTTP 200 'Customer updated successfully'; restored afterwards).
Status in previous report	Partially Fixed

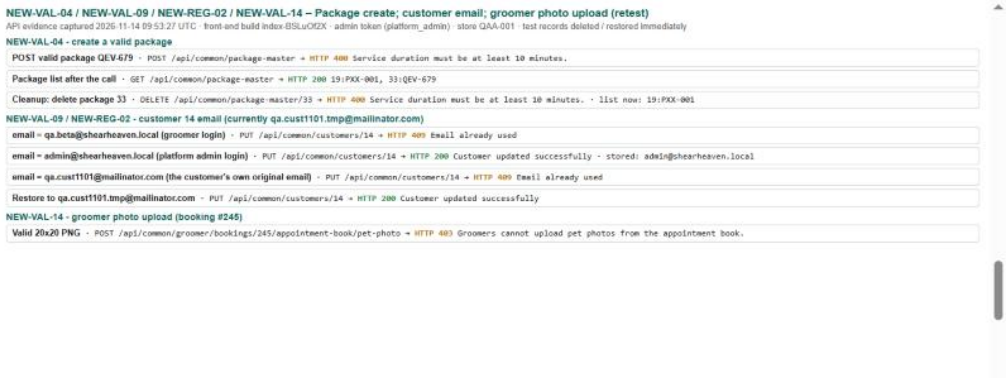

Evidence for NEW-VAL-09 (1 screenshot):

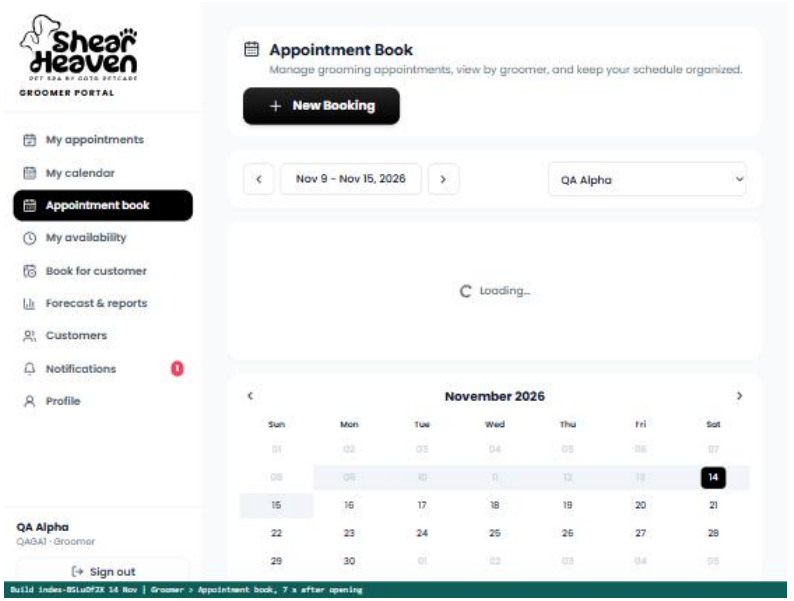

API panel (2nd pass): package create/delete 400 but applied (NEW-VAL-04); customer email accepts admin login email (NEW-VAL-09); own email restore 409 (NEW-REG-02); groomer PNG upload 403 (NEW-VAL-14).

NEW-VAL-14	Upload control offered to groomers but uploads forbidden; oversized file gives 500
Module / Screen	Groomer - Appointment modal (pet photos)
Priority	Medium
Current status	Partially Fixed
Steps to reproduce	1. Groomer portal (QA Alpha), store QAA-001: Appointment book > #231 > Pet details > Photos. 2. POST /api/common/groomer/bookings/245/appointment-book/pet-photo with a valid PNG, a .txt file and a 12 MB file.
Expected result	Either groomers can upload, or the control is hidden. Oversized file → 413/400 with the size limit.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): API: valid PNG upload by groomer still → 403 'Groomers cannot upload pet photos from the appointment book.'; 12 MB → 413 and .txt → 400 remain correct (earlier today). UI part blocked: Appointment book does not load (NEW-REG-01).
Status in previous report	Partially Fixed

Evidence for NEW-VAL-14 (3 screenshots):

API panel (2nd pass): package create/delete 400 but applied (NEW-VAL-04); customer email accepts admin login email (NEW-VAL-09); own email restore 409 (NEW-REG-02); groomer PNG upload 403 (NEW-VAL-14).

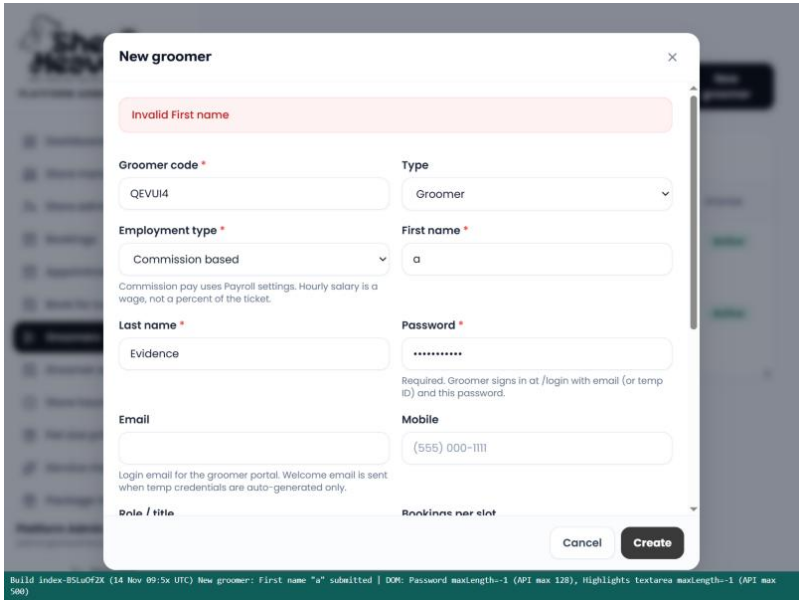

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

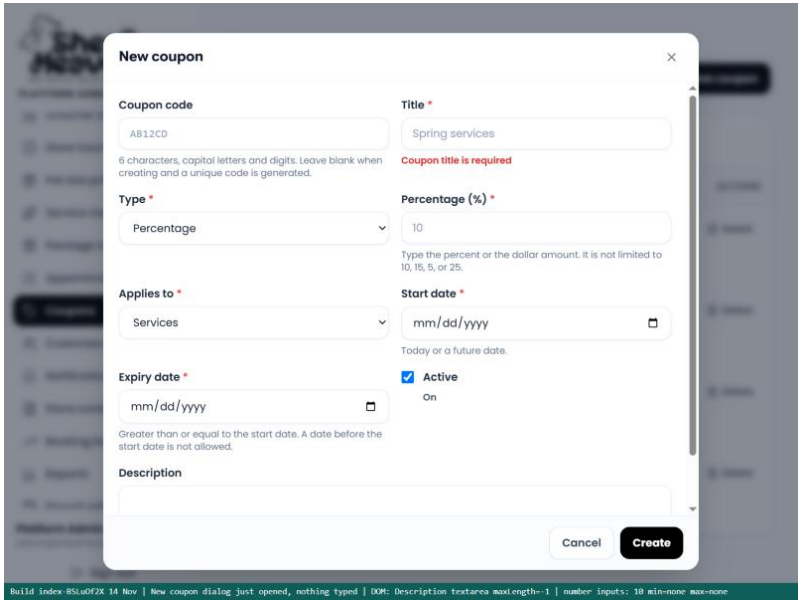

NEW-VAL-14: Retest 14 Nov (index-BSLuOf2X, 2nd pass): API: valid PNG upload by groomer still → 403 'Groomers cannot upload pet photos from the appointment book.';...

NEW-VAL-15	No maxlength on text inputs
Module / Screen	All Admin/Groomer forms
Priority	Low
Current status	Partially Fixed
Steps to reproduce	1. Admin portal (admin@shearheaven.local), store QAA-001: Groomers > New groomer; type 150 characters in First name. 2. Promotions > New coupon; type 256 characters in Title. 3. Inspect input attributes.
Expected result	Inputs limited to the API limits (e.g. 100 / 255).
Actual result	Retest 14 Nov (index-BSLuOf2X): API rejects over-length values, but the UI still has no client-side limits on several fields: New groomer Password maxLength=-1 (API max 128) and Highlights maxLength=-1 (API max 500); New coupon Description maxLength=-1 and Percentage number input has no min/max. Other fields (codes, names, email, mobile, role, coupon title) are capped correctly.
Status in previous report	Partially Fixed

Evidence for NEW-VAL-15 (2 screenshots):

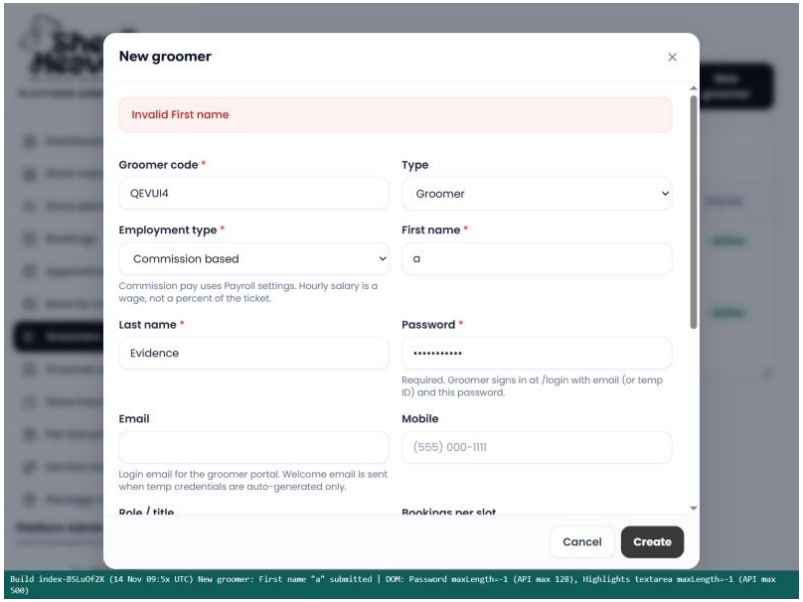

Admin > Groomers > New groomer, First name "a": generic "Invalid First name" banner; DOM banner shows Password and Highlights maxLength = -1 (no limit).

Admin > Coupons > New coupon right after opening: "Coupon title is required" already shown; Description maxLength -1, Percentage no min/max.

NEW-VAL-18	Raw / technical server messages shown to users
Module / Screen	Validation messages (all portals)
Priority	Low
Current status	Partially Fixed
Steps to reproduce	1. New groomer with 150-char First name > Create. 2. New groomer with Bookings per slot 0 > Create. 3. Groomer portal (QA Alpha), store QAA-001: Profile > First name 101 chars > Save. 4. New coupon with 256-char title > Create.
Expected result	Friendly field-level messages (e.g. 'First name can be at most 100 characters').
Actual result	Retest 14 Nov (index-BSLuOf2X): Admin > Groomers > New groomer with First name 'a' (1 char) and Create - the form still shows only the generic banner 'Invalid First name'; it does not say why (e.g. minimum 2 characters). The API-level validation itself works (record is rejected, nothing saved).
Status in previous report	Partially Fixed

Evidence for NEW-VAL-18 (1 screenshot):

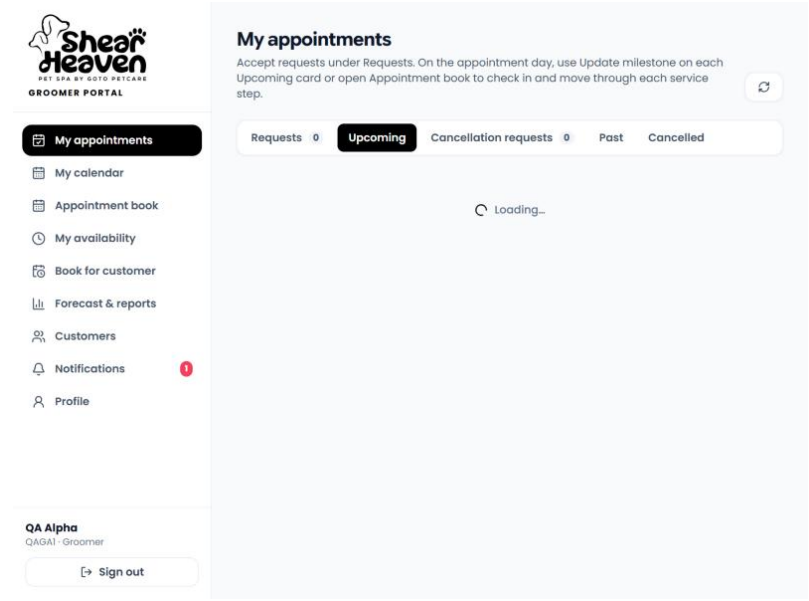

Admin > Groomers > New groomer, First name "a": generic "Invalid First name" banner; DOM banner shows Password and Highlights maxLength = -1 (no limit).

Section 3 - Blocked - Unable to Verify on this build (16 issues)

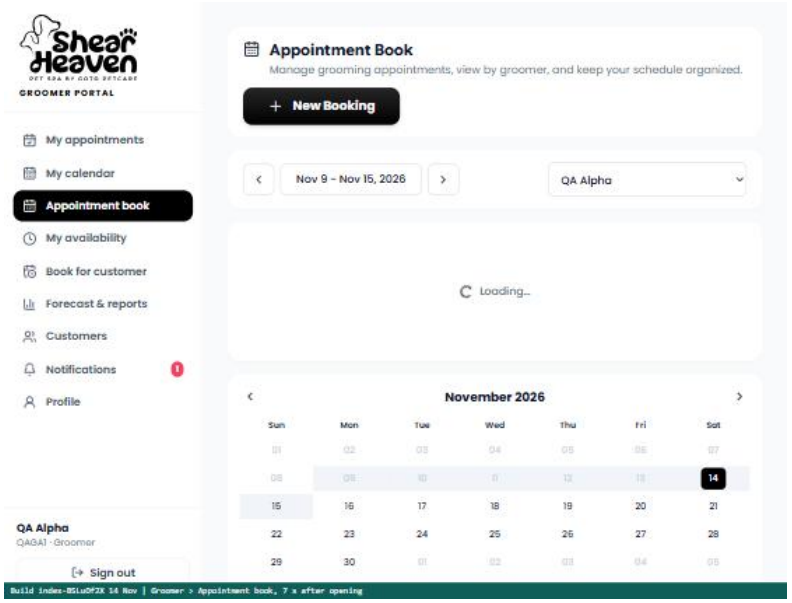

These issues could not be reproduced or confirmed because the screen they are on does not load on this build (NEW-REG-01). They are not counted as fixed. The screenshots show the blocking state.

NEW-UI-02	Appointment preview panel opens partly off-screen
Module / Screen	Groomer - Appointment book
Priority	Medium
Current status	Blocked
Steps to reproduce	1. Appointment book. 2. Scroll so the 2:00 PM block on 11 Nov is near the bottom of the screen and click it.
Expected result	The preview panel opens fully inside the viewport (flips upward near the bottom).
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Blocked on this build: Appointment book never loads (endless 'Loading…'; GET /api/common/groomer/schedule and /api/service-packages → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so no appointment block can be clicked to open the preview panel.
Status in previous report	Unable to Verify

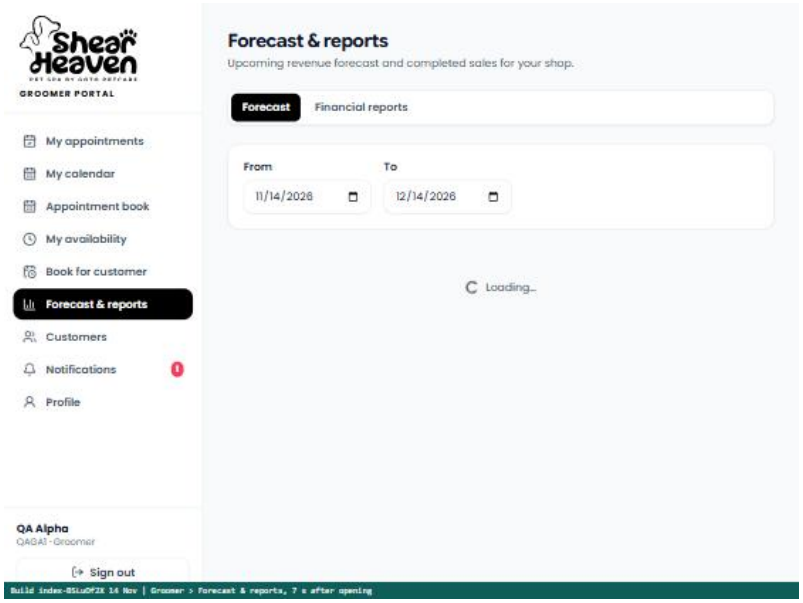

Evidence for NEW-UI-02 (4 screenshots):

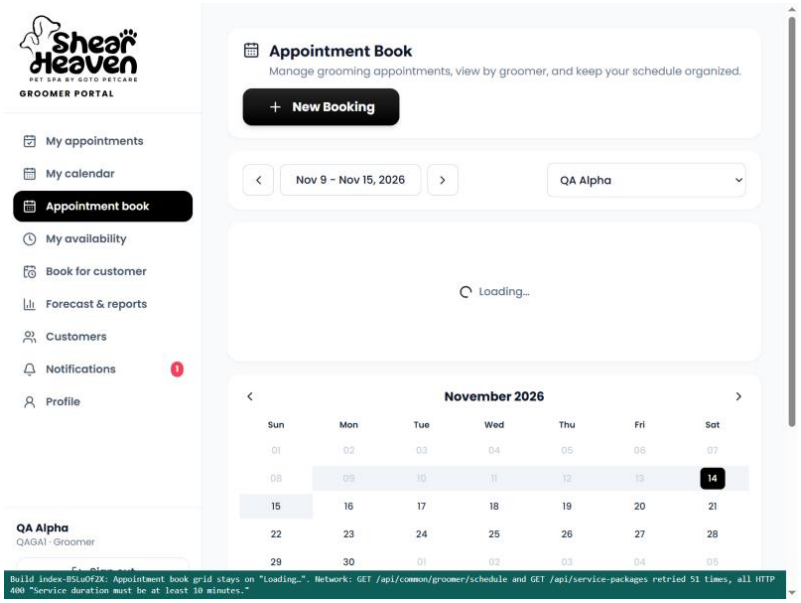

Groomer > My appointments > Upcoming: stays on "Loading…" (blocked by NEW-REG-01).

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

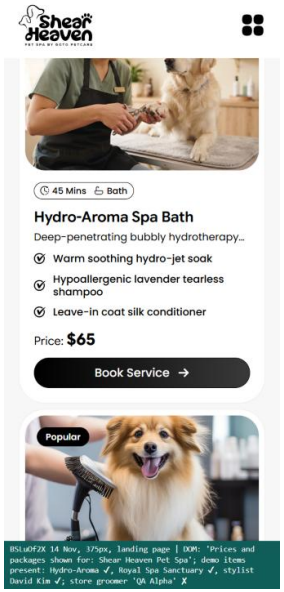

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

NEW-UI-02: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

NEW-UI-06	Single package card squeezed to 136 px and off-centre; price clipped
Module / Screen	Landing page - All Inclusive Spa Packages (1440 px)
Priority	Medium
Current status	Blocked
Steps to reproduce	1. Landing page at 1440 px (signed out). 2. Scroll to All Inclusive Spa Packages.
Expected result	A single package card uses a normal card width, is centred, and its price/text fit inside the card.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - page shows 4 demo packages instead of QAA-001's own package (NEW-REG-01), so the single-package layout cannot be reproduced.
Status in previous report	Unable to Verify

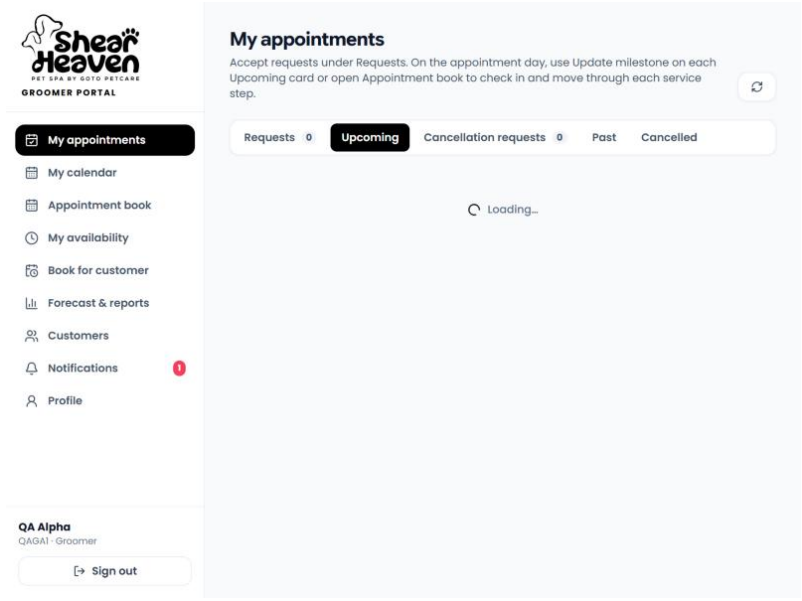

Evidence for NEW-UI-06 (1 screenshot):

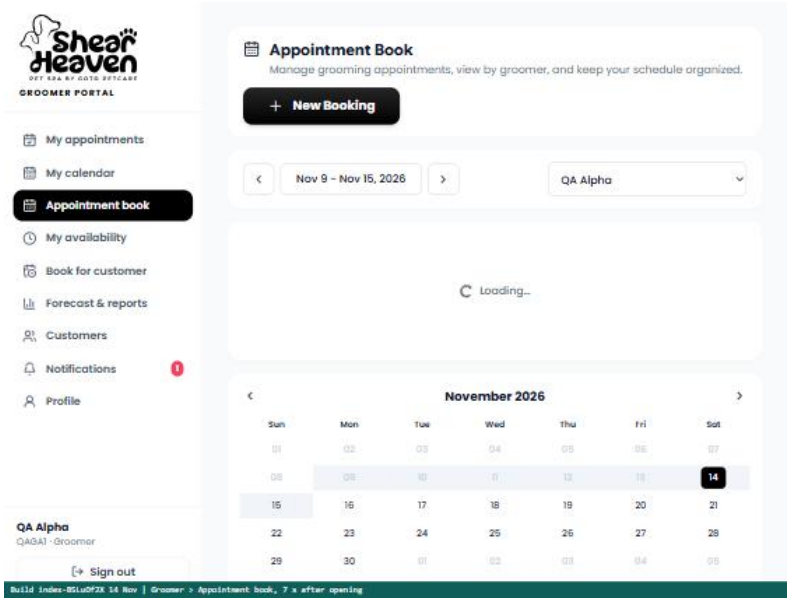

Landing page with QAA-001: demo service "Hydro-Aroma Spa Bath $65" shown; DOM banner confirms demo package/stylist present and QA Alpha absent.

UI-GR-01	Two appointments at the same start time are drawn on top of each other - one is hidden
Module / Screen	Groomer portal - Appointment book
Priority	Medium
Current status	Blocked
Steps to reproduce	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Appointment book. 3. Look at Wed 2026-11-11, 9:00 AM.
Expected result	Simultaneous appointments are shown as a stacked block with a count (as at 12:45/5:00) or side by side, so no appointment is hidden.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Blocked on this build: Appointment book never loads (endless 'Loading…'; GET /api/common/groomer/schedule and /api/service-packages → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so the stacked 9:00 AM block cannot be viewed.
Status in previous report	Unable to Verify

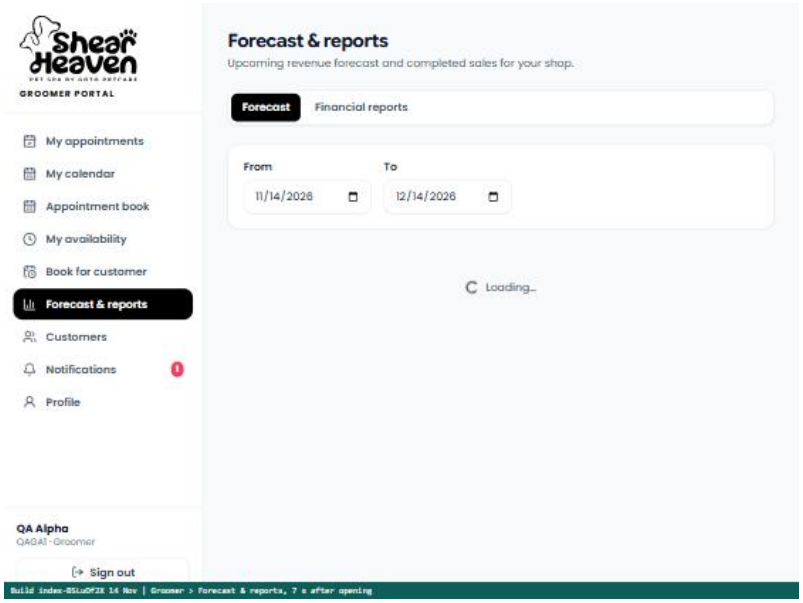

Evidence for UI-GR-01 (4 screenshots):

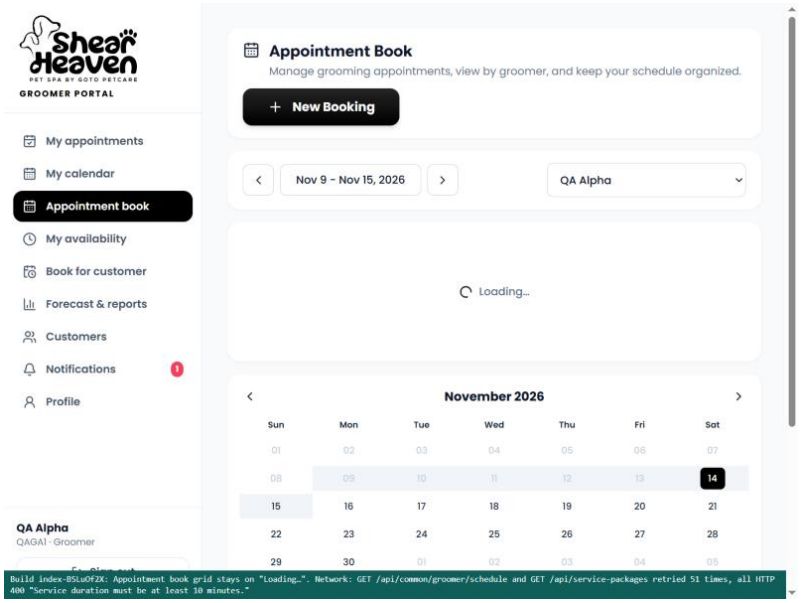

Groomer > My appointments > Upcoming: stays on "Loading…" (blocked by NEW-REG-01).

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

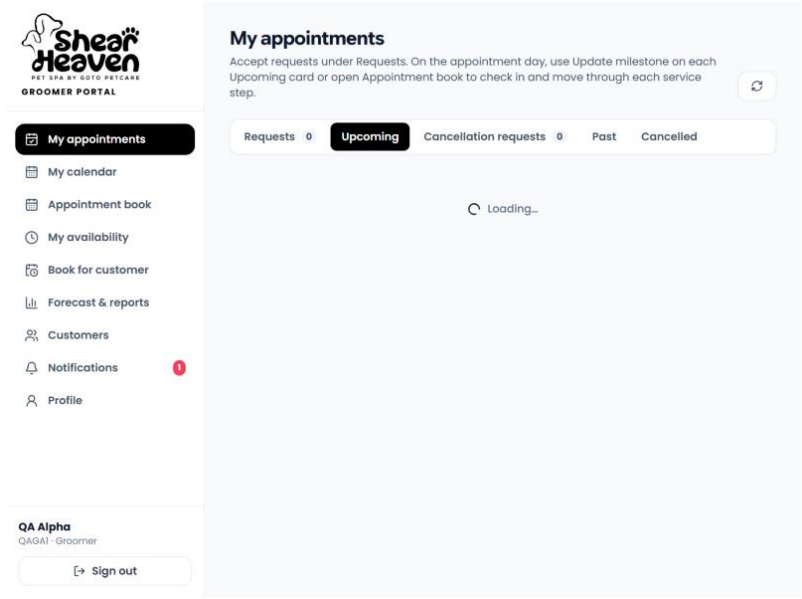

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

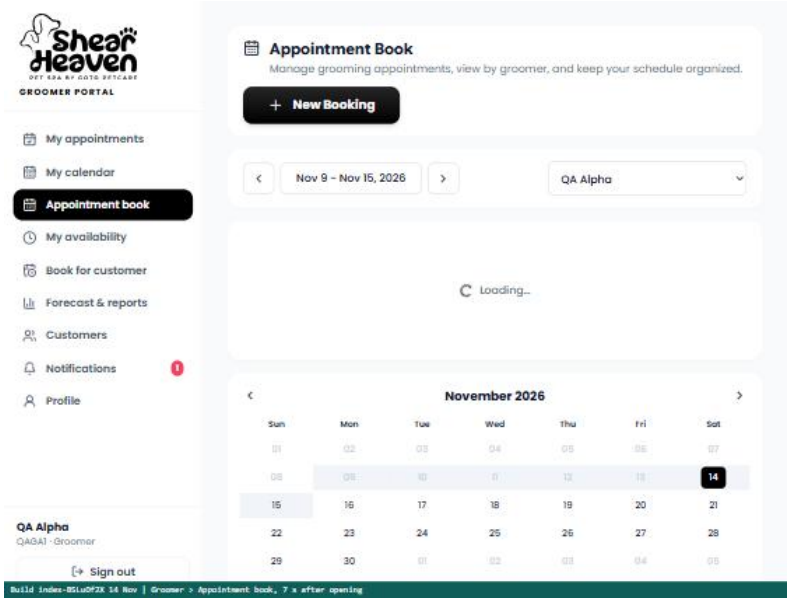

UI-GR-01: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

UI-GR-02	Time axis scrolls out of view and the colour legend is clipped inside the horizontal scroller
Module / Screen	Groomer portal - Appointment book (mobile)
Priority	Medium
Current status	Blocked
Steps to reproduce	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Set the viewport to 375x812 and open Appointment book. 3. Scroll the week grid sideways to reach today's column.
Expected result	Time column stays pinned while scrolling horizontally, and the legend is placed outside the scrolling grid so it is always fully readable.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Appointment book grid never loads on this build (NEW-REG-01), so sideways scrolling on mobile cannot be checked.
Status in previous report	Unable to Verify

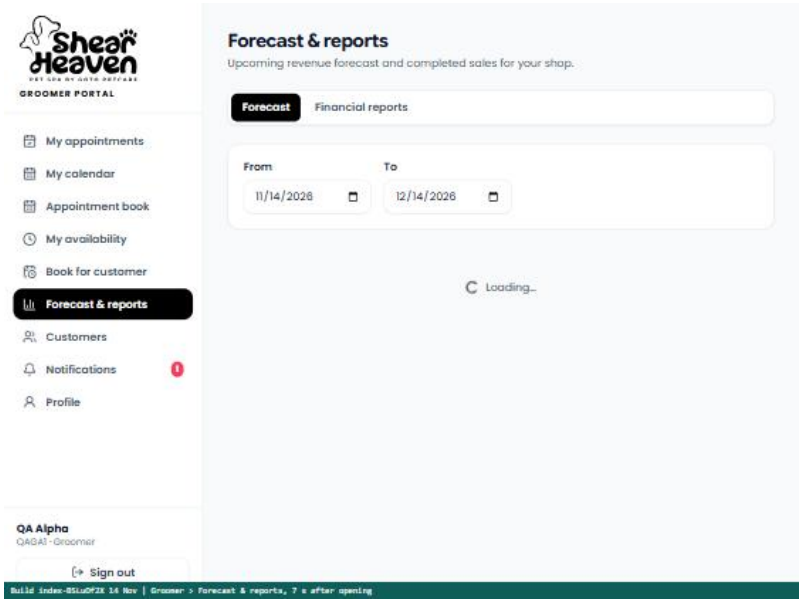

Evidence for UI-GR-02 (4 screenshots):

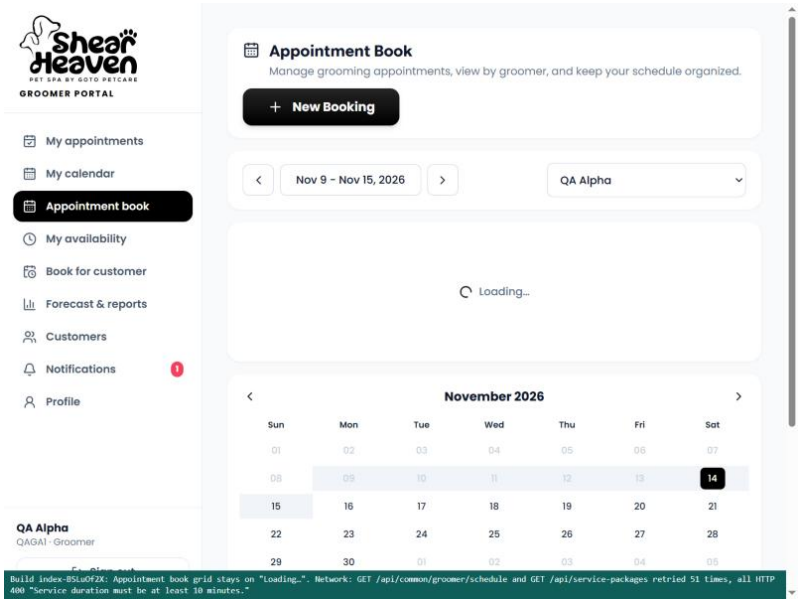

Groomer > My appointments > Upcoming: stays on "Loading…" (blocked by NEW-REG-01).

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

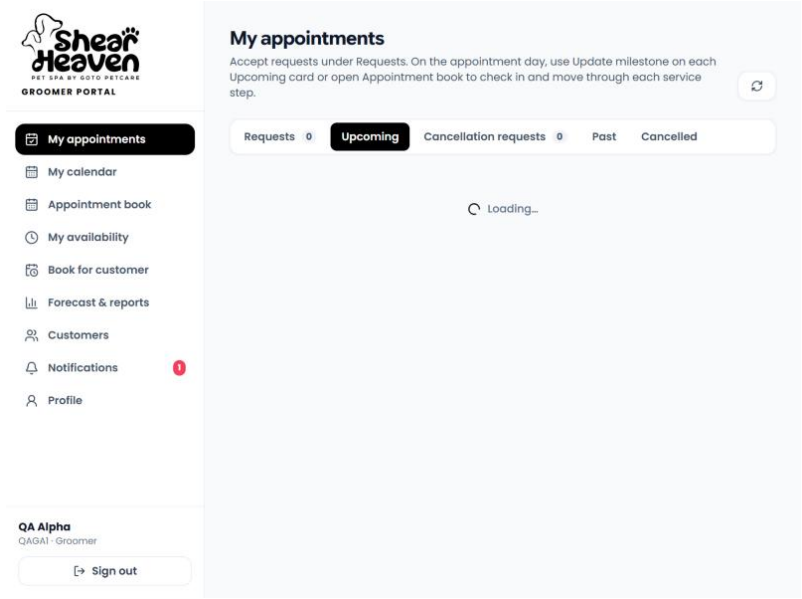

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

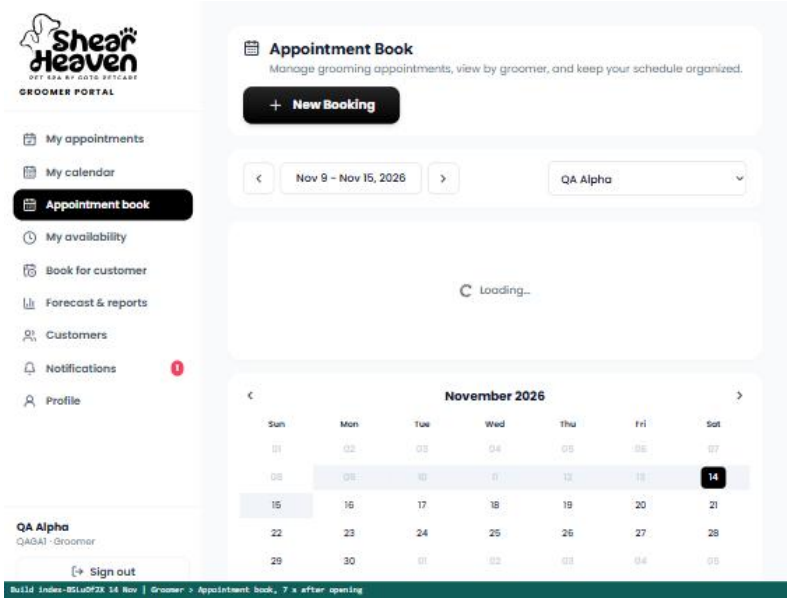

UI-GR-02: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

UI-GR-03	Page instructions refer to an 'Update milestone' button that is not shown on any card
Module / Screen	Groomer portal - My appointments - Upcoming
Priority	Medium
Current status	Blocked
Steps to reproduce	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. On My appointments, read the subtitle. 3. Open the Upcoming tab.
Expected result	Either the cards show the action the instructions describe, or the instruction text is updated to describe where milestones are updated (e.g. Appointment book).
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Upcoming tab never loads on this build (endless 'Loading…', GET /api/common/groomer/bookings/upcoming → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so the 'Update milestone' buttons cannot be seen. Subtitle text unchanged.
Status in previous report	Unable to Verify

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

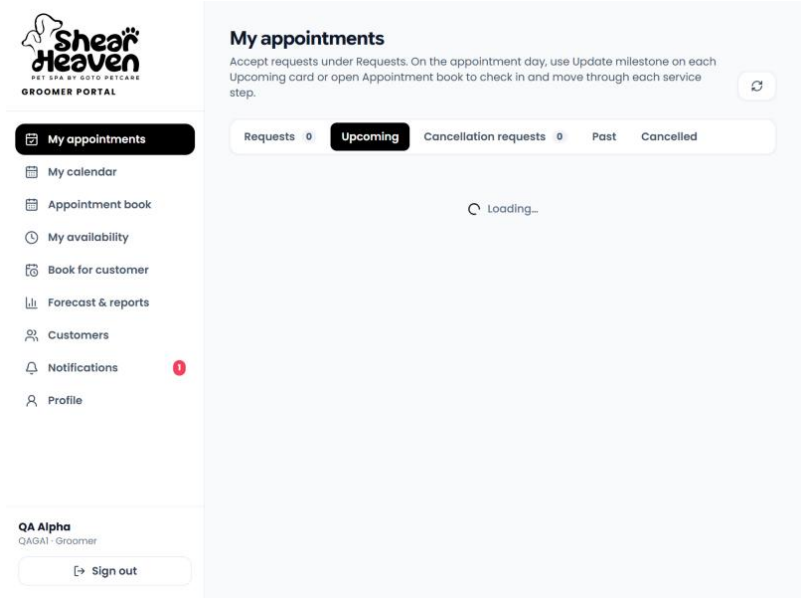

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

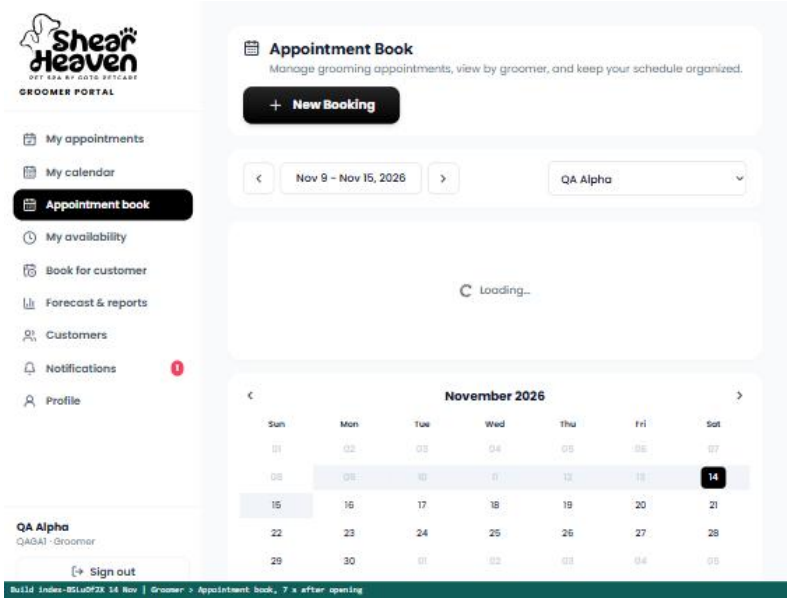

UI-GR-03: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

NEW-UI-01	Stacked 12:45 PM block overflows into the 2:00 PM block
Module / Screen	Groomer - Appointment book
Priority	Low
Current status	Blocked
Steps to reproduce	1. Groomer portal (QA Alpha) > Appointment book, week Nov 9-15. 2. Look at Wed 11 Nov 12:45 PM - 2:00 PM.
Expected result	Stacked blocks never overlap the next time slot; every line of each appointment is readable.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Blocked on this build: Appointment book never loads (endless 'Loading…'; GET /api/common/groomer/schedule and /api/service-packages → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so the 12:45 / 2:00 PM blocks cannot be viewed.
Status in previous report	Unable to Verify

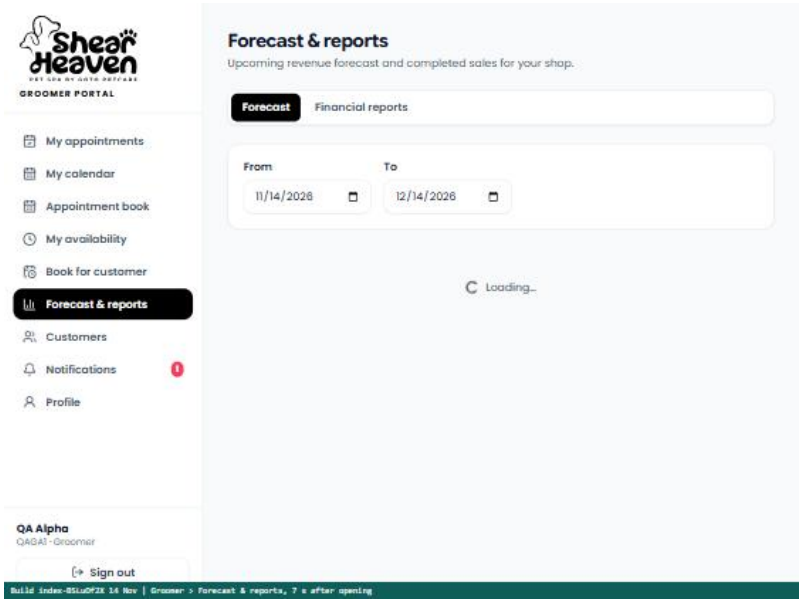

Evidence for NEW-UI-01 (4 screenshots):

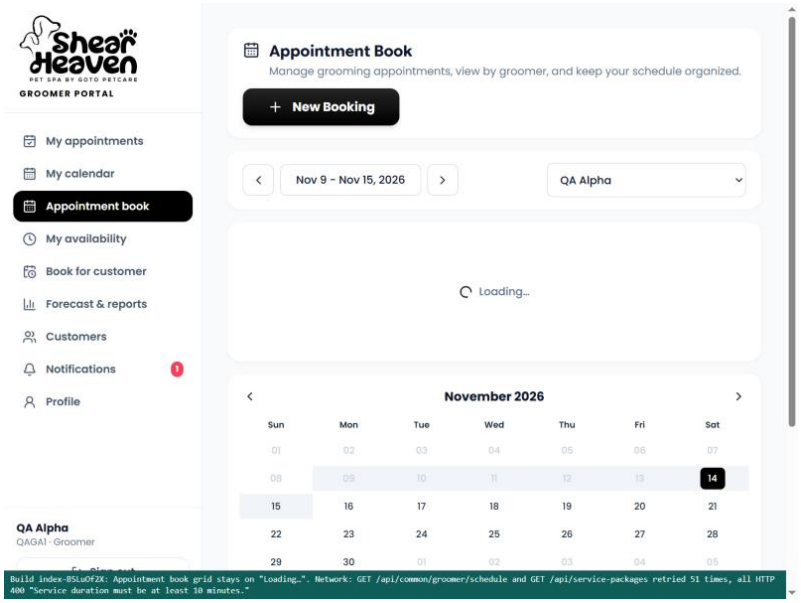

Groomer > My appointments > Upcoming: stays on "Loading…" (blocked by NEW-REG-01).

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

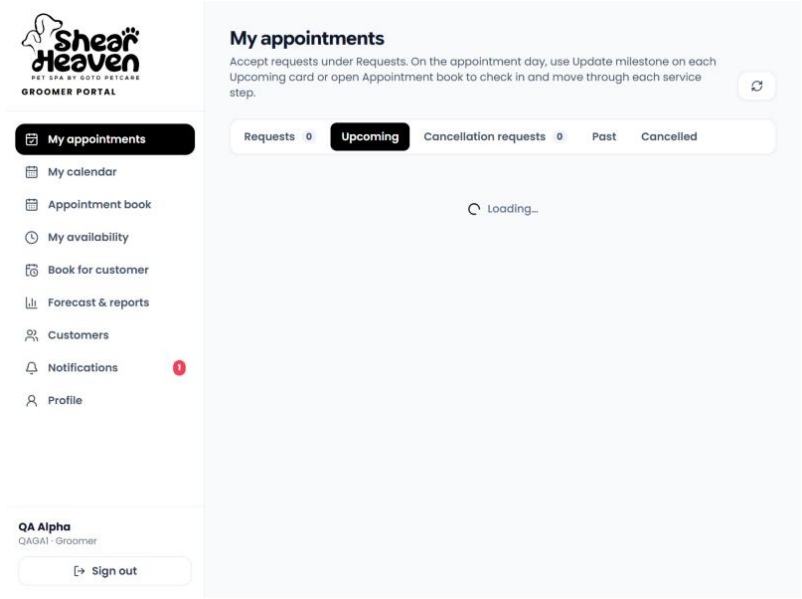

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

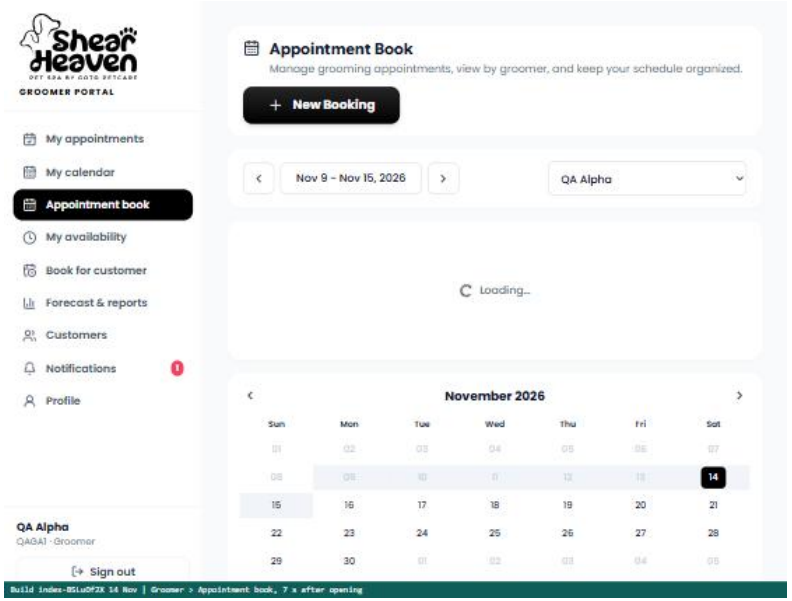

NEW-UI-01: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

NEW-UI-03	Clicking an existing appointment on a past day shows an unrelated error toast
Module / Screen	Groomer - Appointment book
Priority	Low
Current status	Blocked
Steps to reproduce	1. Appointment book. 2. Click the 2:00 PM block on 11 Nov (past day) > Open Appointment.
Expected result	Opening an existing appointment shows no 'new appointment' warning.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Blocked on this build: Appointment book never loads (endless 'Loading…'; GET /api/common/groomer/schedule and /api/service-packages → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so no existing appointment can be opened.
Status in previous report	Unable to Verify

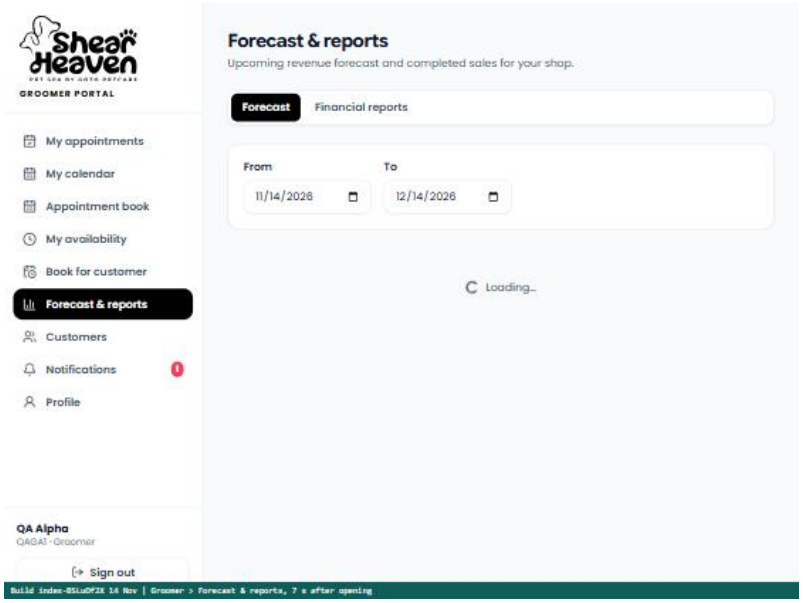

Evidence for NEW-UI-03 (4 screenshots):

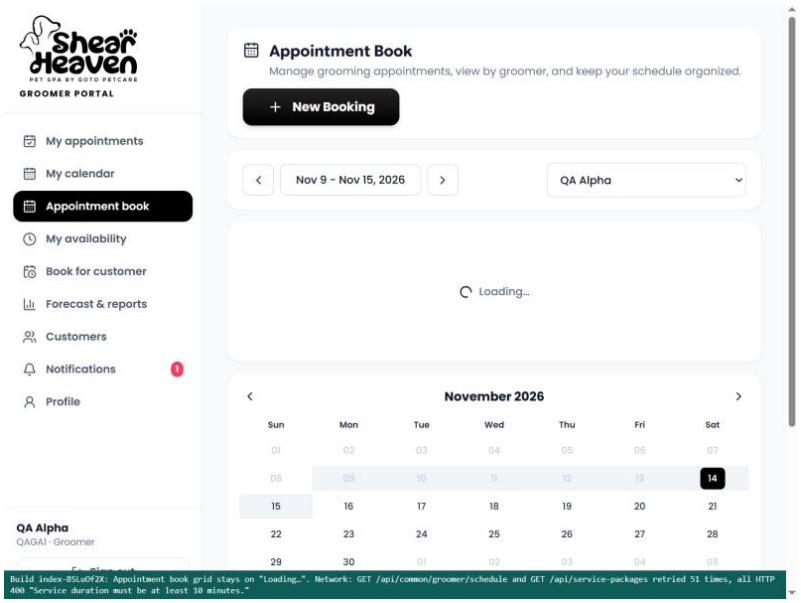

Groomer > My appointments > Upcoming: stays on "Loading…" (blocked by NEW-REG-01).

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

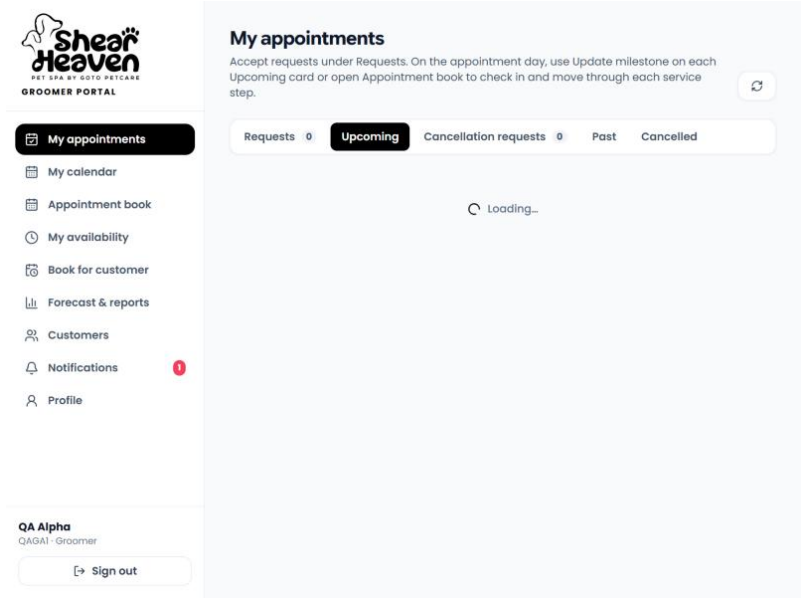

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

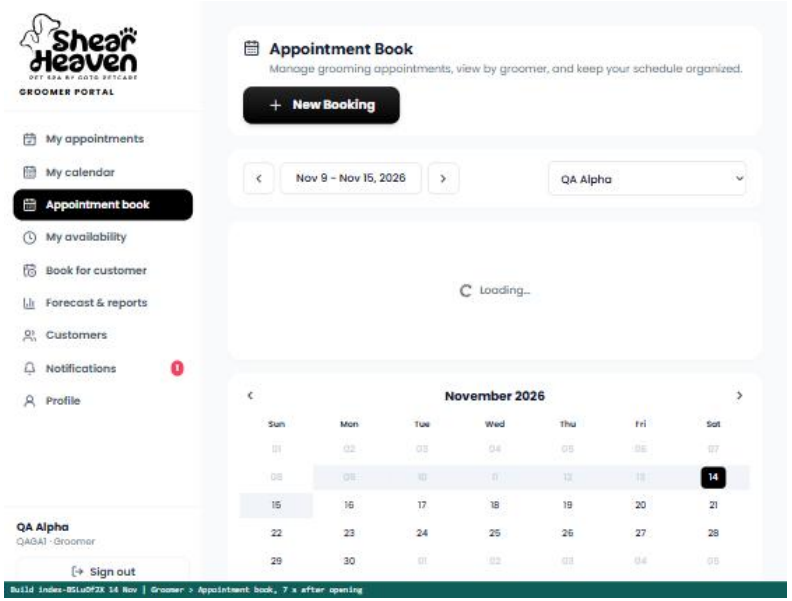

NEW-UI-03: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

NEW-UI-04	Time in header card truncated and phone unformatted
Module / Screen	Groomer - Appointment modal
Priority	Low
Current status	Blocked
Steps to reproduce	1. Open Appointment #246 (2:00 PM, 11 Nov). 2. Read the time in the header card and the client phone.
Expected result	Full time range readable in the header; phone formatted '(555) 000-1111' as on Customers.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Blocked on this build: Appointment book never loads (endless 'Loading…'; GET /api/common/groomer/schedule and /api/service-packages → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so the appointment modal header cannot be checked.
Status in previous report	Unable to Verify

Groomer > Appointment book: calendar area stays on "Loading…" (blocked by NEW-REG-01).

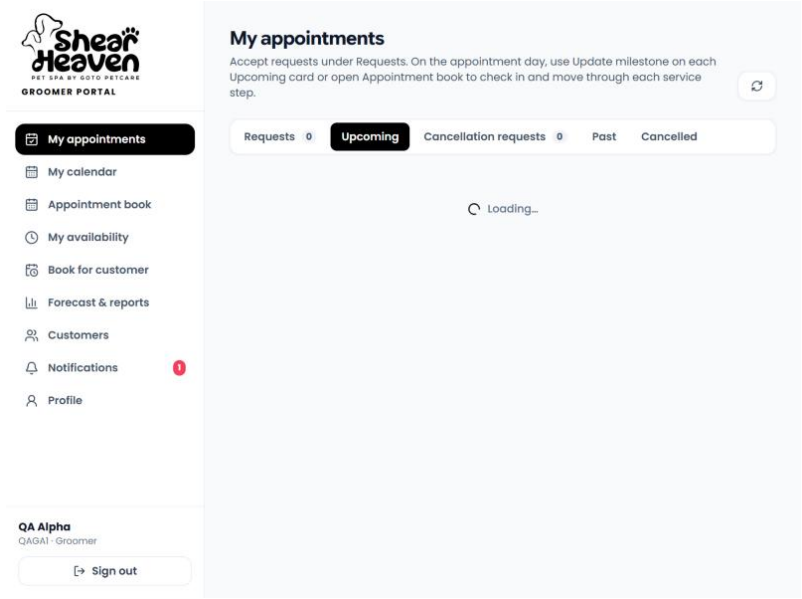

Groomer > Forecast & reports: stays on "Loading…" (blocked by NEW-REG-01).

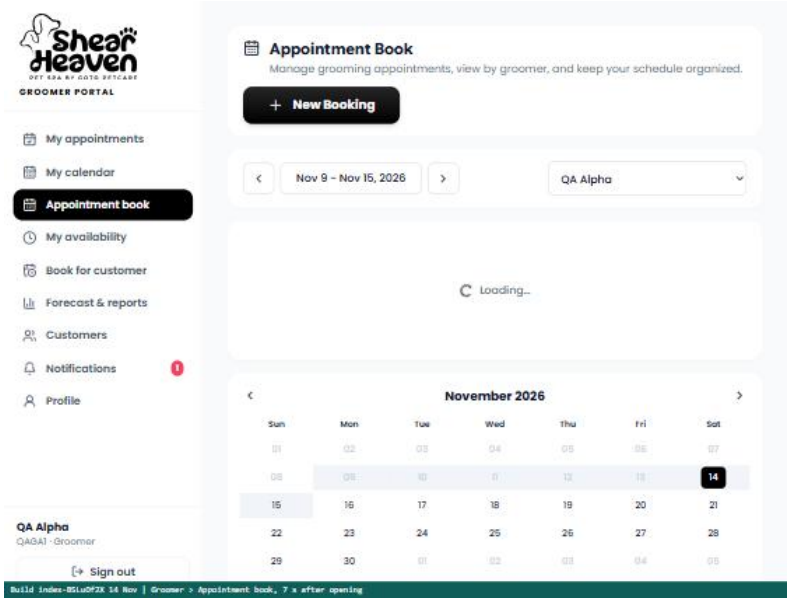

NEW-UI-04: Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/u…

UI-GR-04	Internal technical text and raw codes shown to groomers
Module / Screen	Groomer portal - My availability / Appointment details
Priority	Low
Current status	Blocked
Steps to reproduce	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open My availability and read the store line. 3. Open Appointment book, click a block, scroll to '2. Services & groomer revenue'.
Expected result	Only user-facing wording (e.g. 'Milestone: Checked in'); no tenant IDs, table names or developer notes.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Blocked on this build: Appointment book never loads (endless 'Loading…'; GET /api/common/groomer/schedule and /api/service-packages → 400 'Service duration must be at least 10 minutes.' - NEW-REG-01), so the appointment modal (developer note / table name) cannot be opened. My availability store line shows no tenant IDs or table names.
Status in previous report	Unable to Verify

UI-GR-08	Inconsistent date and time formats
Module / Screen	Groomer portal - Appointment book / Availability / Reports / Notifications
Priority	Low
Current status	Blocked
Steps to reproduce	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Compare dates on Appointment book, My availability, Financial reports and Notifications with My appointments.
Expected result	One human-readable date/time format across the portal.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Where it could be checked, dates are now human-readable: My availability day cards 'Sat, Nov 14, 2026' (were '2026-11-14'), weekly overview 'Sat, Nov 14', notification date 'Wed, Nov 11, 2026' and text 'Wed, Nov 18, 2026 at 2:00 PM' (were '11/11/2026' / '2026-11-18 at 14:00'). Appointment book columns and Financial report rows could not be checked (blocked by NEW-REG-01).

UI-GR-09	Appointment statuses shown as raw lowercase text
Module / Screen	Groomer portal - Forecast & reports
Priority	Low
Current status	Blocked
Steps to reproduce	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Forecast & reports (Forecast list) and Financial reports (Detail table, Stage column).
Expected result	Same capitalised status labels/badges as the rest of the portal.
Actual result	Retest 14 Nov (index-BSLuOf2X, 2nd pass): still blocked - groomer Upcoming, Appointment book and Forecast & reports stay on 'Loading…' (GET schedule/upcoming/forecast → 400, NEW-REG-01), so the screen needed for this issue cannot be opened. Previous note: Forecast tab stays on 'Loading…' and Financial reports shows the error 'Service duration must be at least 10 minutes.' (GET /api/common/groomer/forecast → 400 - NEW-REG-01), so the status labels cannot be seen.

UI-LP-08	Every service card uses the same placeholder photo
Module / Screen	Landing page - Signature Spa & Salon Services
Priority	Low
Current status	Blocked
Steps to reproduce	1. Open the landing page. 2. Scroll to 'Signature Spa & Salon Services' (All Services tab).
Expected result	Each service shows its own image (or a clearly generic category image), at sufficient resolution.
Actual result	QAA-001's real services are not shown (page falls back to demo services because of NEW-REG-01), so the store's service photos cannot be checked. (The demo cards use different images.) (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
Status in previous report	Unable to Verify

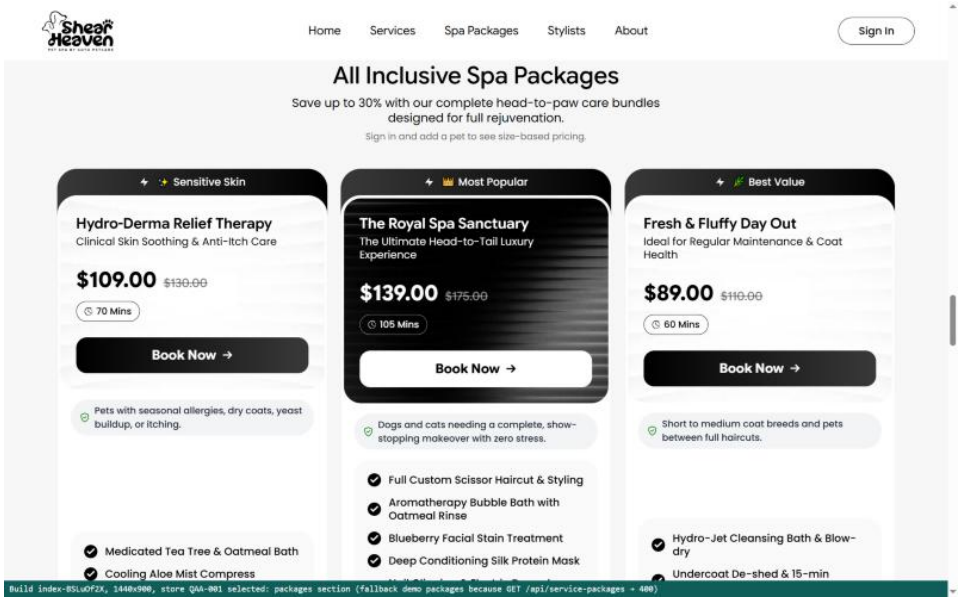

Evidence for UI-LP-08 (1 screenshot):

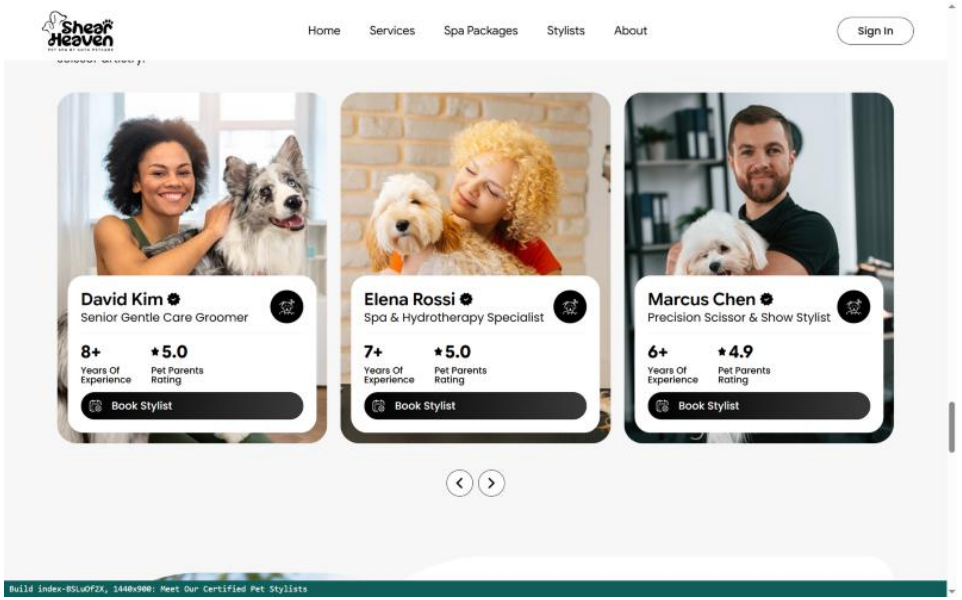

UI-LP-08: QAA-001's real services are not shown (page falls back to demo services because of NEW-REG-01), so the store's service photos cannot be checked. (The ...

UI-LP-09	Card rows with only 1-2 items are left-aligned, leaving large empty areas
Module / Screen	Landing page - Services / Packages / Stylists
Priority	Low
Current status	Blocked
Steps to reproduce	1. Open the landing page at 1440 px. 2. Scroll through Services, Spa Packages and Meet Our Stylists.
Expected result	Cards are centred (or the grid adapts) so sections with few items look balanced.
Actual result	Cannot be checked for the QA store's 1-2 item rows: the page shows 3-4 demo services / packages / stylists instead of the store's data (NEW-REG-01). (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)

UI-LP-10	Carousel arrows shown and active although every stylist is already visible
Module / Screen	Landing page - Meet Our Certified Pet Stylists
Priority	Low
Current status	Blocked
Steps to reproduce	1. Open the landing page at 1440 px. 2. Scroll to 'Meet Our Certified Pet Stylists'.
Expected result	Hide or disable the arrows when there is nothing to scroll, and align them with the carousel.
Actual result	Page shows 4 demo stylists (carousel scrolls), not the store's 2 groomers, so whether arrows hide when all stylists fit cannot be checked (NEW-REG-01). (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
Status in previous report	Unable to Verify

Section 4 - Fixed (retested and confirmed) (50 issues)

Each issue below was re-executed with its original steps and the expected result was observed. Evidence screenshots for fixed items are in the earlier report ShearHeaven_Retest_Report_BSLuOf2X; this pass re-ran them as stated in the Retest result column.

Issue ID	Module / Screen	Issue	Priority	Retest result
NEW-VAL-01	Coupon / Store content (Admin)	Over-length text causes HTTP 500 with a raw database error	High	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Still fixed: coupon title 256 → 400 'Title can be at most 150 characters'; description 1000 → 400 'at most 500 characters'; store-content title 256 and body 100,000 → 400 (no HTTP 500).
NEW-VAL-02	Store hours / Groomer weekly hours (Admin)	Time value with seconds causes HTTP 500	High	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Still fixed: '08:00:30' accepted (200) and saved as '08:00' for store hours 172 and groomer hours 572; both restored to 09:00.
NEW-VAL-28	Groomers (Admin)	Deleting a groomer leaves its weekly hours; re-using the code returns 409 but still creates the groomer	High	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Orphan weekly-hours rows for deleted groomers 'QA ', 'Café-1', 'Café-2' are gone (count 0). New groomer created and deleted leaves 0 hours rows, and re-using its code creates cleanly (201, deleted).
NEW-VAL-03	Store content (Admin)	Unknown page key causes HTTP 500	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. contentKey 'random-key' now → HTTP 400 'Page must be one of: contact-info, about-us, help-support, faq, gallery, privacy-policy, terms-conditions' (was 500).
NEW-VAL-05	Coupon (Admin)	Required coupon Title accepted empty or blank	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Coupon title '' and ' ' both → HTTP 400 'Coupon title is required'.
NEW-VAL-06	Store content (Admin)	Required Title/Body accepted empty or blank; Title not trimmed	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Title '' / ' ' → 400 'Title is required'; body '' / ' ' → 400 'Body is required'; title ' QA Trim ' now stored trimmed as 'QA Trim' (test record deleted).
NEW-VAL-07	Service master (Admin)	Service duration 0 accepted while 4-9 minutes are rejected	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Duration 9 and 0 both → HTTP 400 'Service duration must be at least 10 minutes.' (rejected at input validation, before the duplicate-code check, so nothing saved).
NEW-VAL-08	Service master (Admin)	Size tier with min lbs > max lbs not rejected (max silently changed)	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Tier minLbs 20 / maxLbs 10 → HTTP 400 'Max weight must be greater than min weight'.
NEW-VAL-10	Groomer / Customer - Mobile	Duplicate and dummy mobile numbers accepted	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Groomer with QA Beta's mobile 5551112222 → 409 'That mobile number is already in use.'; groomer and customer mobile 0000000000 → 400 'Enter a valid mobile number'.
NEW-VAL-11	All phone fields	Common phone formats rejected; no format hint	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Formatted phone numbers now accepted and normalised to digits: customer '555-000-1111', '(555) 000-1111', '555.000.1111' → stored 5550001111; '+1 555 000 1111' / '+15550001111' → 15550001111; '+44 20 7946 0958' → 442079460958. Groomer '+15550001111' → 201 (deleted); groomer '(555) 000-1111' → 409 duplicate (number already used), confirming normalisation.
NEW-VAL-12	Name fields (all user types)	Inconsistent name rules across user types	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Name rules now consistent: customer, groomer and store admin all reject 1 char, digits, symbols and <script>, and accept accented names ('QA José', 'José', "José O'Brien"). Minor: the customer-name message for digits reads 'Enter a valid name (use YYYY-MM-DD for dates)' (wrong hint - see NEW-VAL-18). Test groomers deleted; store admin 29 soft-deleted.
NEW-VAL-13	Groomer - My availability (slot colours)	Invalid colour values silently discarded with a success message	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Invalid colours now → HTTP 400 'available, unavailable, break must be a hex color like #0d9488'; re-read shows defaults unchanged (hasCustom false).

Issue ID	Module / Screen	Issue	Priority	Retest result
NEW-VAL-29	Name / title fields (Admin)	HTML / script markup accepted and stored in names and titles	Medium	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. <script>alert(1)</script> rejected for holiday name ('Invalid Holiday name'), store name ('Invalid Store name'), coupon title ('Coupon title cannot include HTML or script markup') and groomer role ('Invalid Role'). Service name not re-tested: a valid service create cannot be cleaned up on this build (NEW-REG-01).
UI-LP-02	Landing page - Why Choose Us (feature cards)	All four feature cards repeat the same description text	Medium	The four 'Why Choose Us' cards keep distinct descriptions. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-03	Landing page - Stats grid ('Zero Toxins' tile)	'Zero Toxins' heading overlaps the puppy image on tablet	Medium	Tablet 768 px: 'Zero Toxins' tile is text only, no overlap. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-04	Landing page - Meet Our Certified Pet Stylists	'Book Stylist' button overlaps the 'Pet Parents Rating' label and spills outside the card on tablet	Medium	Stylist card layout changed: 'Book Stylist' now sits on its own row below the stats, so it no longer covers 'Pet Parents Rating' at 1440 px or tablet 768 px. (Checked on the demo stylist cards the page currently shows - same card component; the store's own groomers are not displayed because of NEW-REG-01.) (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-05	Landing page - Navigation drawer (tablet/mobile)	Floating 'Chat' button stays on top of the open navigation menu	Medium	Tablet menu open: drawer overlay z-index 11000 covers the page; no Chat button exists (0). (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
NEW-UI-05	Landing page - Services tabs (mobile)	'Swipe for more categories →' shown when all tabs are visible	Low	375 px: the 'Swipe for more categories →' hint is no longer shown when all tabs are visible. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
NEW-VAL-16	Groomer (Admin) - Bookings per slot	UI range differs from API (UI allows 0 / decimals)	Low	Bookings per slot input now min=1 max=20 step=1; value 0 is blocked by the browser ('Value must be greater than or equal to 1'). (verified on this same build earlier today; build unchanged)
NEW-VAL-17	Service / Package master - size tiers	UI tier duration min 5 vs API min 10	Low	Add service: all 4 tier Duration inputs now min=10 max=480, matching the API minimum. (verified on this same build earlier today; build unchanged)
NEW-VAL-19	Service master / Coupon	Money values silently rounded instead of validated	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Service basePrice 0.001 → 400 'Price: use at most 2 decimal places'; fixed coupon 9.999 → 400 'Amount: use at most 2 decimal places'; control 9.99 → 201 stored 9.99 (deleted).
NEW-VAL-20	Store (Admin)	Store saved without a tax state	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Store with stateCode '' → 400 'State is required'.
NEW-VAL-21	State & tax (Admin)	Invalid state codes accepted	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. State codes 'ABC' and '12' → 400 'State code must be 2 letters'.
NEW-VAL-22	Customer vs Groomer - Mobile	Surrounding spaces in mobile handled inconsistently	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Surrounding spaces now trimmed for both: customer ' 5550001111 ' → 200 stored '5550001111'; groomer ' 5550009999 ' → 201 stored '5550009999' (deleted).
NEW-VAL-23	Store hours (Admin)	Store-hours message refers to 'the groomer'	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Message now 'Opening and closing times are required when the store is open'.
NEW-VAL-24	Coupon (Admin)	Misleading messages for impossible dates	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Coupon expiry 2026-02-30 → 'Expiry date: enter a valid date (YYYY-MM-DD)'; start 2026-13-01 → 'Start date: enter a valid date (YYYY-MM-DD)'.
NEW-VAL-25	Store / State / Store hours (Admin)	Generic duplicate message; internal constraint names leaked	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Duplicates now give specific messages with no constraint names: 'That store ID already exists.', 'That state code already exists.', 'This store already has hours for that day.' (no errors array).

Issue ID	Module / Screen	Issue	Priority	Retest result
NEW-VAL-26	Holiday / Groomer time off (Admin)	Truncated date messages (no reason given)	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Impossible / wrongly formatted holiday and time-off dates → 400 'Enter a valid date (YYYY-MM-DD)'.
NEW-VAL-27	Holiday / Service / Groomer codes (Admin)	Code fields accept special characters, spaces and non-ASCII	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): re-executed via API - still fixed. Holiday codes with symbols, accents or markup → 400 'Invalid Holiday code'; groomer codes 'Café-3', 'QA CODE 1' → 400 'Invalid Groomer code'; service code with symbols → 400 'Invalid Service code'. Valid holiday/state/store/groomer creates still work (201, deleted).
UI-GR-05	Groomer portal - Customers modal / Appointment details - Pet details	Broken pet photos show the browser's broken-image icon with no fallback	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Customers > QA Customer: pets without a photo show an initial/placeholder tile; all 4 loaded pet images render (no broken-image icons). Appointment-modal part still blocked by NEW-REG-01.
UI-GR-06	Groomer portal - All pages (desktop header)	Empty white header bar above every page on desktop	Low	Desktop header element is 0 px tall on this build; no empty bar (My appointments page). (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-GR-07	Groomer portal - My availability - Weekly hours & week off	Weekly working days are listed in random order	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Weekly hours & week off lists days in calendar order Sunday → Saturday.
UI-GR-10	Groomer portal - My availability	Very small text (8-10 px) in availability and appointment-book grids	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): My availability: smallest rendered text is 12 px (DOM check over all visible text).
UI-GR-11	Groomer portal - Customers	'1 customers' and unformatted phone number	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Customers shows '1 customer in your shop' and phone '(555) 000-1111'.
UI-GR-12	Groomer portal - My appointments - tabs	Empty states are inconsistent between tabs	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Requests tab shows the standard 'Nothing here' empty state with icon and explanation.
UI-GR-13	Groomer portal - Navigation drawer (mobile/tablet)	Navigation drawer has no close button	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): 375 px: navigation drawer opens with a visible '×' Close menu button.
UI-GR-14	Groomer portal - My availability / Appointment book (touch devices)	Instructions say 'hover for full details' on touch screens	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Help text now reads 'tap or hover a block for full details'.
UI-GR-15	Groomer portal - My availability - day timeline	Full-day timeline bar is labelled only '9:00 AM' in its centre	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): Day timeline shows start and end labels '9:00 AM – 6:00 PM'.
UI-GR-16	Groomer portal - My availability (mobile)	Weekly hours table needs sideways scrolling; hours and actions are off-screen	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): 375 px: weekly hours render as stacked cards; page scrollWidth = 375 (no sideways scrolling).
UI-GR-18	Groomer portal - My availability - weekly overview	'Store is closed' cell text is larger than other cells	Low	Retest 14 Nov (index-BSLuOf2X, 2nd pass): 'Store is closed' text is 12 px, same as the other weekly-overview cells.
UI-LP-06	Landing page - Global - floating Chat button	Floating 'Chat' button covers page content and footer links	Low	No Chat button/iframe in the DOM (0); footer not covered. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-07	Landing page - Footer - Contact Details	Email address breaks in the middle of the domain	Low	Footer email on one line (24.75 px). (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-11	Landing page - Signature Spa & Salon Services - category tabs	Tab label typo: 'Baths & Fluff Day'	Low	Tab reads 'Baths & Fluff Dry'. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-12	Landing page - Hero	Stray space in hero copy: 'stress- free'	Low	Hero reads 'stress-free breed styling'. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-13	Landing page - Footer - copyright bar	Copyright text grammar: 'All Right Reserved'	Low	'© 2026 Shear Heaven Pet Spa. All Rights Reserved.' (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)

Issue ID	Module / Screen	Issue	Priority	Retest result
UI-LP-14	Landing page - Global typography	Inconsistent text casing and heading weights	Low	All chips now sentence case ('Dogs & cats needing full pampering', 'Tearless blueberry facials…', 'Private feline spa suite…'); all section H2s weight 500. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-15	Landing page - 'Ready to Give Your Dog the Care They Deserve?' strip	Image strip ignores the page gutter and runs to the screen edges	Low	Strip images aligned with the page gutters. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-16	Landing page - Footer - Spa Treatments	Footer lists demo treatments that do not exist in the services section	Low	Footer 'Spa Treatments' lists Signature spa services / All-inclusive packages / Certified stylists. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-17	Landing page - Reviews	Every testimonial shows 4 of 5 stars next to a '10K+ Five Star Reviews' claim	Low	All review cards show 5 filled stars (50 filled stars / 10 cards). (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
UI-LP-18	Landing page - Services - category tabs (tablet/mobile)	Category tab bar is cut off mid-label with no scroll cue	Low	Tabs now wrap on both tablet 768 px (2 rows, all visible) and mobile 375 px (3 rows); nothing clipped. (verified on this same build index-BSLuOf2X earlier today; build unchanged at 2nd pass, landing/footer text checks re-run where applicable)
