

practice location	EHR --> practice location --> EHR setup --> Ehr config --> details that have already been added can be added again.	In the EHR Setup section of the Practice Location, an EHR configuration that has already been added can be added again, allowing duplicate EHR configurations. The same issue occurs in Allergies, Risk Factors, Quick Memos, Directives, Documents, Messages, and Flowsheets. Expected result: now only for quickmemo it preventing creating duplicate entry set the validation for allergies(severity,status),riskfactor (riskfactor,status),directive type document so correct the issue and deny the duplicate entry creation.
Doctors	EHR --> doctor dashboard --> patient --> check eligibility --> error message is displayed	In the Doctor Dashboard Patient section in sidebar (route : /provider/patient) in the page there is list of patient view patient button, clicking the button it will show the patient details section in that we have two button "Check Eligibility" and "view Eligibility summary" displays an error message and the values are not showing .fix that issue.
Doctors	EHR --> doctor dashboard --> reference - received-->patient and Referred by --> full name is not displayed	In the Doctor Dashboard Reference section - received (route is .provider/referral-recieved),the patient name and referred by field should show the full value in patient name field currently it showing only firstname instead show the full name and in referred by field also show the full value.
practice location	EHR --> Practice location --> appointments --> appointment details --> insurance name is not displayed	In the Practice Location Dashboard Appointment Details section, the Insurance Name is not displayed.
practice location	EHR --> practice location --> appointment details --> visit reason is not displayed	in appointment while clicking the button view it will show the appointment details in that visit reason is not showing ,so fix that issue show the visit reason in the field
practice location	EHR --> Practice location --> EHR Setup --> Health watcher --> Health watcher rules --> When adding a vaccination rule in **Vaccination Rules**, a **black column** is displayed in the **Add** tab.	When adding a vaccination rule under Health Watcher Rules in EHR Setup for a Practice Location, a black column is displayed in the Add tab. the added value is not showing in the list so set it correctly
Doctors	EHR --> doctor dashboard and practice location --> patient --> message --> The patient name is not displayed in the message board when clicking the Message button.	The patient name is not displayed in the message board when clicking the Message button in the Doctor Dashboard and practice location dashboard Patient section.
practice location	Bug Title: Supervisor, Approver, and Default Role data are not retrieved in Staff View/Edit Module: EHR → Practice Location → User Management → Staff Creation → View/Edit	Expected Result: The saved Supervisor, Approver, and Default Role values should be retrieved and displayed correctly in the Staff View/Edit page. Actual Result: Supervisor, Approver, and Default Role fields are displayed empty even though the details were previously configured.
practice location	user Management -> staff creation -> while click the view button , if given the wrong format Email the error is not indicated.	Expected Result: The Email field should validate the entered email format and display an appropriate validation message when an invalid email address is entered. Actual Result: Invalid email formats are accepted without displaying any validation error.
Doctors	EHR --> doctor dashboard --> patient --> patient name , email and phone number is not displayed properly	Patient name, email, and phone number are not displayed in the Doctor Dashboard Patient section.
Doctors	EHR --> Doctor dashboard --> referrals out form --> internal and external --> An error is displayed when clicking the Submit button.	In the Doctor Dashboard, under the Referrals Out form, an error is displayed when submitting both Internal and External referrals.
