Shear Heaven Pet Care - Retest Report

All 72 issues from the previous report were retested on the new front-end build index-Cn9ChTJy (14 Nov 2026); previous retest was on index-Cqk8vpD0. Groups: 19 landing-page UI issues, 18 groomer-portal UI issues, 29 new validation bugs and 6 new UI issues found earlier today. Every status below comes from a re-execution on the new build and has screenshot evidence.

Group	Total	Fixed	Partially Fixed	Still Reproducible	Unable to Verify
Landing page UI report	19	14	3	2	0
Groomer portal UI report	18	10	2	6	0
New validation bug (14 Nov)	29	2	2	25	0
New UI issue (14 Nov)	6	0	0	6	0
All issues	**72**	**26**	**7**	**39**	**0**

Status changes since the previous retest

Issue	Previous status	Now	What changed
UI-GR-09	Still Reproducible	Fixed	Statuses are now capitalised: Forecast list '· Confirmed', '· Grooming Completed'; Financial reports Stage 'Checkout Completed', 'Checked In', 'Ready For Checkout'.
NEW-VAL-01	Open (new)	Fixed	All four over-length cases now return HTTP 400 with clear messages (coupon title 'Title can be at most 150 characters', coupon description 'at most 500 characters', store-content title/body 'too long. Shorten it and try again.'). UI: New coupon with a 256-char
NEW-VAL-02	Open (new)	Fixed	No HTTP 500. '08:00:30' is now accepted (HTTP 200) and normalised to '08:00' for both store hours (id 172) and groomer hours (id 572). Both records were restored to 09:00 afterwards.
NEW-VAL-05	Open (new)	Partially Fixed	Spaces-only title is now rejected (HTTP 400 'Coupon title is required'). Empty title '' is still accepted (HTTP 201) and saved as the default '5% on services' although Title is required in the UI (test coupon 47 deleted).
NEW-VAL-28	Open (new)	Partially Fixed	Deleting a groomer now removes its weekly hours (new groomer 'Café-2' re-created and deleted cleanly: 201, 0 hours rows left). Still open: the 7 old orphan rows for deleted groomers 123 ('QA [emoji]') and 169 ('Café-1') remain, and re-using 'QA [emoji]' still returns 409

• No regressions: none of the 23 issues previously Fixed came back.
• Test data: all retest records were deleted or restored and verified. Test store admins 27/28 were deactivated (delete is soft). Orphan weekly-hours rows from earlier test groomers (NEW-VAL-28) were left in place as evidence.

NEW-UI-04	New UI issue (14 Nov)	Time in header card truncated and phone unformatted	Open (new)	Still Reproducible
NEW-UI-05	New UI issue (14 Nov)	'Swipe for more categories →' shown when all tabs are visible	Open (new)	Still Reproducible
NEW-UI-06	New UI issue (14 Nov)	Single package card squeezed to 136 px and off-centre; price clipped	Open (new)	Still Reproducible

Landing page UI report - 19 issues

UI-LP-01	Developer 'demo content' banner and placeholder store shown on first load
Group	Landing page UI report
Module / Portal	Landing page - Header / Hero (page load)
Retest steps	1. Open https://pcmdev.shearheavenpetspa.com/ in a fresh tab (signed out). 2. Watch the top of the page while it loads (first ~1 s).
Expected result	No developer/debug message is ever shown to visitors; the location bar renders in its final state (or a neutral skeleton) without content jumping.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Fresh load at 1440 px: location bar shows grey skeleton placeholders, then 'Prices and packages shown for: QA Auto Store Edited'; no 'demo content'/'PetCareServer' text.

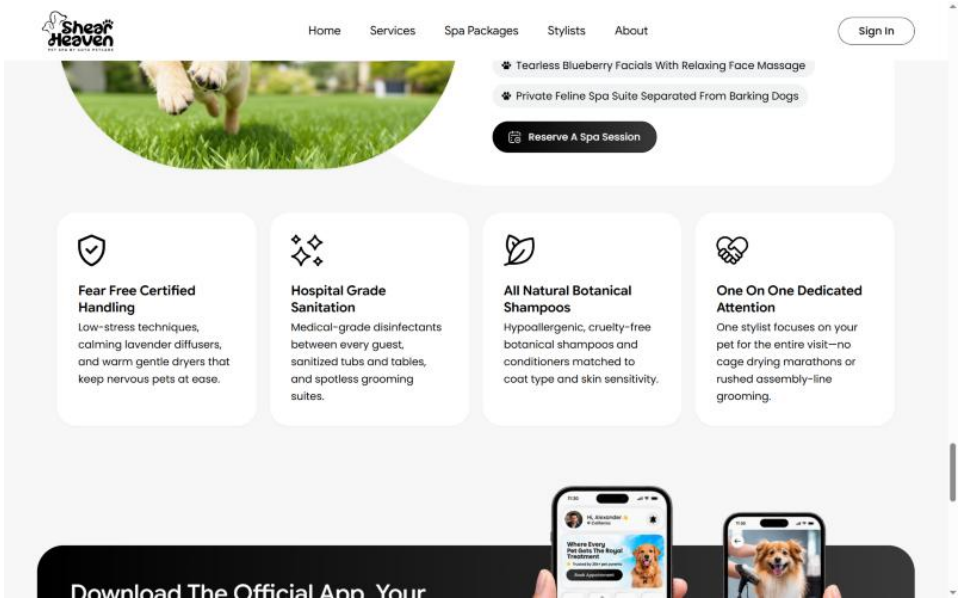

Evidence for UI-LP-01 (1 screenshot):

UI-LP-01 on index-Cn9ChTJy: Fresh load at 1440 px: location bar shows grey skeleton placeholders, then 'Prices and packages shown for: QA Auto Store Edited'; no 'demo content'/'PetCareServer' text.

UI-LP-02	All four feature cards repeat the same description text
Group	Landing page UI report
Module / Portal	Landing page - Why Choose Us (feature cards)
Retest steps	1. Open the landing page. 2. Scroll to the four cards under 'Pet Care Redefined With Love & Dignity'.
Expected result	Each card has its own description matching its heading (e.g. sanitation copy under 'Hospital Grade Sanitation').
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	The four 'Why Choose Us' cards have distinct descriptions matching their headings.

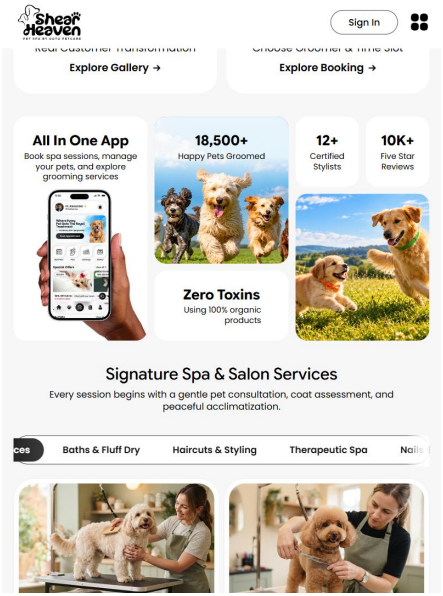

Evidence for UI-LP-02 (1 screenshot):

UI-LP-02 on index-Cn9ChTJy: The four 'Why Choose Us' cards have distinct descriptions matching their headings.

UI-LP-03	'Zero Toxins' heading overlaps the puppy image on tablet
Group	Landing page UI report
Module / Portal	Landing page - Stats grid ('Zero Toxins' tile)
Retest steps	1. Set the viewport to 768x1024 (tablet). 2. Scroll to the stats grid below 'Explore Salon Experiences'.
Expected result	Text and image sit side by side (or stack) with clear spacing; no overlap at any breakpoint. (Desktop and mobile render correctly.)
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Tablet 768 px: 'Zero Toxins' tile shows its text on a plain card; no image overlapping the heading.

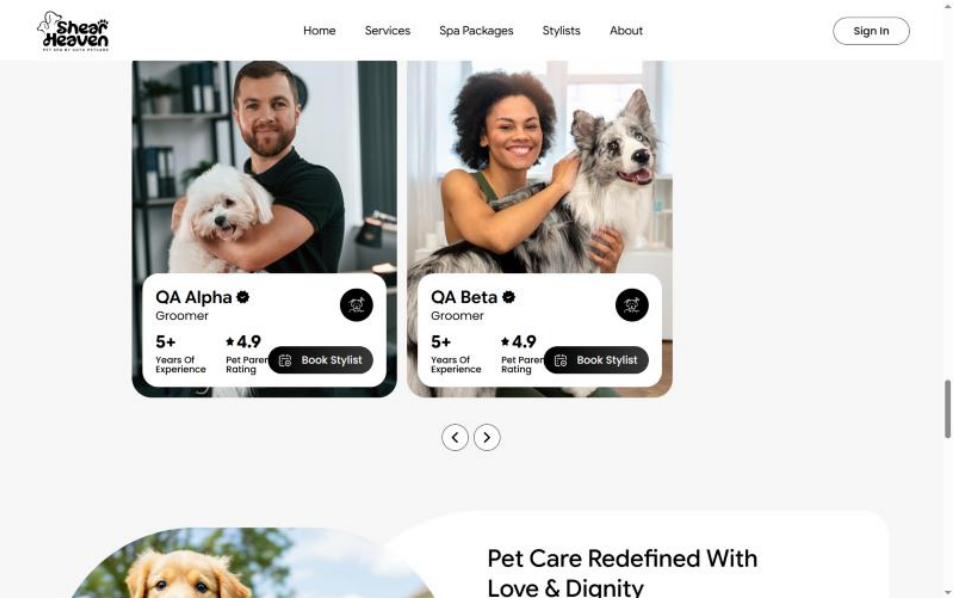

Evidence for UI-LP-03 (1 screenshot):

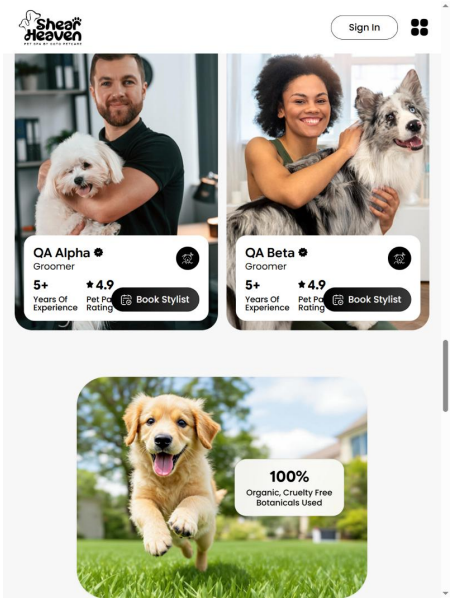

UI-LP-03 on index-Cn9ChTJy: Tablet 768 px: 'Zero Toxins' tile shows its text on a plain card; no image overlapping the heading.

UI-LP-04	'Book Stylist' button overlaps the 'Pet Parents Rating' label and spills outside the card on tablet
Group	Landing page UI report
Module / Portal	Landing page - Meet Our Certified Pet Stylists
Retest steps	1. Set the viewport to 768x1024. 2. Scroll to 'Meet Our Certified Pet Stylists'.
Expected result	Stats and button fit inside the panel without overlap (wrap the button below the stats on narrow widths, as mobile already does).
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	1440 px and tablet 768 px: 'Book Stylist' button still covers the 'Pet Parents Rating' label ('Pet Paren...' / 'Pet Pa...') on both stylist cards.

Evidence for UI-LP-04 (2 screenshots):

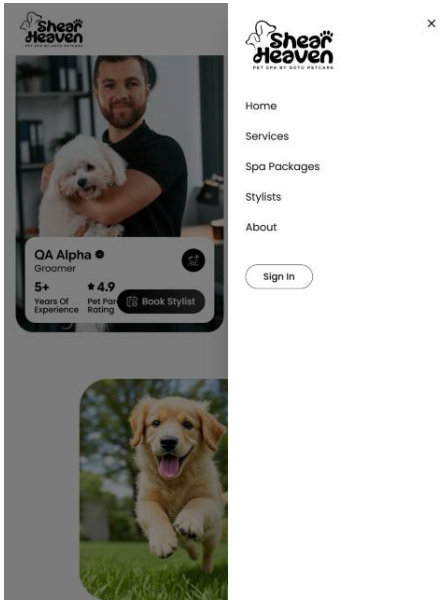

UI-LP-04 on index-Cn9ChTJy: 1440 px and tablet 768 px: 'Book Stylist' button still covers the 'Pet Parents Rating' label ('Pet Paren...' / 'Pet Pa...') on both stylist cards.

UI-LP-04 on index-Cn9ChTJy: 1440 px and tablet 768 px: 'Book Stylist' button still covers the 'Pet Parents Rating' label ('Pet Paren...' / 'Pet Pa...') on both stylist cards.

UI-LP-05	Floating 'Chat' button stays on top of the open navigation menu
Group	Landing page UI report
Module / Portal	Landing page - Navigation drawer (tablet/mobile)
Retest steps	1. Set the viewport to 768x1024 (or 375x812). 2. Tap the menu icon (four dots) at the top right.
Expected result	The open menu (and its overlay) sits above all floating widgets, or the chat button is hidden while the menu is open.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Tablet menu open: drawer overlay z-index 11000 covers the page; no Chat button rendered (0 in DOM).

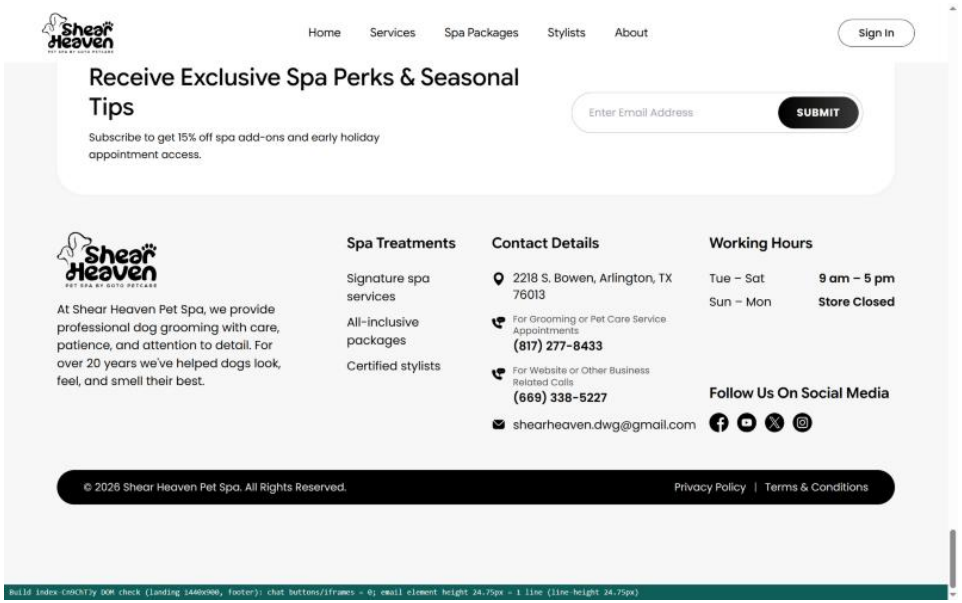

Evidence for UI-LP-05 (1 screenshot):

UI-LP-05 on index-Cn9ChTJy: Tablet menu open: drawer overlay z-index 11000 covers the page; no Chat button rendered (0 in DOM).

UI-LP-06	Floating 'Chat' button covers page content and footer links
Group	Landing page UI report
Module / Portal	Landing page - Global - floating Chat button
Retest steps	1. Open the landing page at any size. 2. Scroll through the sections and to the footer.
Expected result	Enough bottom padding/safe area so the floating button never sits on top of text or links (especially at the page end).
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	No floating Chat button/iframe in the DOM at 1440 px (count 0); nothing covers the footer.

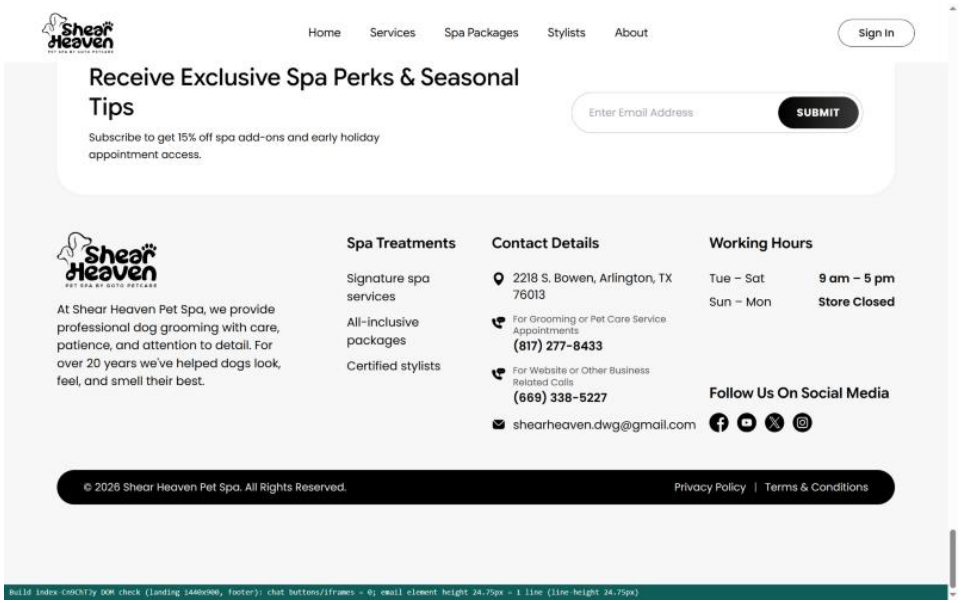

Evidence for UI-LP-06 (1 screenshot):

UI-LP-06 on index-Cn9ChTJy: No floating Chat button/iframe in the DOM at 1440 px (count 0); nothing covers the footer.

UI-LP-07	Email address breaks in the middle of the domain
Group	Landing page UI report
Module / Portal	Landing page - Footer - Contact Details
Retest steps	1. Open the landing page at 1440 px width. 2. Scroll to the footer 'Contact Details' column.
Expected result	The address wraps only at sensible points (e.g. before '@') or the column is wide enough to keep it on one line.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Footer email 'shearheaven.dwg@gmail.com' on one line (24.75 px = one line height).

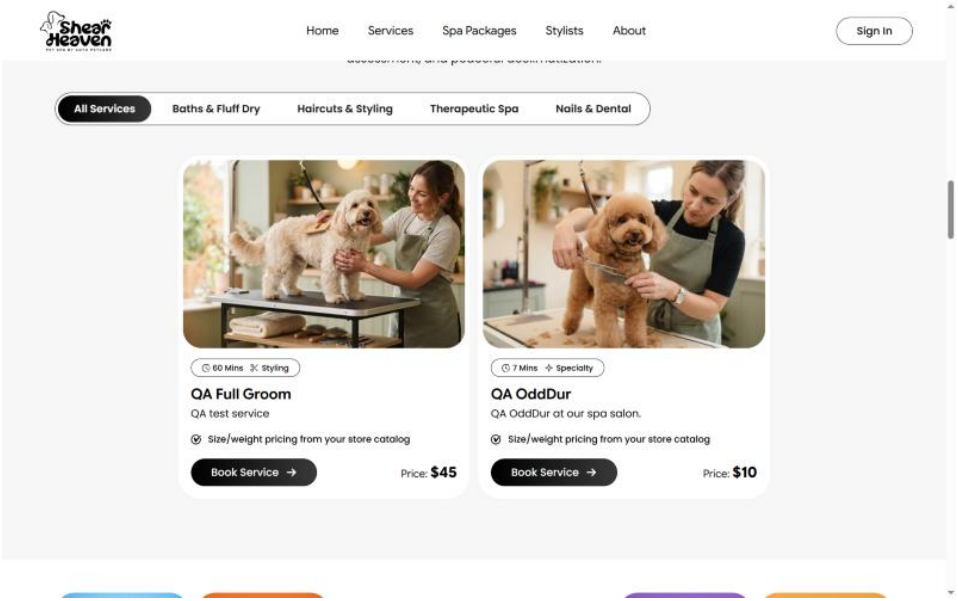

Evidence for UI-LP-07 (1 screenshot):

UI-LP-07 on index-Cn9ChTJy: Footer email 'shearheaven.dwg@gmail.com' on one line (24.75 px = one line height).

UI-LP-08	Every service card uses the same placeholder photo
Group	Landing page UI report
Module / Portal	Landing page - Signature Spa & Salon Services
Retest steps	1. Open the landing page. 2. Scroll to 'Signature Spa & Salon Services' (All Services tab).
Expected result	Each service shows its own image (or a clearly generic category image), at sufficient resolution.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Service cards use different photos (service-img-2.jpg, service-img-5.jpg).

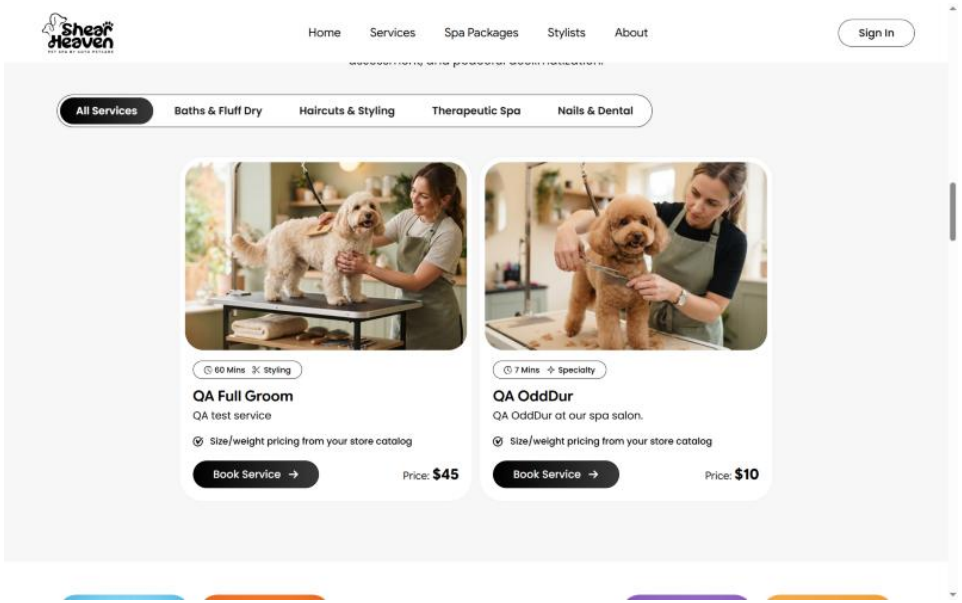

Evidence for UI-LP-08 (1 screenshot):

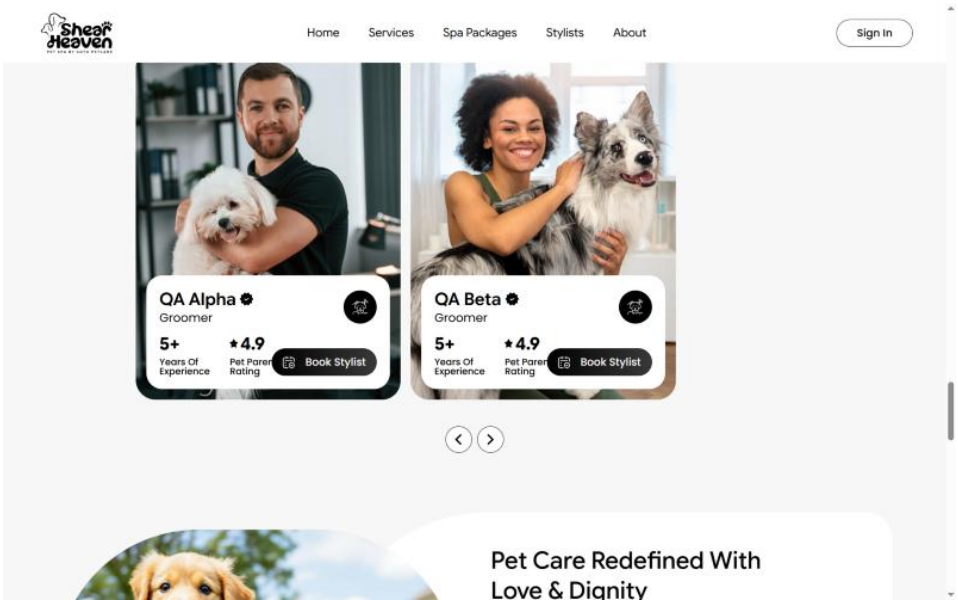

UI-LP-08 on index-Cn9ChTJy: Service cards use different photos (service-img-2.jpg, service-img-5.jpg).

UI-LP-09	Card rows with only 1-2 items are left-aligned, leaving large empty areas
Group	Landing page UI report
Module / Portal	Landing page - Services / Packages / Stylists
Retest steps	1. Open the landing page at 1440 px. 2. Scroll through Services, Spa Packages and Meet Our Stylists.
Expected result	Cards are centred (or the grid adapts) so sections with few items look balanced.
Previous status	Partially Fixed
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	Services cards centred (x 273 / 726, 426 px wide). Still offset: stylist cards span x 200-1017 (centre ~608 px vs page centre 720 px) and the single package card sits at x 488-624 (centre 556 px).

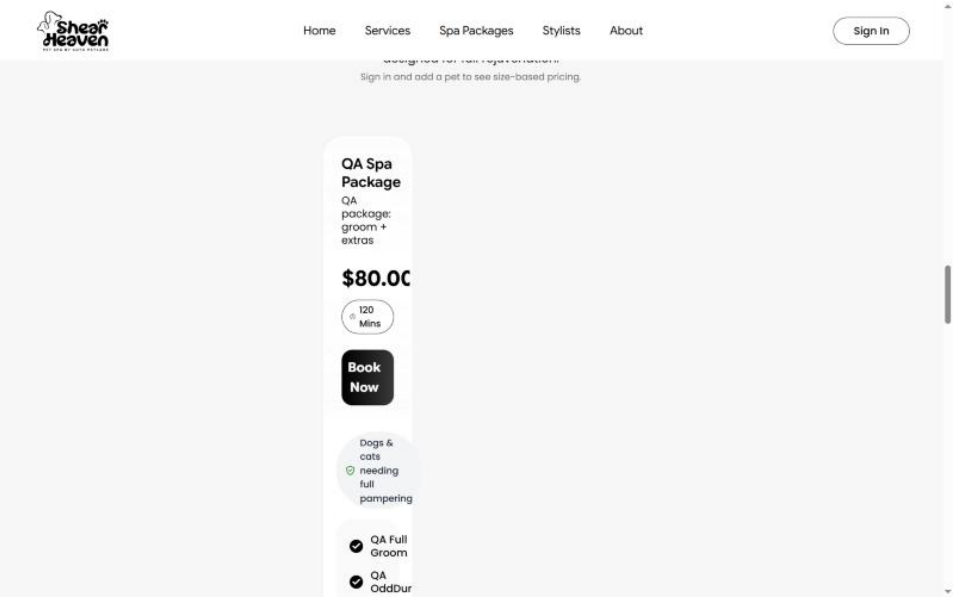

Evidence for UI-LP-09 (3 screenshots):

UI-LP-09 on index-Cn9ChTJy: Services cards centred (x 273 / 726, 426 px wide). Still offset: stylist cards span x 200-1017 (centre ~608 px vs page centre 720 px) and the single package card sits at …

UI-LP-10	Carousel arrows shown and active although every stylist is already visible
Group	Landing page UI report
Module / Portal	Landing page - Meet Our Certified Pet Stylists
Retest steps	1. Open the landing page at 1440 px. 2. Scroll to 'Meet Our Certified Pet Stylists'.
Expected result	Hide or disable the arrows when there is nothing to scroll, and align them with the carousel.
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Previous/Next Stylist arrows still visible and enabled although both stylists are fully visible.

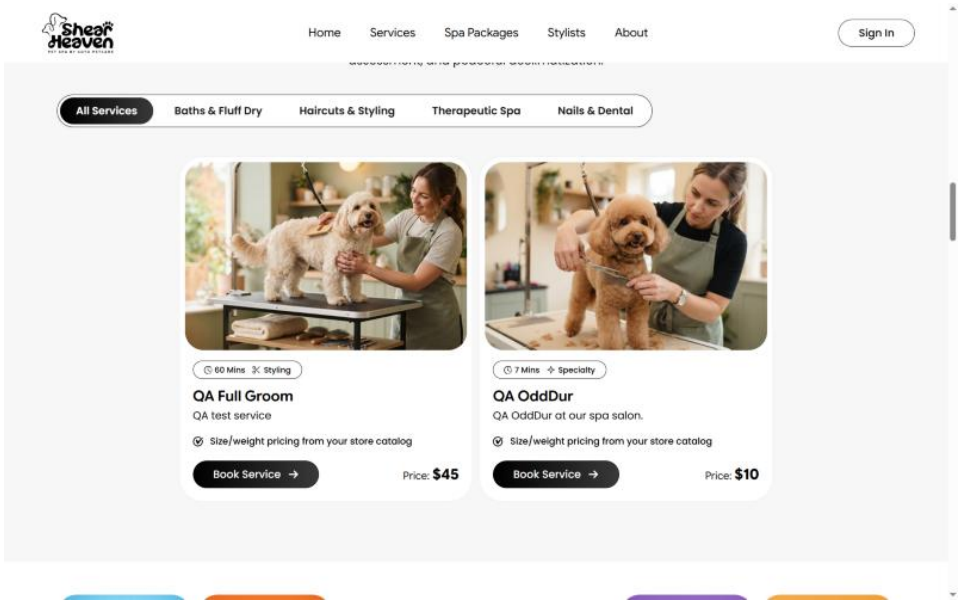

Evidence for UI-LP-10 (1 screenshot):

UI-LP-10 on index-Cn9ChTJy: Previous/Next Stylist arrows still visible and enabled although both stylists are fully visible.

UI-LP-11	Tab label typo: 'Baths & Fluff Day'
Group	Landing page UI report
Module / Portal	Landing page - Signature Spa & Salon Services - category tabs
Retest steps	1. Open the landing page. 2. Look at the category tabs under 'Signature Spa & Salon Services'.
Expected result	'Baths & Fluff Dry' (the grooming term used elsewhere in the app).
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Tab reads 'Baths & Fluff Dry'.

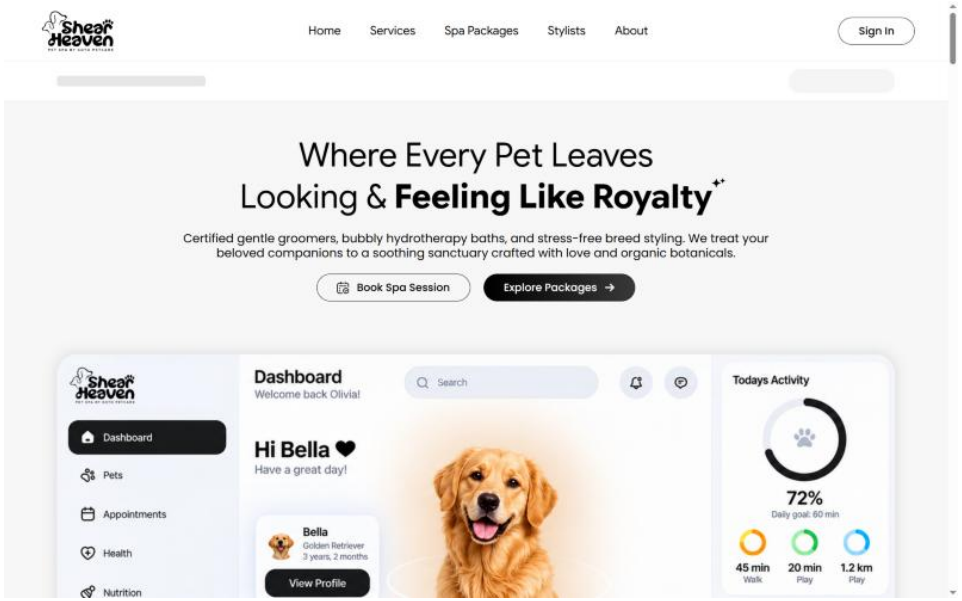

Evidence for UI-LP-11 (1 screenshot):

UI-LP-11 on index-Cn9ChTJy: Tab reads 'Baths & Fluff Dry'.

UI-LP-12	Stray space in hero copy: 'stress- free'
Group	Landing page UI report
Module / Portal	Landing page - Hero
Retest steps	1. Open the landing page. 2. Read the paragraph under the hero heading.
Expected result	'stress-free breed styling'.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Hero copy reads 'stress-free breed styling'.

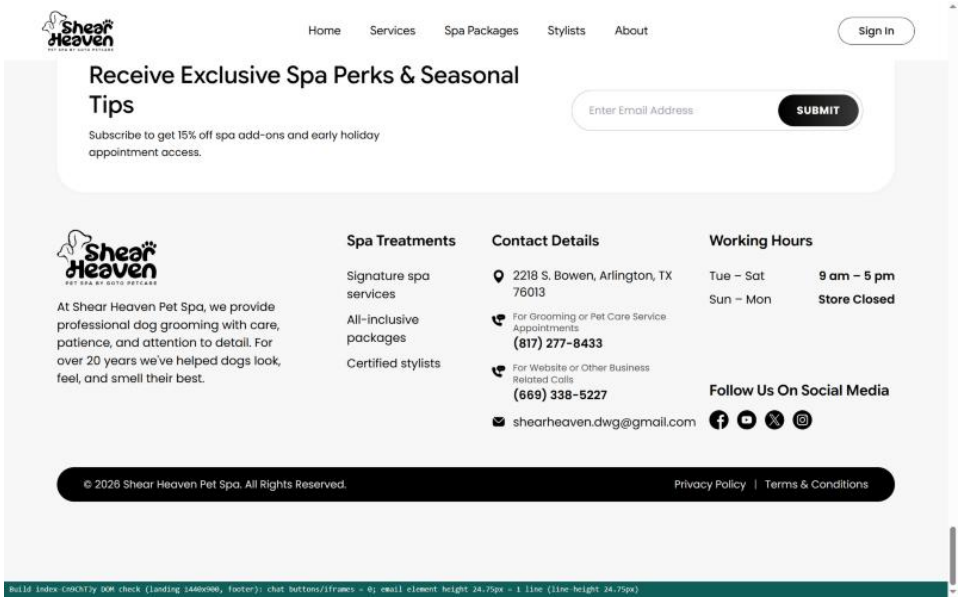

Evidence for UI-LP-12 (1 screenshot):

UI-LP-12 on index-Cn9ChTJy: Hero copy reads 'stress-free breed styling'.

UI-LP-13	Copyright text grammar: 'All Right Reserved'
Group	Landing page UI report
Module / Portal	Landing page - Footer - copyright bar
Retest steps	1. Scroll to the bottom of the landing page.
Expected result	'All Rights Reserved.'
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Footer reads '© 2026 Shear Heaven Pet Spa. All Rights Reserved.'

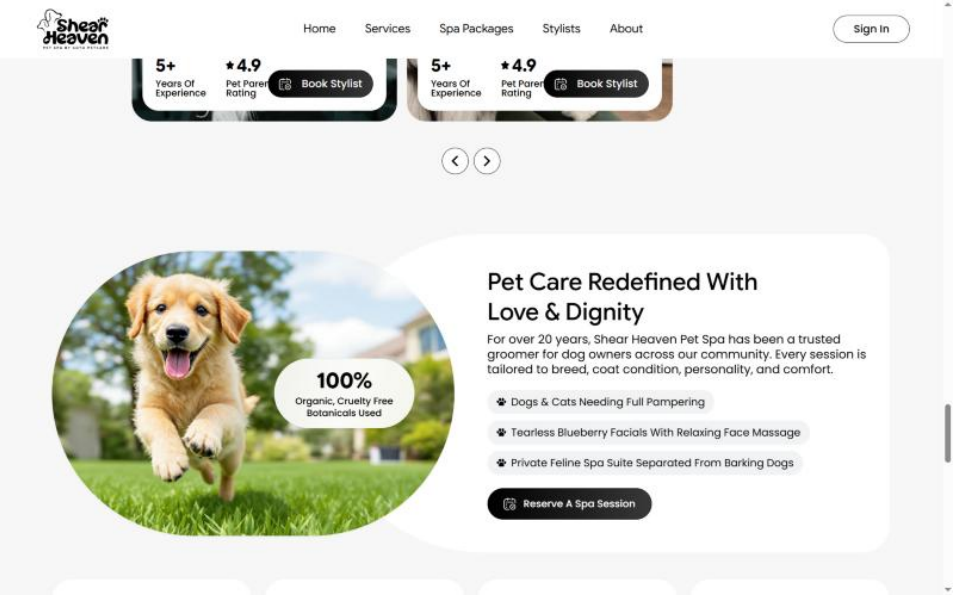

Evidence for UI-LP-13 (1 screenshot):

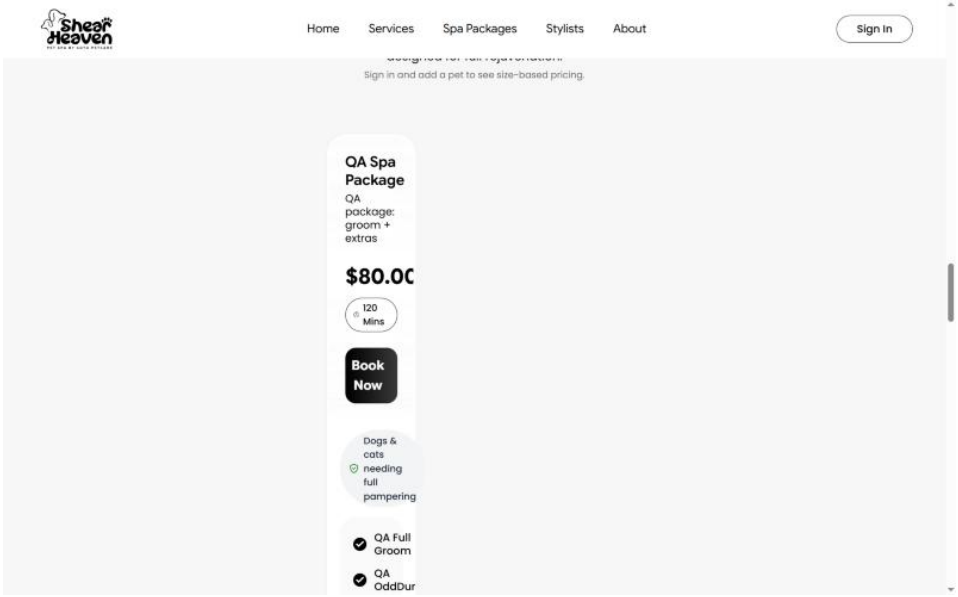

UI-LP-13 on index-Cn9ChTJy: Footer reads '© 2026 Shear Heaven Pet Spa. All Rights Reserved.'

UI-LP-14	Inconsistent text casing and heading weights
Group	Landing page UI report
Module / Portal	Landing page - Global typography
Retest steps	1. Scroll through the landing page and compare section subtitles and paragraphs.
Expected result	One casing rule (sentence case for body copy) and one weight for section headings across the page.
Previous status	Partially Fixed
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	All section H2 headings use weight 500 and body copy is sentence case. Still mixed chips: About 'Dogs & Cats Needing Full Pampering' (Title Case) vs Packages 'Dogs & cats needing full pampering'.

Evidence for UI-LP-14 (2 screenshots):

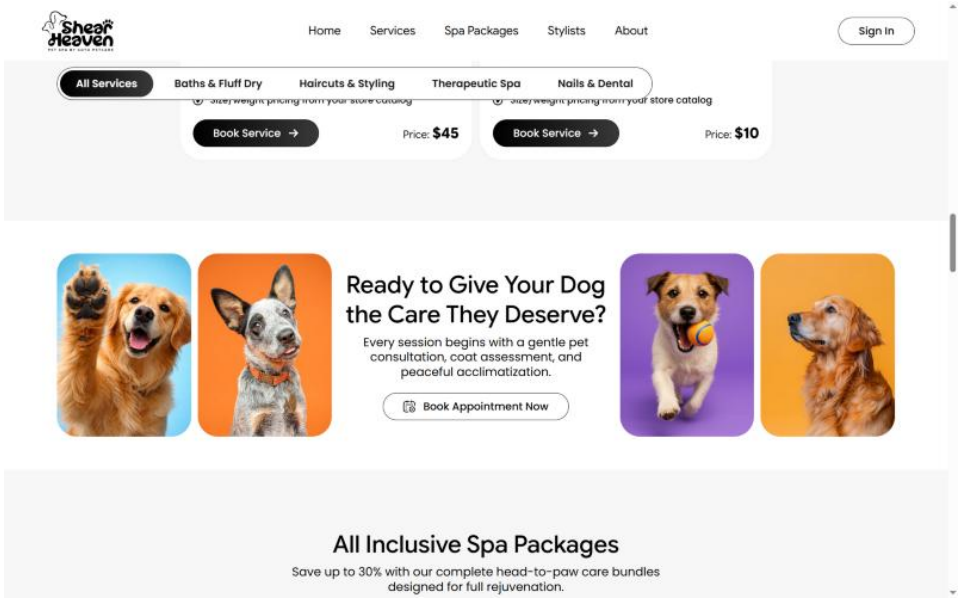

UI-LP-14 on index-Cn9ChTJy: All section H2 headings use weight 500 and body copy is sentence case. Still mixed chips: About 'Dogs & Cats Needing Full Pampering' (Title Case) vs Packages 'Dogs & cats...

UI-LP-14 on index-Cn9ChTJy: All section H2 headings use weight 500 and body copy is sentence case. Still mixed chips: About 'Dogs & Cats Needing Full Pampering' (Title Case) vs Packages 'Dogs & cats...

UI-LP-15	Image strip ignores the page gutter and runs to the screen edges
Group	Landing page UI report
Module / Portal	Landing page - 'Ready to Give Your Dog the Care They Deserve?' strip
Retest steps	1. Open the landing page at 1440 px. 2. Scroll to the 'Ready to Give Your Dog...' strip above Spa Packages.
Expected result	The strip aligns with the same container width/gutter as the other sections (or is intentionally full-bleed with matching padding).
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	'Ready to Give Your Dog...' strip images align with the page gutters like other sections.

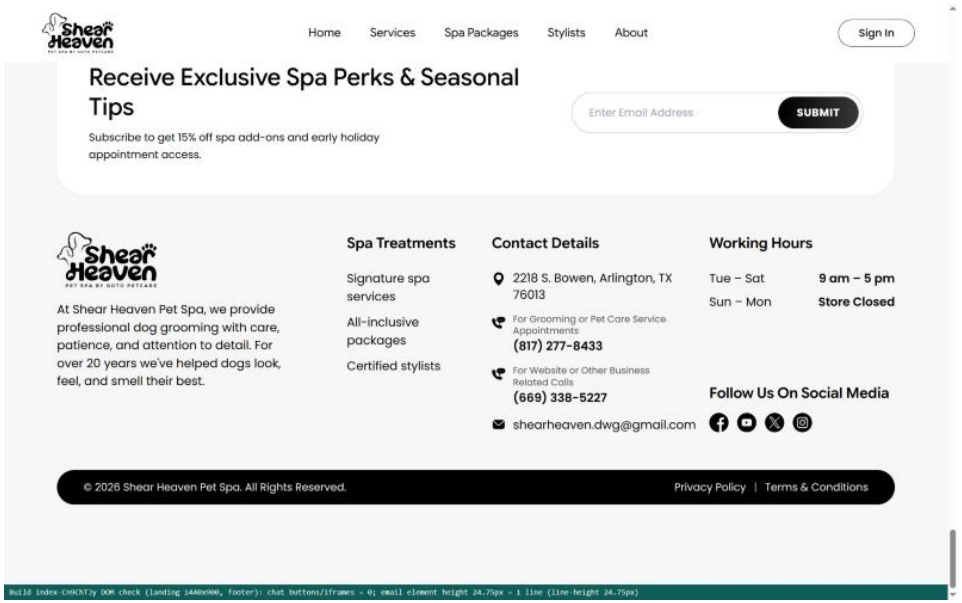

Evidence for UI-LP-15 (1 screenshot):

UI-LP-15 on index-Cn9ChTJy: 'Ready to Give Your Dog...' strip images align with the page gutters like other sections.

UI-LP-16	Footer lists demo treatments that do not exist in the services section
Group	Landing page UI report
Module / Portal	Landing page - Footer - Spa Treatments
Retest steps	1. Note the services shown in 'Signature Spa & Salon Services'. 2. Scroll to the footer 'Spa Treatments' column.
Expected result	Footer links reflect the real services offered (or generic category links).
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Footer 'Spa Treatments' lists generic links: Signature spa services / All-inclusive packages / Certified stylists.

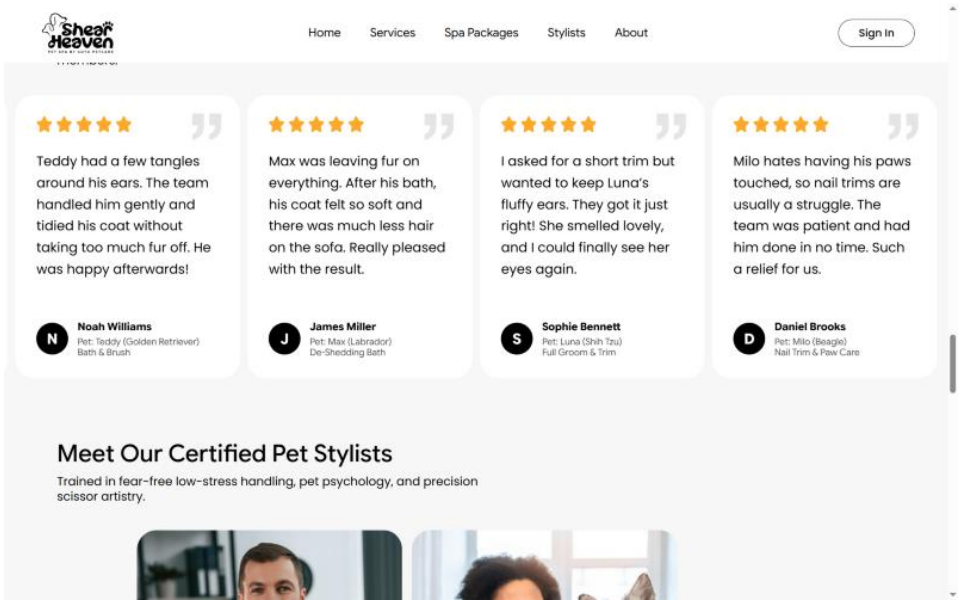

Evidence for UI-LP-16 (1 screenshot):

UI-LP-16 on index-Cn9ChTJy: Footer 'Spa Treatments' lists generic links: Signature spa services / All-inclusive packages / Certified stylists.

UI-LP-17	Every testimonial shows 4 of 5 stars next to a '10K+ Five Star Reviews' claim
Group	Landing page UI report
Module / Portal	Landing page - Reviews
Retest steps	1. Scroll to the stats grid ('10K+ Five Star Reviews'). 2. Scroll to 'Loved By Thousands Of Pet Parents'.
Expected result	Star ratings shown are consistent with the headline claim (or the claim is reworded).
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	All review cards show 5 filled stars (50 filled star icons across 10 cards).

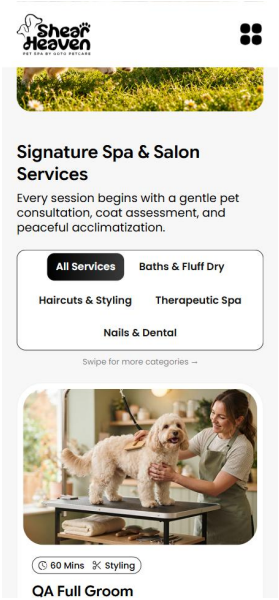

Evidence for UI-LP-17 (1 screenshot):

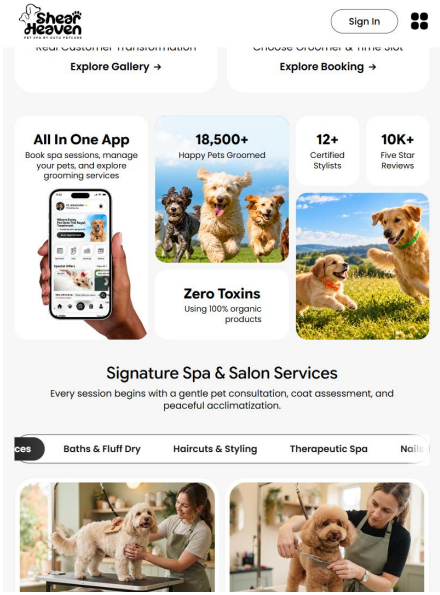

UI-LP-17 on index-Cn9ChTJy: All review cards show 5 filled stars (50 filled star icons across 10 cards).

UI-LP-18	Category tab bar is cut off mid-label with no scroll cue
Group	Landing page UI report
Module / Portal	Landing page - Services - category tabs (tablet/mobile)
Retest steps	1. Set the viewport to 768x1024 or 375x812. 2. Scroll to the category tabs under 'Signature Spa & Salon Services'.
Expected result	Tabs wrap, or show a clear horizontal-scroll affordance (edge fade/arrow).
Previous status	Partially Fixed
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	Mobile 375 px: tabs wrap onto 3 rows, all visible. Tablet 768 px: bar still clipped on both sides ('ces' / 'Nails') with no visible scroll cue.

Evidence for UI-LP-18 (2 screenshots):

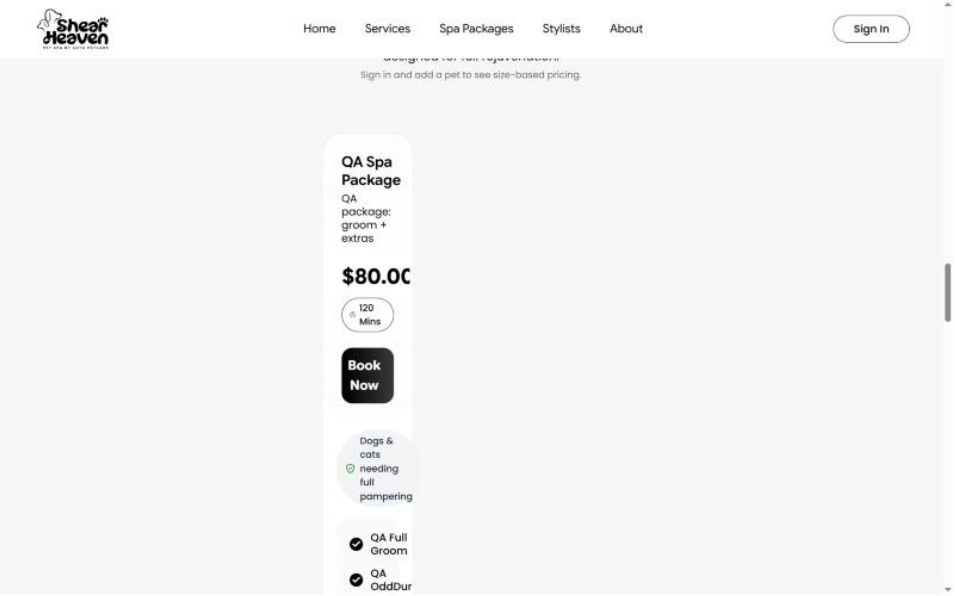

UI-LP-18 on index-Cn9ChTJy: Mobile 375 px: tabs wrap onto 3 rows, all visible. Tablet 768 px: bar still clipped on both sides ('ces' / 'Nails') with no visible scroll cue.

UI-LP-18 on index-Cn9ChTJy: Mobile 375 px: tabs wrap onto 3 rows, all visible. Tablet 768 px: bar still clipped on both sides ('ces' / 'Nails') with no visible scroll cue.

UI-LP-19	Only package carries a 'Most Recommended' badge and a redundant price note
Group	Landing page UI report
Module / Portal	Landing page - All Inclusive Spa Packages
Retest steps	1. Scroll to 'All Inclusive Spa Packages' (signed out).
Expected result	A 'recommended' badge only when there are alternatives; price shown once (e.g. 'From $80').
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Package card shows no 'Most Recommended' badge and no '(from $80 by pet size)' note; just '$80.00'.

Evidence for UI-LP-19 (1 screenshot):

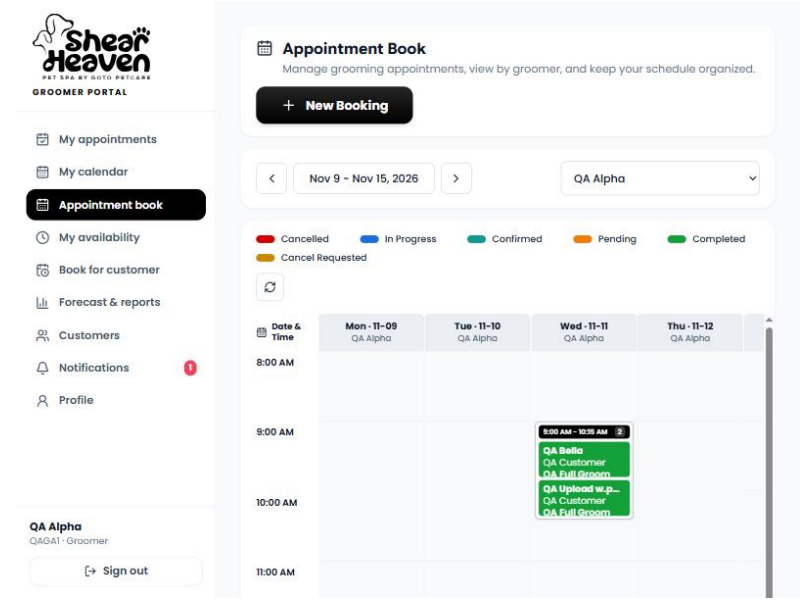

UI-LP-19 on index-Cn9ChTJy: Package card shows no 'Most Recommended' badge and no '(from $80 by pet size)' note; just '$80.00'.

Groomer portal UI report - 18 issues

UI-GR-01	Two appointments at the same start time are drawn on top of each other - one is hidden
Group	Groomer portal UI report
Module / Portal	Groomer portal - Appointment book
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Appointment book. 3. Look at Wed 2026-11-11, 9:00 AM.
Expected result	Simultaneous appointments are shown as a stacked block with a count (as at 12:45/5:00) or side by side, so no appointment is hidden.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Wed 11 Nov 9:00 AM: both appointments shown in one stacked block with count '2' (QA Bella, QA Upload w.png).

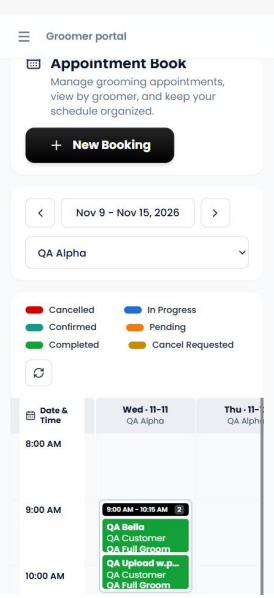

Evidence for UI-GR-01 (1 screenshot):

UI-GR-01 on index-Cn9ChTJy: Wed 11 Nov 9:00 AM: both appointments shown in one stacked block with count '2' (QA Bella, QA Upload w.png).

UI-GR-02	Time axis scrolls out of view and the colour legend is clipped inside the horizontal scroller
Group	Groomer portal UI report
Module / Portal	Groomer portal - Appointment book (mobile)
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Set the viewport to 375x812 and open Appointment book. 3. Scroll the week grid sideways to reach today's column.
Expected result	Time column stays pinned while scrolling horizontally, and the legend is placed outside the scrolling grid so it is always fully readable.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Mobile 375 px: grid scrolled sideways (scrollLeft 260) keeps the time column sticky at the left; colour legend sits above the grid, outside the scroller.

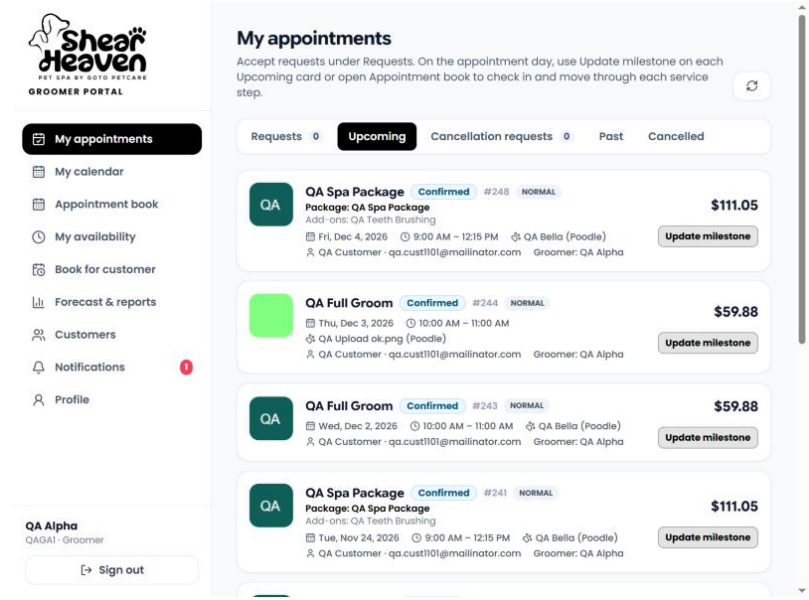

Evidence for UI-GR-02 (1 screenshot):

UI-GR-02 on index-Cn9ChTJy: Mobile 375 px: grid scrolled sideways (scrollLeft 260) keeps the time column sticky at the left; colour legend sits above the grid, outside the scroller.

UI-GR-03	Page instructions refer to an 'Update milestone' button that is not shown on any card
Group	Groomer portal UI report
Module / Portal	Groomer portal - My appointments - Upcoming
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. On My appointments, read the subtitle. 3. Open the Upcoming tab.
Expected result	Either the cards show the action the instructions describe, or the instruction text is updated to describe where milestones are updated (e.g. Appointment book).
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Upcoming tab: every card has an 'Update milestone' button (8 buttons); subtitle matches.

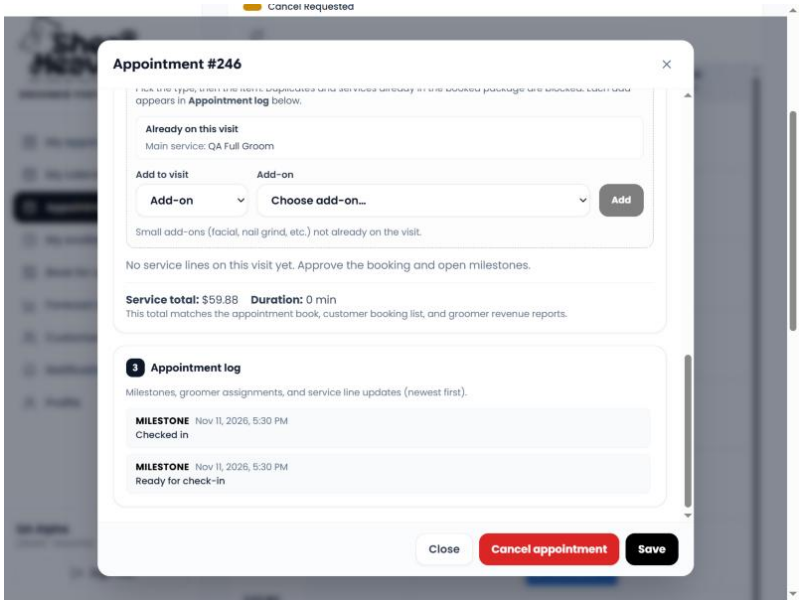

Evidence for UI-GR-03 (1 screenshot):

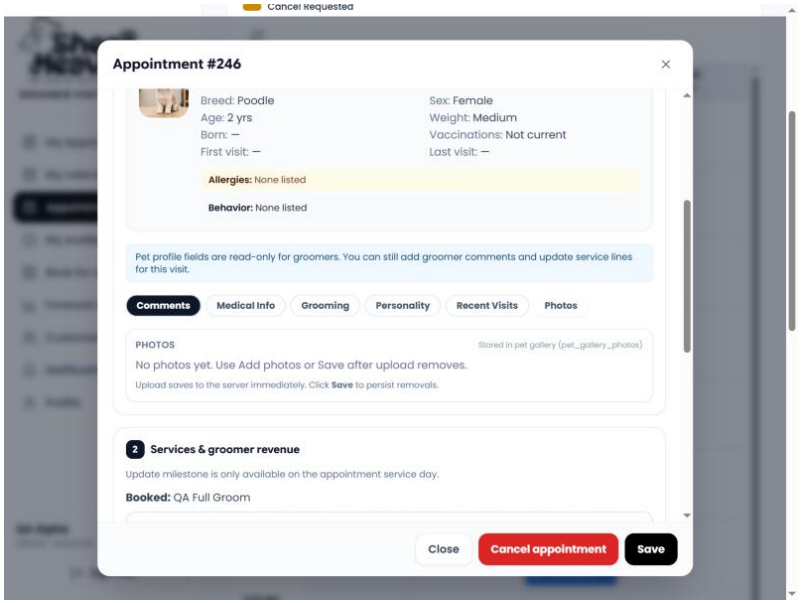

UI-GR-03 on index-Cn9ChTJy: Upcoming tab: every card has an 'Update milestone' button (8 buttons); subtitle matches.

UI-GR-04	Internal technical text and raw codes shown to groomers
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability / Appointment details
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open My availability and read the store line. 3. Open Appointment book, click a block, scroll to '2. Services & groomer revenue'.
Expected result	Only user-facing wording (e.g. 'Milestone: Checked in'); no tenant IDs, table names or developer notes.
Previous status	Partially Fixed
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	No tenant IDs or 'check_in_completed' codes. Still shown in Appointment #246: 'Stored in pet gallery (pet_gallery_photos)' (table name) and the developer note 'This total matches the appointment book, customer booking list, and groomer revenue reports.'

Evidence for UI-GR-04 (2 screenshots):

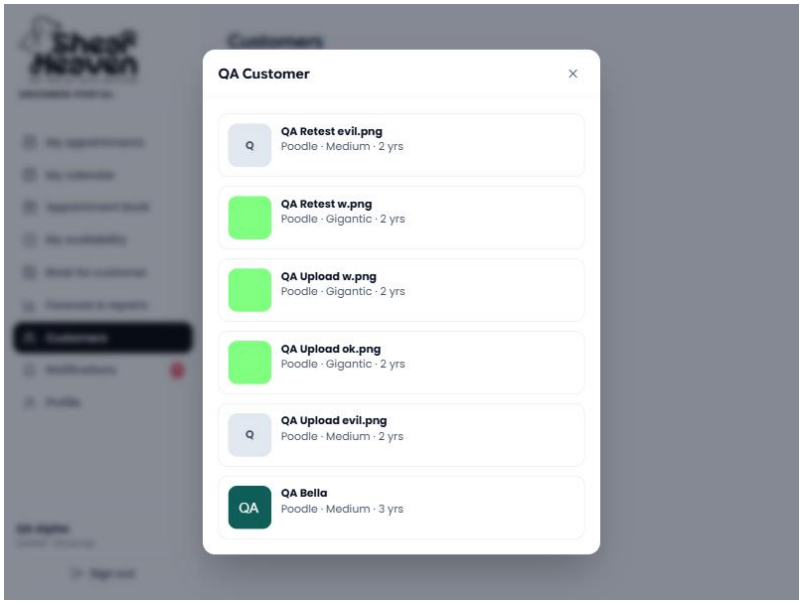

UI-GR-04 on index-Cn9ChTJy: No tenant IDs or 'check_in_completed' codes. Still shown in Appointment #246: 'Stored in pet gallery (pet_gallery_photos)' (table name) and the developer note 'This total...

UI-GR-04 on index-Cn9ChTJy: No tenant IDs or 'check_in_completed' codes. Still shown in Appointment #246: 'Stored in pet gallery (pet_gallery_photos)' (table name) and the developer note 'This total...

UI-GR-05	Broken pet photos show the browser's broken-image icon with no fallback
Group	Groomer portal UI report
Module / Portal	Groomer portal - Customers modal / Appointment details - Pet details
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Customers and click 'QA Customer'. 3. Also open Appointment book > 2:00 PM block on 11 Nov > Pet details.
Expected result	A consistent fallback avatar (initials or paw icon) when a pet photo cannot be displayed.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Customers > QA Customer: pets without a usable photo show an initial 'Q' placeholder; no broken-image icons.

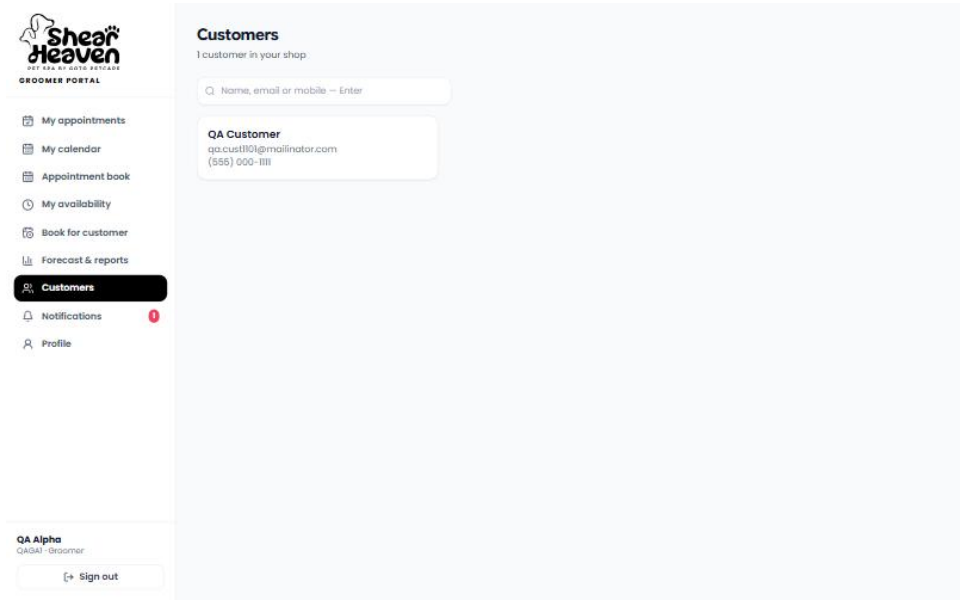

Evidence for UI-GR-05 (1 screenshot):

UI-GR-05 on index-Cn9ChTJy: Customers > QA Customer: pets without a usable photo show an initial 'Q' placeholder; no broken-image icons.

UI-GR-06	Empty white header bar above every page on desktop
Group	Groomer portal UI report
Module / Portal	Groomer portal - All pages (desktop header)
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. View any groomer page at 1440 px width.
Expected result	Hide the bar on desktop, or use it for a page title/user menu.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	At 1440 px the header element is display:none / 0 px; page content starts at the top with no empty bar.

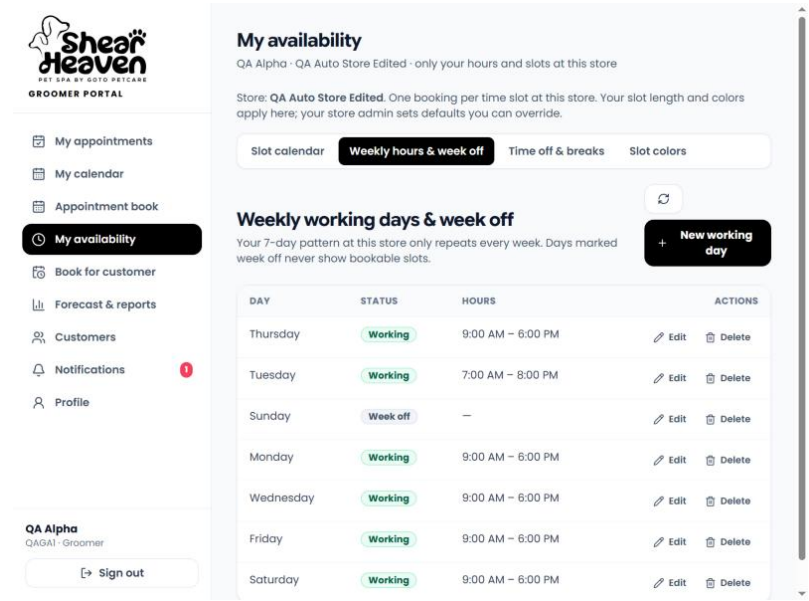

Evidence for UI-GR-06 (1 screenshot):

UI-GR-06 on index-Cn9ChTJy: At 1440 px the header element is display:none / 0 px; page content starts at the top with no empty bar.

UI-GR-07	Weekly working days are listed in random order
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability - Weekly hours & week off
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open My availability > Weekly hours & week off.
Expected result	Days listed Monday to Sunday (or Sunday to Saturday).
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Weekly hours rows still: Thursday, Tuesday, Sunday, Monday, Wednesday, Friday, Saturday.

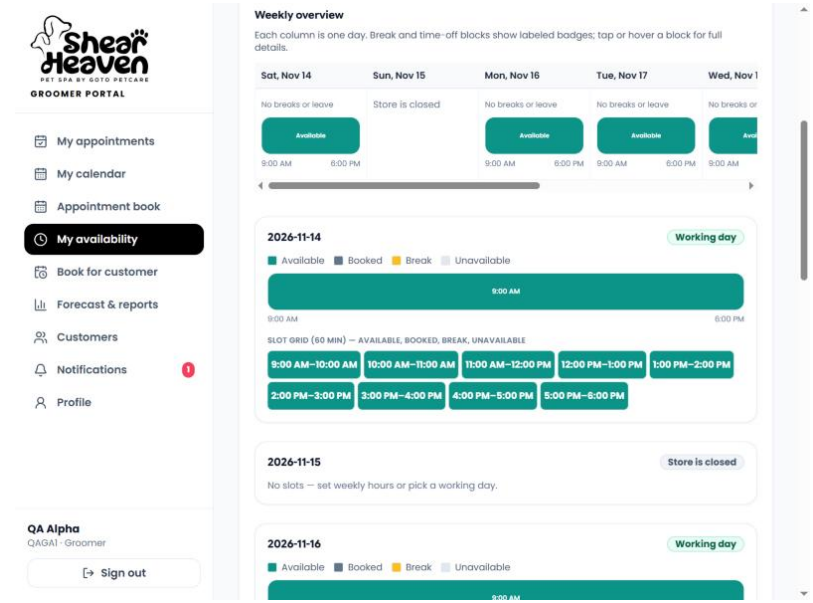

Evidence for UI-GR-07 (1 screenshot):

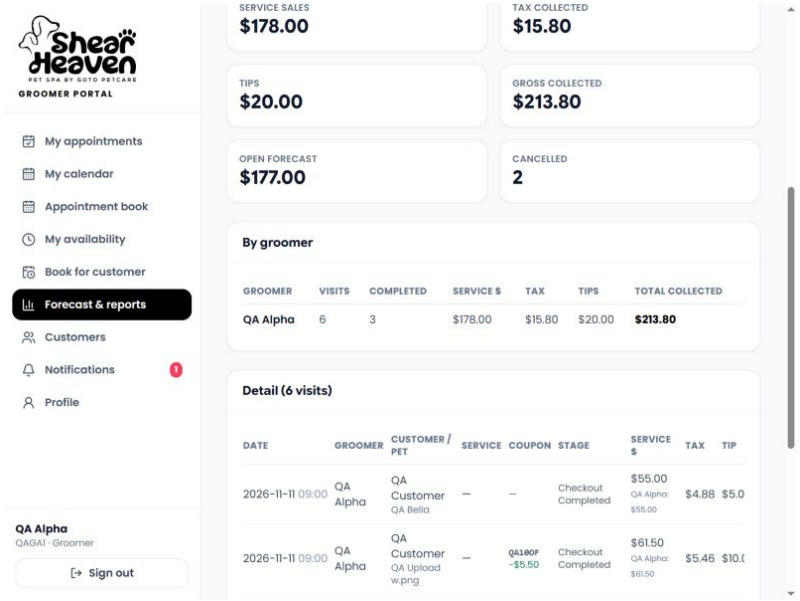

UI-GR-07 on index-Cn9ChTJy: Weekly hours rows still: Thursday, Tuesday, Sunday, Monday, Wednesday, Friday, Saturday.

UI-GR-08	Inconsistent date and time formats
Group	Groomer portal UI report
Module / Portal	Groomer portal - Appointment book / Availability / Reports / Notifications
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Compare dates on Appointment book, My availability, Financial reports and Notifications with My appointments.
Expected result	One human-readable date/time format across the portal.
Previous status	Partially Fixed
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	Improved: appointment book header 'Nov 9 - Nov 15, 2026', column heads now 'Mon · 11-09' (was '2026-11-09 - Mon'), weekly overview 'Sat, Nov 14'. Still mixed: day cards '2026-11-14', 'Report range: 2026-11-08 → 2026-11-14', report rows '2026-11-11 09:00', notification date '11/11/2026' and text '2026-11-18 at 14:00'.

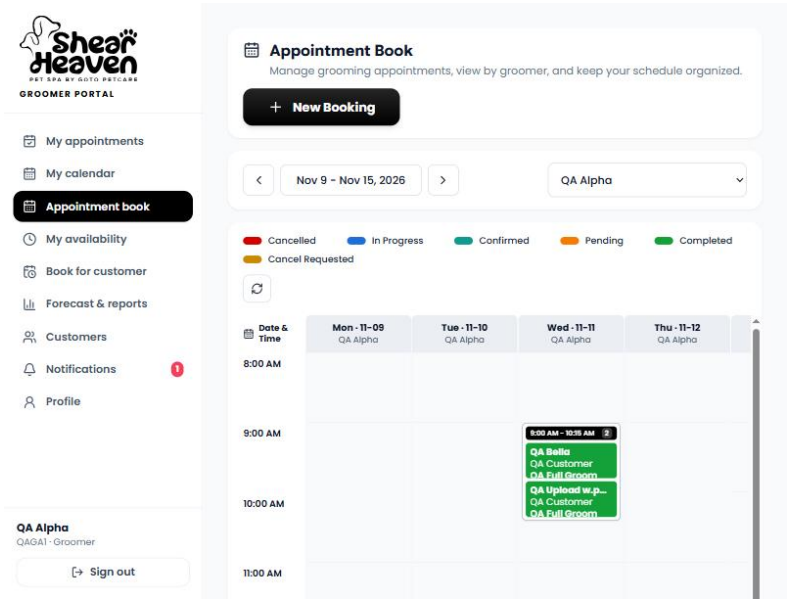

Evidence for UI-GR-08 (3 screenshots):

UI-GR-09	Appointment statuses shown as raw lowercase text
Group	Groomer portal UI report
Module / Portal	Groomer portal - Forecast & reports
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Forecast & reports (Forecast list) and Financial reports (Detail table, Stage column).
Expected result	Same capitalised status labels/badges as the rest of the portal.
Previous status	Still Reproducible
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Statuses are now capitalised: Forecast list '· Confirmed', '· Grooming Completed'; Financial reports Stage 'Checkout Completed', 'Checked In', 'Ready For Checkout'.

Evidence for UI-GR-09 (2 screenshots):

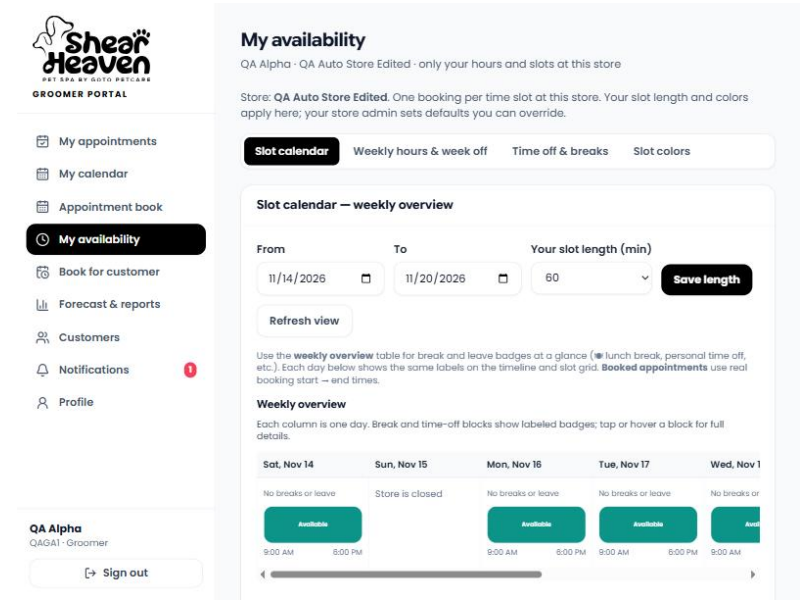

UI-GR-09 on index-Cn9ChTJy: Statuses are now capitalised: Forecast list '· Confirmed', '· Grooming Completed'; Financial reports Stage 'Checkout Completed', 'Checked In', 'Ready For Checkout'.

UI-GR-09 on index-Cn9ChTJy: Statuses are now capitalised: Forecast list '· Confirmed', '· Grooming Completed'; Financial reports Stage 'Checkout Completed', 'Checked In', 'Ready For Checkout'.

UI-GR-10	Very small text (8-10 px) in availability and appointment-book grids
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open My availability (Slot calendar) and Appointment book.
Expected result	Minimum ~12 px for readable labels.
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Weekly overview: 'Available'/'Booked' 8 px, 'Unavailable' 9 px, 'No breaks or leave' 10 px (computed font sizes).

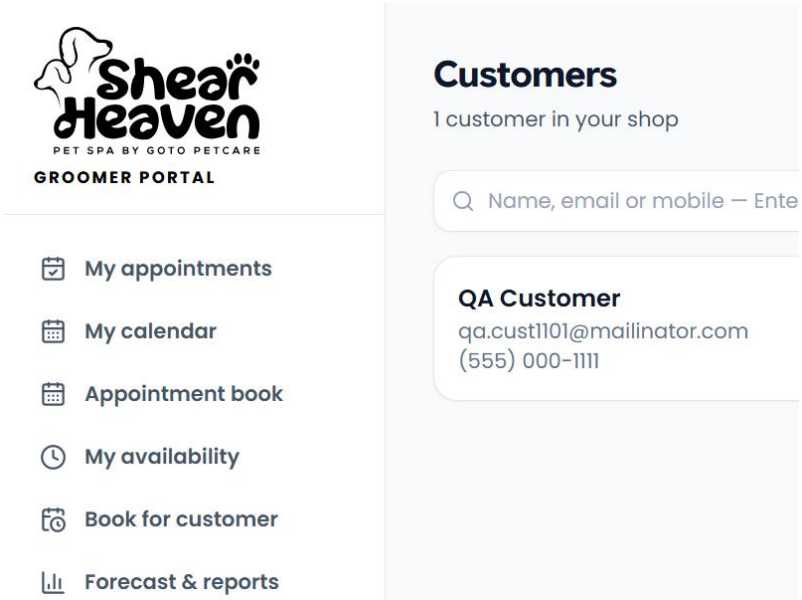

Evidence for UI-GR-10 (1 screenshot):

UI-GR-10 on index-Cn9ChTJy: Weekly overview: 'Available'/'Booked' 8 px, 'Unavailable' 9 px, 'No breaks or leave' 10 px (computed font sizes).

UI-GR-11	'1 customers' and unformatted phone number
Group	Groomer portal UI report
Module / Portal	Groomer portal - Customers
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Customers.
Expected result	'1 customer'; phone formatted like elsewhere in the product, e.g. '(555) 000-1111'.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Customers: '1 customer in your shop'; phone '(555) 000-1111'.

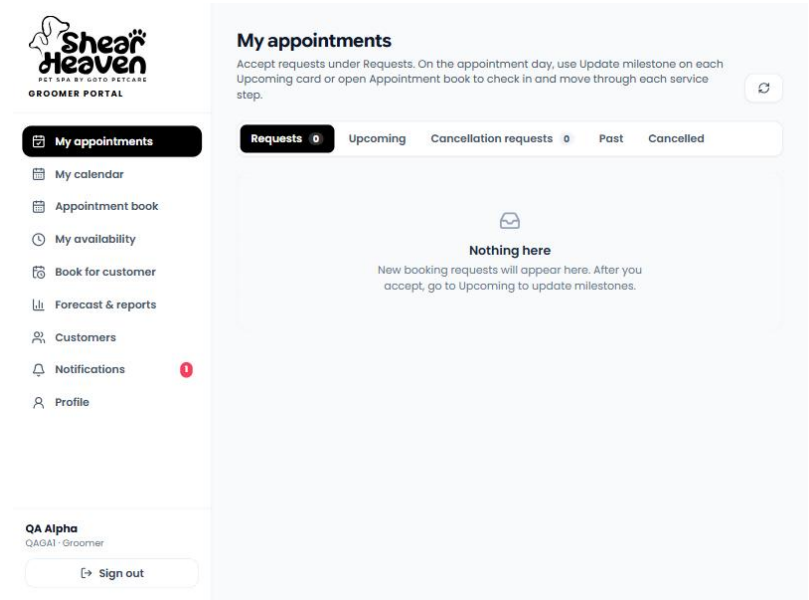

Evidence for UI-GR-11 (1 screenshot):

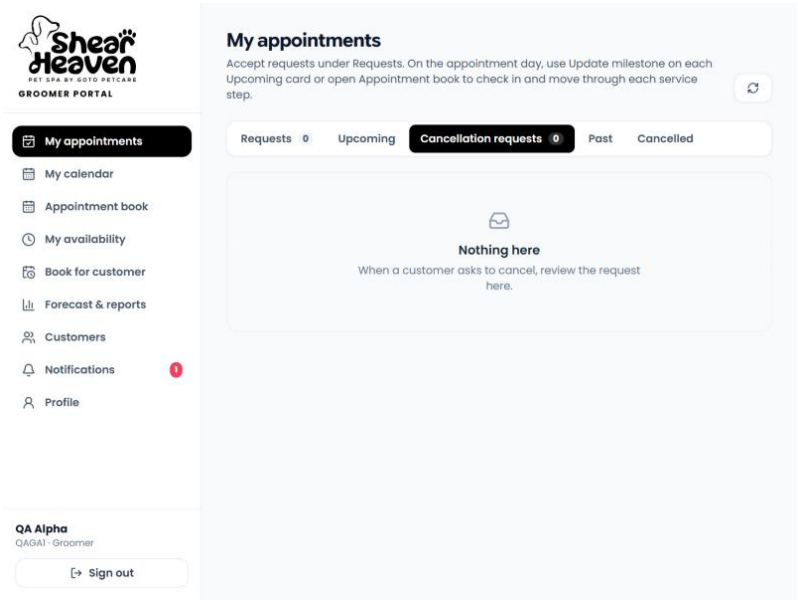

UI-GR-11 on index-Cn9ChTJy: Customers: '1 customer in your shop'; phone '(555) 000-1111'.

UI-GR-12	Empty states are inconsistent between tabs
Group	Groomer portal UI report
Module / Portal	Groomer portal - My appointments - tabs
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. On My appointments compare the empty Requests tab with the empty Cancellation requests tab.
Expected result	Same empty-state pattern (title + helpful message) on every tab.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Requests and Cancellation requests empty states both show the icon, 'Nothing here' and a helpful message.

Evidence for UI-GR-12 (2 screenshots):

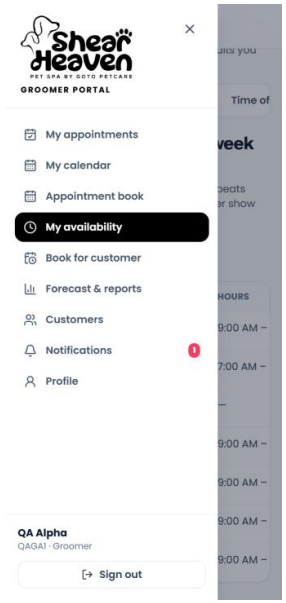

UI-GR-12 on index-Cn9ChTJy: Requests and Cancellation requests empty states both show the icon, 'Nothing here' and a helpful message.

UI-GR-12 on index-Cn9ChTJy: Requests and Cancellation requests empty states both show the icon, 'Nothing here' and a helpful message.

UI-GR-13	Navigation drawer has no close button
Group	Groomer portal UI report
Module / Portal	Groomer portal - Navigation drawer (mobile/tablet)
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Set the viewport to 375x812. 3. Tap the menu icon at the top left.
Expected result	A visible close button in the drawer header.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Mobile drawer shows an X 'Close menu' button in its header.

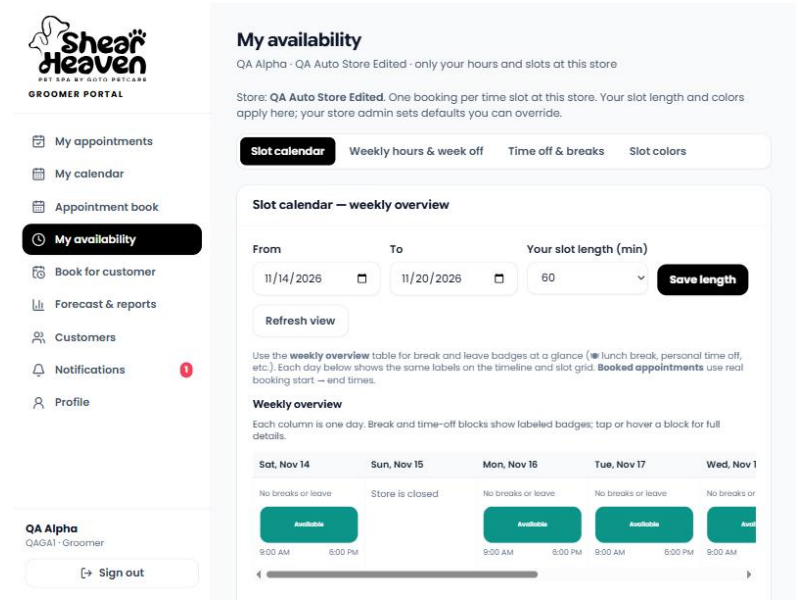

Evidence for UI-GR-13 (1 screenshot):

UI-GR-13 on index-Cn9ChTJy: Mobile drawer shows an X 'Close menu' button in its header.

UI-GR-14	Instructions say 'hover for full details' on touch screens
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability / Appointment book (touch devices)
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Set a tablet or mobile viewport and open My availability or Appointment book.
Expected result	Touch-friendly wording (e.g. 'tap a block for details') or tap-to-reveal details.
Previous status	Fixed
Retest status	Fixed
Actual result (index-Cn9ChTJy)	Text reads 'tap or hover a block for full details'; no 'hover for full details' wording left on My availability.

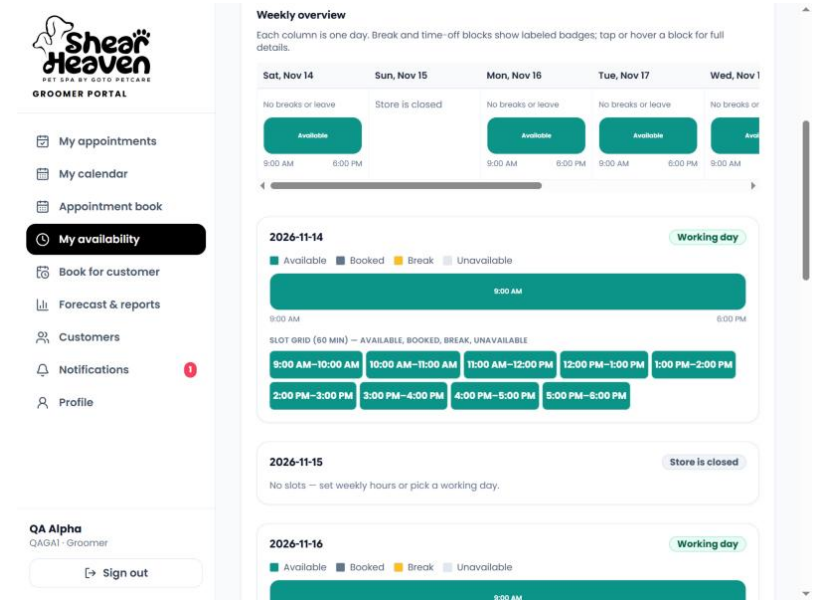

Evidence for UI-GR-14 (1 screenshot):

UI-GR-14 on index-Cn9ChTJy: Text reads 'tap or hover a block for full details'; no 'hover for full details' wording left on My availability.

UI-GR-15	Full-day timeline bar is labelled only '9:00 AM' in its centre
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability - day timeline
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open My availability > Slot calendar and look at a working day (e.g. 2026-11-12).
Expected result	Label shows the range ('9:00 AM - 6:00 PM' / 'Available') or no centre label.
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Day timeline (2026-11-14 working day): full-day bar still labelled only '9:00 AM' in its centre (weekly-overview cards now say 'Available', but the per-day timeline does not).

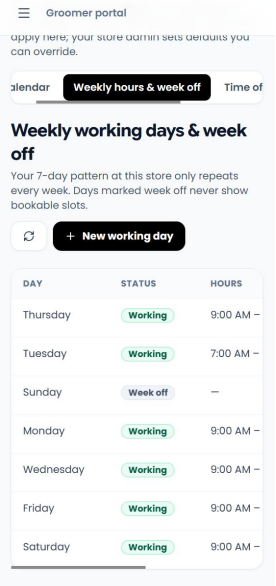

Evidence for UI-GR-15 (1 screenshot):

UI-GR-15 on index-Cn9ChTJy: Day timeline (2026-11-14 working day): full-day bar still labelled only '9:00 AM' in its centre (weekly-overview cards now say 'Available', but the per-day timeline does ...

UI-GR-16	Weekly hours table needs sideways scrolling; hours and actions are off-screen
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability (mobile)
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Set the viewport to 375x812. 3. Open My availability > Weekly hours & week off.
Expected result	A stacked/card layout on mobile so day, hours and actions are visible without horizontal scrolling.
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Mobile 375 px: weekly hours table still 640 px wide inside a 342 px scroller; hours cut ('9:00 AM –'), Edit buttons at x 495 px (off-screen).

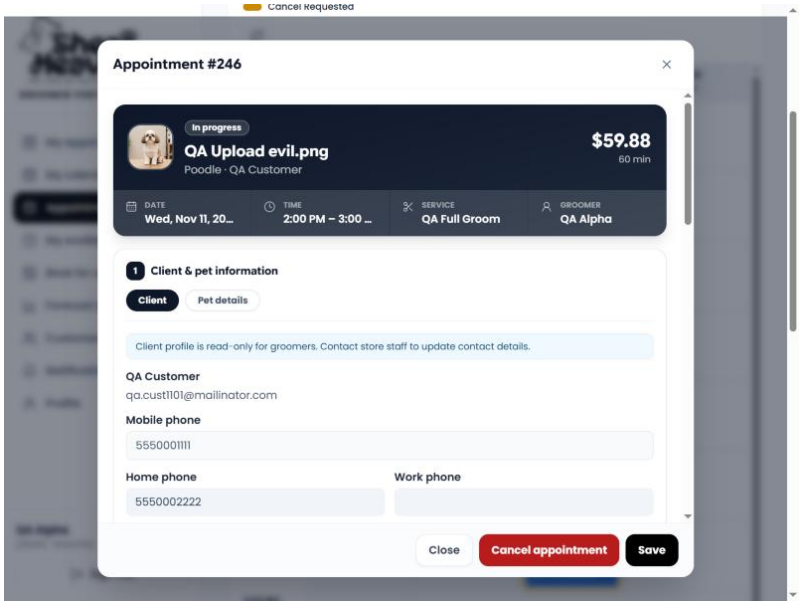

Evidence for UI-GR-16 (1 screenshot):

UI-GR-16 on index-Cn9ChTJy: Mobile 375 px: weekly hours table still 640 px wide inside a 342 px scroller; hours cut ('9:00 AM –'), Edit buttons at x 495 px (off-screen).

UI-GR-17	Read-only client fields look like editable inputs
Group	Groomer portal UI report
Module / Portal	Groomer portal - Appointment details - Client tab
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open Appointment book, click an appointment block, stay on the Client tab.
Expected result	Show read-only client data as plain text (or clearly disabled fields).
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Client tab (Appointment #246): read-only Mobile/Home/Work phone still rendered as input boxes (readOnly; mobile has a border, home/work grey filled) next to an active Save button.

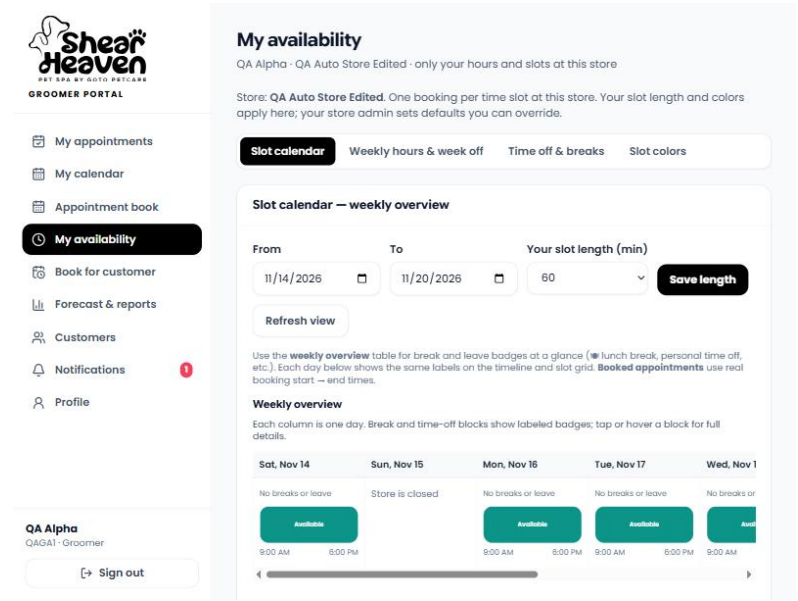

Evidence for UI-GR-17 (1 screenshot):

UI-GR-17 on index-Cn9ChTJy: Client tab (Appointment #246): read-only Mobile/Home/Work phone still rendered as input boxes (readOnly; mobile has a border, home/work grey filled) next to an active Sav…

UI-GR-18	'Store is closed' cell text is larger than other cells
Group	Groomer portal UI report
Module / Portal	Groomer portal - My availability - weekly overview
Retest steps	1. Log in to the Groomer portal (QA Alpha, store QAA-001). 2. Open My availability > Slot calendar > Weekly overview.
Expected result	Same text size/style in all day cells.
Previous status	Still Reproducible
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	'Store is closed' 12 px vs 'No breaks or leave' 10 px in the weekly overview cells.

Evidence for UI-GR-18 (1 screenshot):

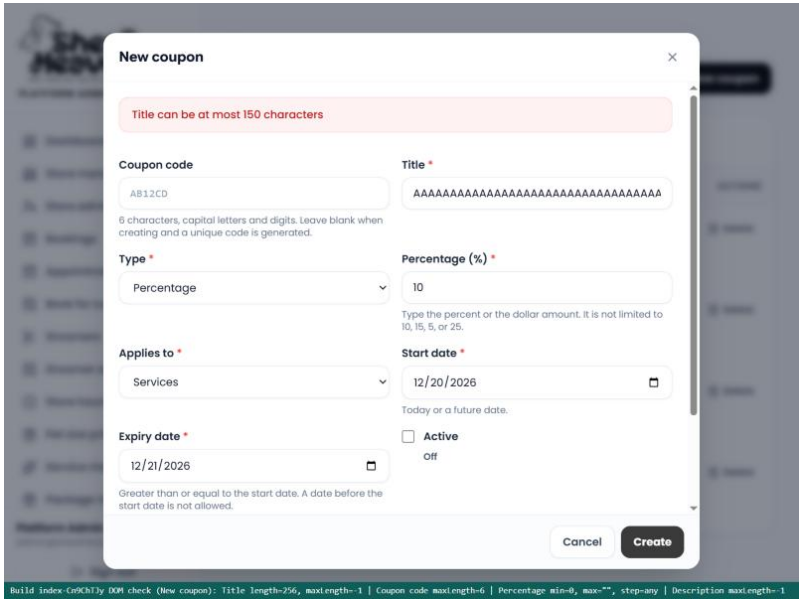

UI-GR-18 on index-Cn9ChTJy: 'Store is closed' 12 px vs 'No breaks or leave' 10 px in the weekly overview cells.

New validation bug (14 Nov) - 29 issues

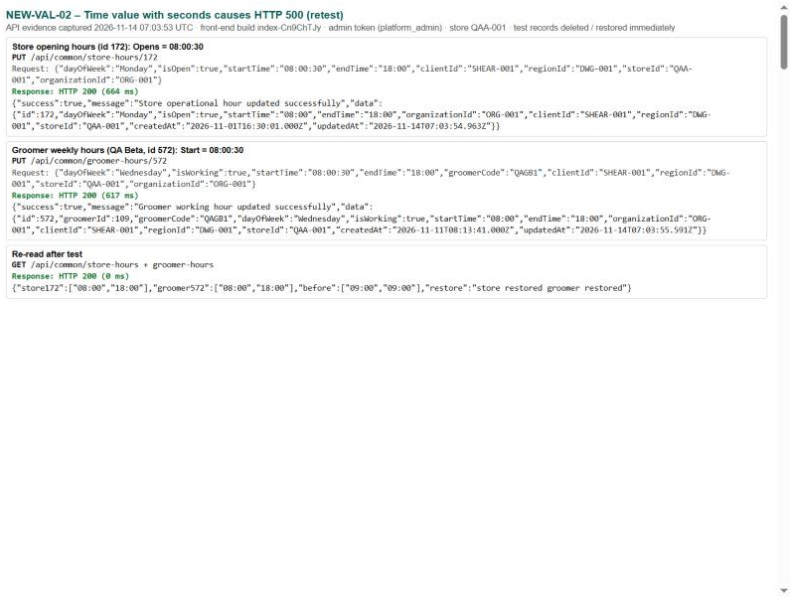

NEW-VAL-01	Over-length text causes HTTP 500 with a raw database error
Group	New validation bug (14 Nov)
Module / Portal	Coupon / Store content (Admin)
Retest steps	1. Admin portal (admin@shearheaven.local), store QAA-001: Promotions > New coupon. 2. Enter a 256-character Title, 10 %, valid dates; click Create. 3. API: POST /api/common/offers with title 256 / description 1000 chars; POST /api/common/store-content with title 256 / body 100,000 chars.
Expected result	Request rejected with HTTP 400 and a clear message (e.g. 'Title can be at most 255 characters'); field limited in the UI.
Previous status	Open (new)
Retest status	Fixed
Actual result (index-Cn9ChTJy)	All four over-length cases now return HTTP 400 with clear messages (coupon title 'Title can be at most 150 characters', coupon description 'at most 500 characters', store-content title/body 'too long. Shorten it and try again.'). UI: New coupon with a 256-char title now shows 'Title can be at most 150 characters' (was the raw DB error). Note: the input itself still has no maxLength (NEW-VAL-15).

Evidence for NEW-VAL-01 (2 screenshots):

New coupon
Title can be at most 150 characters
Coupon code
AB12CD
6 characters, capital letters and digits. Leave blank when creating and a unique code is generated.
Title *
AAAA

NEW-VAL-02	Time value with seconds causes HTTP 500
Group	New validation bug (14 Nov)
Module / Portal	Store hours / Groomer weekly hours (Admin)
Retest steps	1. PUT /api/common/store-hours/172 with startTime '08:00:30'. 2. PUT /api/common/groomer-hours/572 (QA Beta) with startTime '08:00:30'. 3. Re-read both records.
Expected result	HTTP 400 'Time must be in HH:MM 24-hour format' (as for '25:00').
Previous status	Open (new)
Retest status	Fixed
Actual result (index-Cn9ChTJy)	No HTTP 500. '08:00:30' is now accepted (HTTP 200) and normalised to '08:00' for both store hours (id 172) and groomer hours (id 572). Both records were restored to 09:00 afterwards.

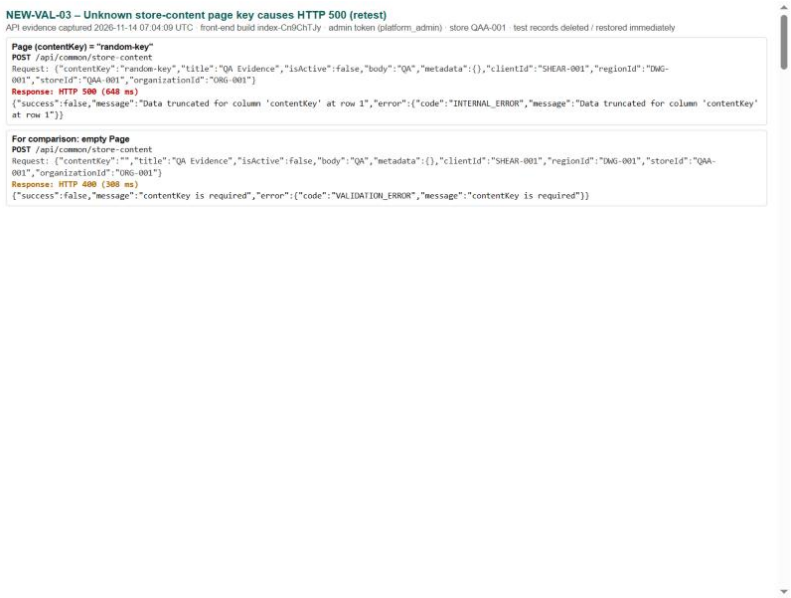

Evidence for NEW-VAL-02 (1 screenshot):

NEW-VAL-02 on index-Cn9ChTJy: No HTTP 500. '08:00:30' is now accepted (HTTP 200) and normalised to '08:00' for both store hours (id 172) and groomer hours (id 572). Both records were restored to 09:00...

NEW-VAL-03	Unknown page key causes HTTP 500
Group	New validation bug (14 Nov)
Module / Portal	Store content (Admin)
Retest steps	1. POST /api/common/store-content with contentKey 'random-key'. 2. Compare with contentKey ''.
Expected result	HTTP 400 'Page must be one of ...'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	contentKey 'random-key' still returns HTTP 500 "Data truncated for column 'contentKey' at row 1" (empty key gives a proper 400).

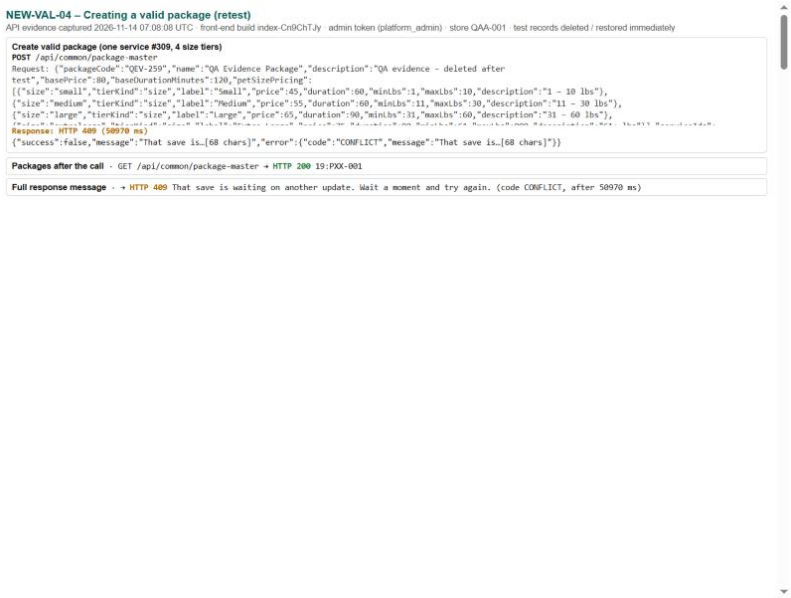

Evidence for NEW-VAL-03 (1 screenshot):

NEW-VAL-03 on index-Cn9ChTJy: contentKey 'random-key' still returns HTTP 500 "Data truncated for column 'contentKey' at row 1" (empty key gives a proper 400).

NEW-VAL-04	Creating a valid package fails with a lock-wait timeout
Group	New validation bug (14 Nov)
Module / Portal	Package master (Admin)
Retest steps	1. POST /api/common/package-master with a valid package (one service, #309, 4 size tiers). 2. Wait for the response; re-read the package list.
Expected result	Package created (HTTP 201) within a few seconds.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Valid package create still fails after 51 s; response is now HTTP 409 CONFLICT 'That save is waiting on another update. Wait a moment and try again.' (was 500 lock-wait timeout). No package created.

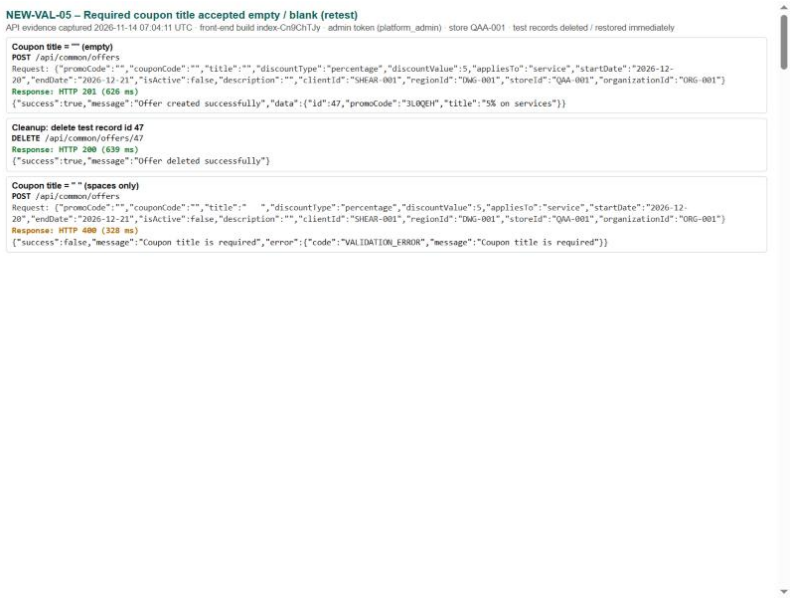

Evidence for NEW-VAL-04 (1 screenshot):

NEW-VAL-04 on index-Cn9ChTJy: Valid package create still fails after 51 s; response is now HTTP 409 CONFLICT 'That save is waiting on another update. Wait a moment and try again.' (was 500 lock-wait t…

NEW-VAL-05	Required coupon Title accepted empty or blank
Group	New validation bug (14 Nov)
Module / Portal	Coupon (Admin)
Retest steps	1. POST /api/common/offers with title ''. 2. Repeat with title ' '.
Expected result	HTTP 400 'Title is required' (Title is marked required in the UI).
Previous status	Open (new)
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	Spaces-only title is now rejected (HTTP 400 'Coupon title is required'). Empty title '' is still accepted (HTTP 201) and saved as the default '5% on services' although Title is required in the UI (test coupon 47 deleted).

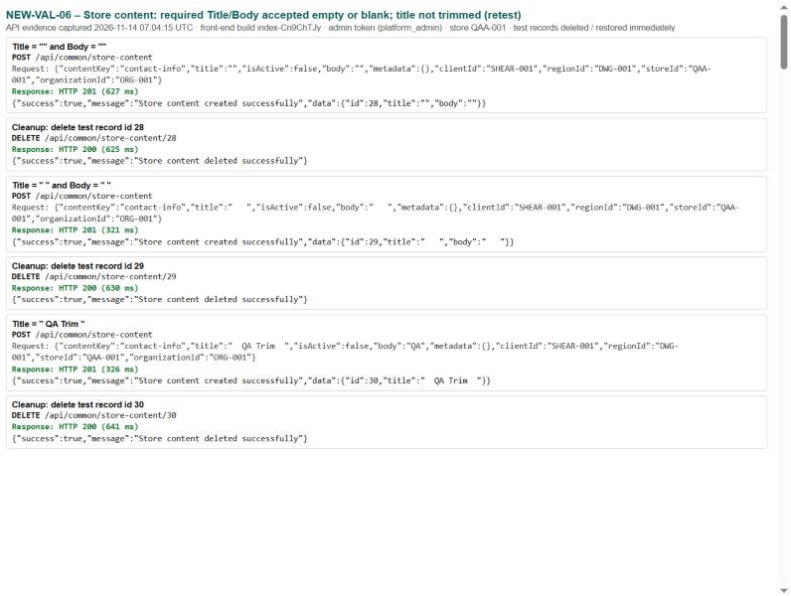

Evidence for NEW-VAL-05 (1 screenshot):

NEW-VAL-06	Required Title/Body accepted empty or blank; Title not trimmed
Group	New validation bug (14 Nov)
Module / Portal	Store content (Admin)
Retest steps	1. POST /api/common/store-content with title '' and body ''. 2. Repeat with ' '. 3. Repeat with title ' QA Trim '.
Expected result	Empty/blank rejected with 400; surrounding spaces trimmed.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Title/Body '' and ' ' still accepted (HTTP 201, stored blank); title ' QA Trim ' still stored untrimmed. Test records 28-30 deleted.

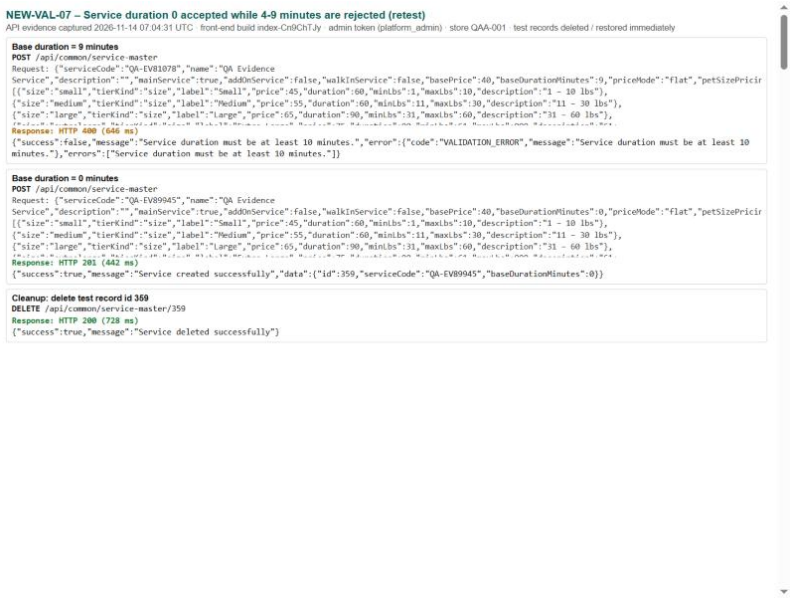

Evidence for NEW-VAL-06 (1 screenshot):

NEW-VAL-06 on index-Cn9ChTJy: Title/Body '' and ' ' still accepted (HTTP 201, stored blank); title ' QA Trim ' still stored untrimmed. Test records 28-30 deleted.

NEW-VAL-07	Service duration 0 accepted while 4-9 minutes are rejected
Group	New validation bug (14 Nov)
Module / Portal	Service master (Admin)
Retest steps	1. POST /api/common/service-master with baseDurationMinutes 9. 2. Repeat with 0.
Expected result	0 rejected like 9 ('Service duration must be at least 10 minutes').
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Duration 9 → HTTP 400 'at least 10 minutes', but duration 0 → HTTP 201, stored baseDurationMinutes 0 (service 359 deleted).

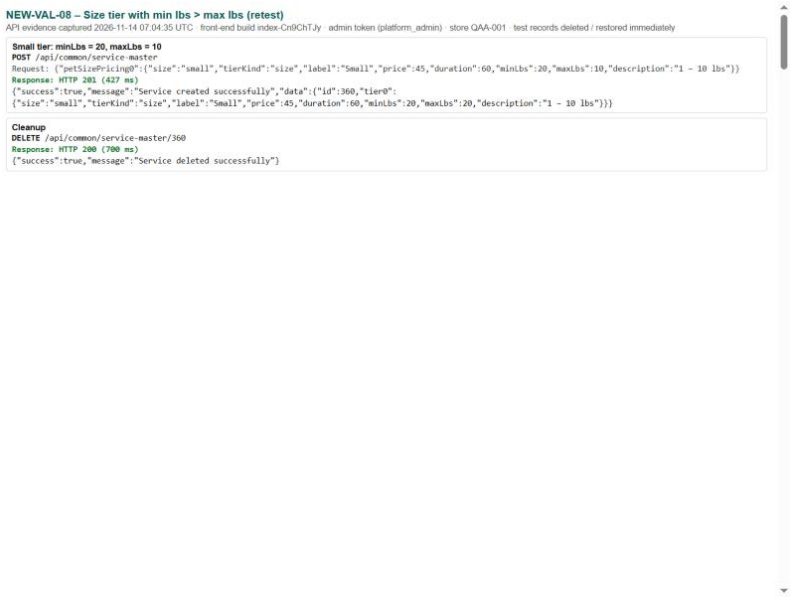

Evidence for NEW-VAL-07 (1 screenshot):

NEW-VAL-07 on index-Cn9ChTJy: Duration 9 → HTTP 400 'at least 10 minutes', but duration 0 → HTTP 201, stored baseDurationMinutes 0 (service 359 deleted).

NEW-VAL-08	Size tier with min lbs > max lbs not rejected (max silently changed)
Group	New validation bug (14 Nov)
Module / Portal	Service master (Admin)
Retest steps	1. POST /api/common/service-master with Small tier minLbs 20, maxLbs 10.
Expected result	HTTP 400 'Max weight must be greater than min weight'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Small tier minLbs 20 / maxLbs 10 → HTTP 201; saved with maxLbs silently changed to 20 (service 360 deleted).

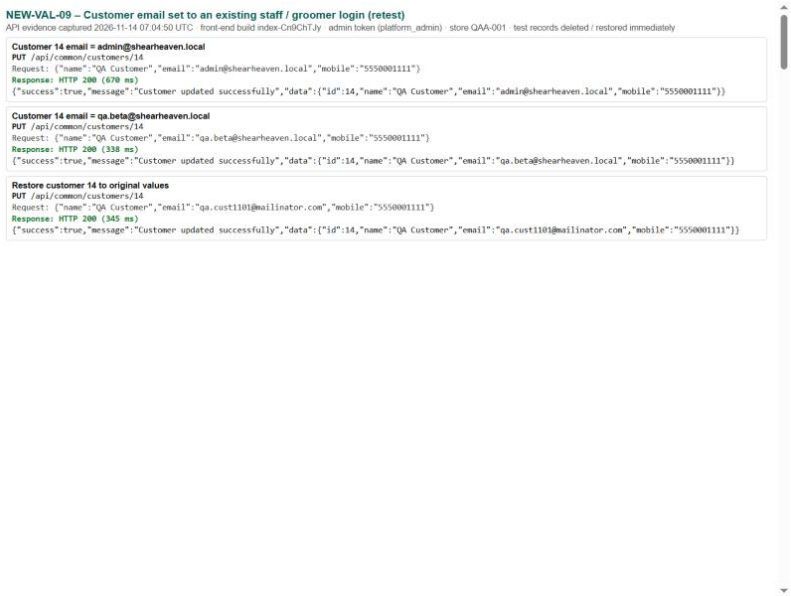

Evidence for NEW-VAL-08 (1 screenshot):

NEW-VAL-08 on index-Cn9ChTJy: Small tier minLbs 20 / maxLbs 10 → HTTP 201; saved with maxLbs silently changed to 20 (service 360 deleted).

NEW-VAL-09	Customer email can be set to an existing staff / groomer login
Group	New validation bug (14 Nov)
Module / Portal	Customer (Admin)
Retest steps	1. PUT /api/common/customers/14 with email admin@shearheaven.local. 2. Repeat with qa.beta@shearheaven.local. 3. Restore.
Expected result	HTTP 409 'Email already used' (as when creating a store admin with a groomer email).
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Customer 14 email set to admin@shearheaven.local and qa.beta@shearheaven.local → both HTTP 200 and saved. Customer restored to qa.cust1101@mailinator.com.

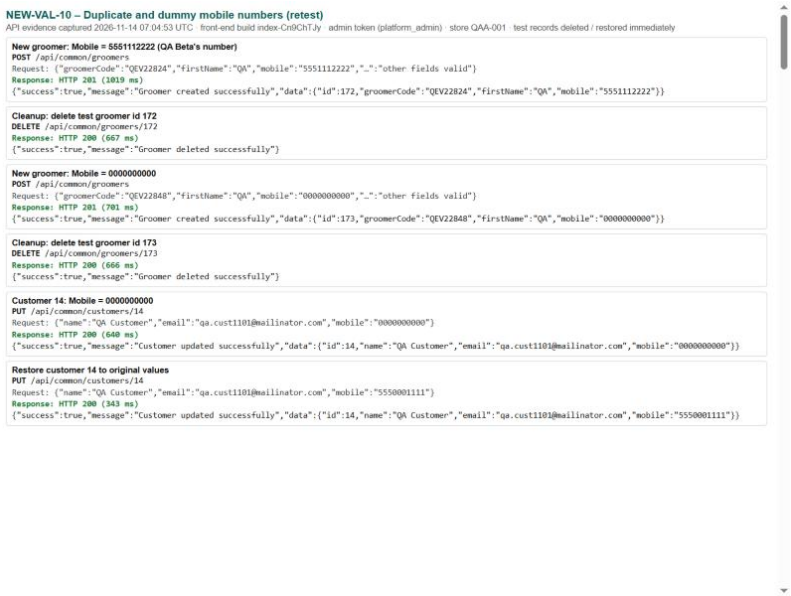

Evidence for NEW-VAL-09 (1 screenshot):

NEW-VAL-09 on index-Cn9ChTJy: Customer 14 email set to admin@shearheaven.local and qa.beta@shearheaven.local → both HTTP 200 and saved. Customer restored to qa.cust1101@mailinator.com.

NEW-VAL-10	Duplicate and dummy mobile numbers accepted
Group	New validation bug (14 Nov)
Module / Portal	Groomer / Customer - Mobile
Retest steps	1. POST /api/common/groomers with mobile 5551112222 (QA Beta's number). 2. POST with mobile 0000000000. 3. PUT customer 14 mobile 0000000000.
Expected result	Duplicate and all-zero numbers rejected.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Groomer with QA Beta's mobile 5551112222 → 201; groomer and customer with 0000000000 → 201/200 (groomers 172/173 deleted, customer restored).

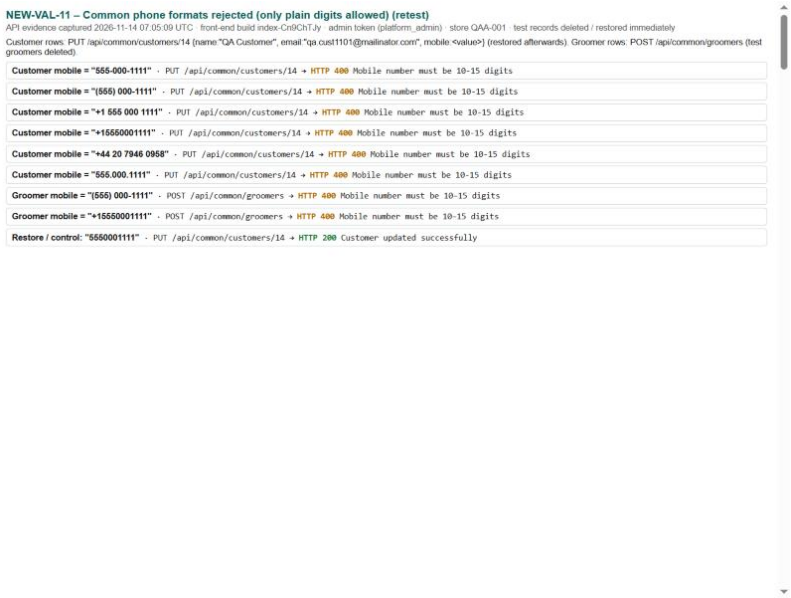

Evidence for NEW-VAL-10 (1 screenshot):

NEW-VAL-10 on index-Cn9ChTJy: Groomer with QA Beta's mobile 5551112222 → 201; groomer and customer with 0000000000 → 201/200 (groomers 172/173 deleted, customer restored).

NEW-VAL-11	Common phone formats rejected; no format hint
Group	New validation bug (14 Nov)
Module / Portal	All phone fields
Retest steps	1. Groomer portal (QA Alpha), store QAA-001: Profile > Mobile '+1 (555) 123-4567' > Save profile. 2. API: customer and groomer mobile '555-000-1111', '(555) 000-1111', '+1 555 000 1111', '+15550001111', '+44 20 7946 0958', '555.000.1111'.
Expected result	Formatted numbers accepted and normalised (the app itself displays '(555) 000-1111'), or the field shows the required format.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	All 8 formatted values ('555-000-1111', '(555) 000-1111', '+1 555 000 1111', '+15550001111', '+44 20 7946 0958', '555.000.1111') still → HTTP 400 'Mobile number must be 10-15 digits'; plain digits accepted.

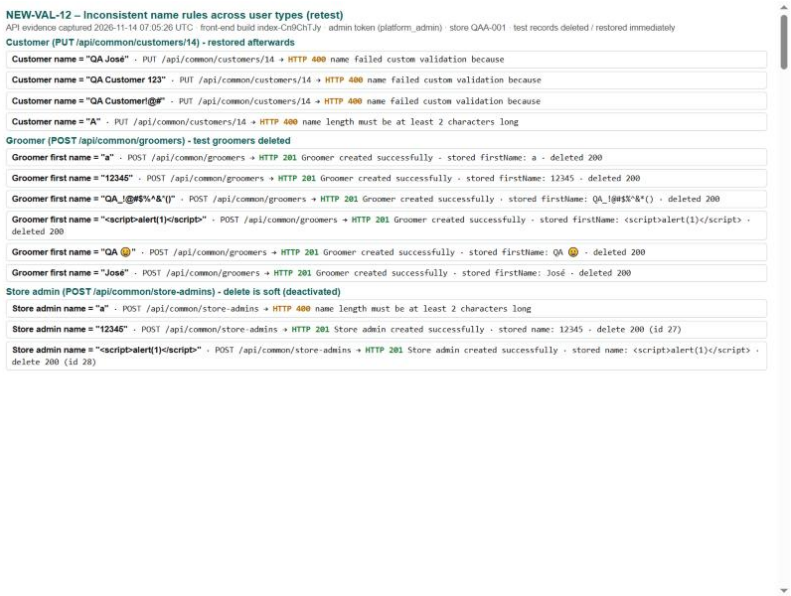

Evidence for NEW-VAL-11 (1 screenshot):

NEW-VAL-11 on index-Cn9ChTJy: All 8 formatted values ('555-000-1111', '(555) 000-1111', '+1 555 000 1111', '+15550001111', '+44 20 7946 0958', '555.000.1111') still → HTTP 400 'Mobile number must be 1…

NEW-VAL-12	Inconsistent name rules across user types
Group	New validation bug (14 Nov)
Module / Portal	Name fields (all user types)
Retest steps	1. PUT customer 14 name 'QA José', 'QA Customer 123', 'QA Customer!@#', 'A'. 2. POST groomers with first name 'a', '12345', 'QA_!@#$%^&*()', '<script>...', 'QA [emoji]', 'José'. 3. POST store admins with 'a', '12345', '<script>...'.
Expected result	One rule for all person names (letters incl. accents, space, ' and -; min 2).
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Unchanged: customer rejects 'QA José', digits, symbols and 1 char; groomer accepts 'a', '12345', symbols, <script>, emoji and 'José'; store admin rejects 1 char but accepts '12345' and <script>. (Test groomers deleted; store admins 27/28 soft-deleted.)

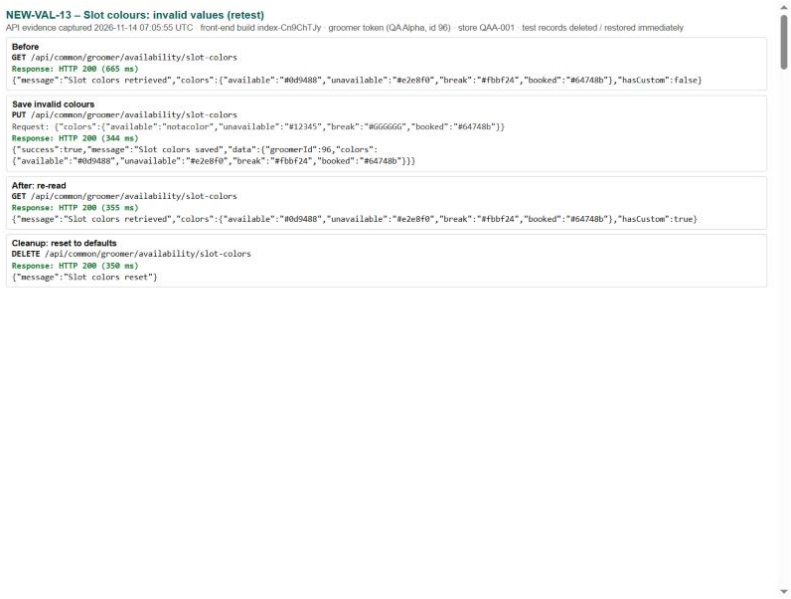

Evidence for NEW-VAL-12 (1 screenshot):

NEW-VAL-12 – Inconsistent name rules across user types (retest)
API evidence captured 2026-11-14 07:05:26 UTC · front-end build index-Cn9ChTJy · admin token (platform_admin) · store QAA-001 · test records deleted / restored immediately
Customer (PUT /api/common/customers/14) - restored afterwards
Customer name = "QA José" · PUT /api/common/customers/14 → HTTP 400 name failed custom validation because
Customer name = "QA Customer 123" · PUT /api/common/customers/14 → HTTP 400 name failed custom validation because
Customer name = "QA Customer!@#" · PUT /api/common/customers/14 → HTTP 400 name failed custom validation because
Customer name = "A" · PUT /api/common/customers/14 → HTTP 400 name length must be at least 2 characters long
Groomer (POST /api/common/groomers) - test groomers deleted
Groomer first name = "a" · POST /api/common/groomers → HTTP 201 Groomer created successfully - stored firstName: a - deleted 200
Groomer first name = "12345" · POST /api/common/groomers → HTTP 201 Groomer created successfully · stored firstName: 12345 · deleted 200
Groomer first name = "QA_!@#$%^&*()" · POST /api/common/groomers → HTTP 201 Groomer created successfully · stored firstName: QA_!@#$%^&*() · deleted 200
Groomer first name = "<script>alert(1)</script>" · POST /api/common/groomers → HTTP 201 Groomer created successfully · stored firstName: <script>alert(1)</script> · deleted 200
Groomer first name = "QA 😊" · POST /api/common/groomers → HTTP 201 Groomer created successfully · stored firstName: QA 😊 · deleted 200
Groomer first name = "José" · POST /api/common/groomers → HTTP 201 Groomer created successfully · stored firstName: José · deleted 200
Store admin (POST /api/common/store-admins) - delete is soft (deactivated)
Store admin name = "a" · POST /api/common/store-admins → HTTP 400 name length must be at least 2 characters long
Store admin name = "12345" · POST /api/common/store-admins → HTTP 201 Store admin created successfully · stored name: 12345 · delete 200 (id 27)
Store admin name = "<script>alert(1)</script>" · POST /api/common/store-admins → HTTP 201 Store admin created successfully · stored name: <script>alert(1)</script> · delete 200 (id 28)

NEW-VAL-15	No maxlength on text inputs
Group	New validation bug (14 Nov)
Module / Portal	All Admin/Groomer forms
Retest steps	1. Admin portal (admin@shearheaven.local), store QAA-001: Groomers > New groomer; type 150 characters in First name. 2. Promotions > New coupon; type 256 characters in Title. 3. Inspect input attributes.
Expected result	Inputs limited to the API limits (e.g. 100 / 255).
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	New groomer dialog: all 10 text inputs still have no maxLength; First name holds 150 characters; error only after Create.

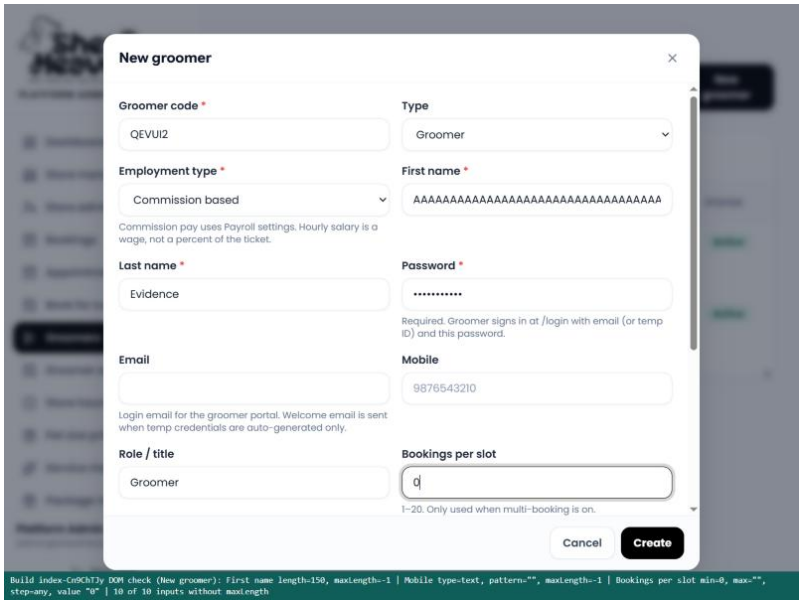

Evidence for NEW-VAL-15 (1 screenshot):

NEW-VAL-15 on index-Cn9ChTJy: New groomer dialog: all 10 text inputs still have no maxLength; First name holds 150 characters; error only after Create.

NEW-VAL-16	UI range differs from API (UI allows 0 / decimals)
Group	New validation bug (14 Nov)
Module / Portal	Groomer (Admin) - Bookings per slot
Retest steps	1. Admin portal (admin@shearheaven.local), store QAA-001: New groomer > Bookings per slot = 0 > Create.
Expected result	Input min=1 max=20 step=1, matching the hint '1–20'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Bookings per slot input still min=0, no max, step=any; value 0 accepted by the browser (server rejects on submit).

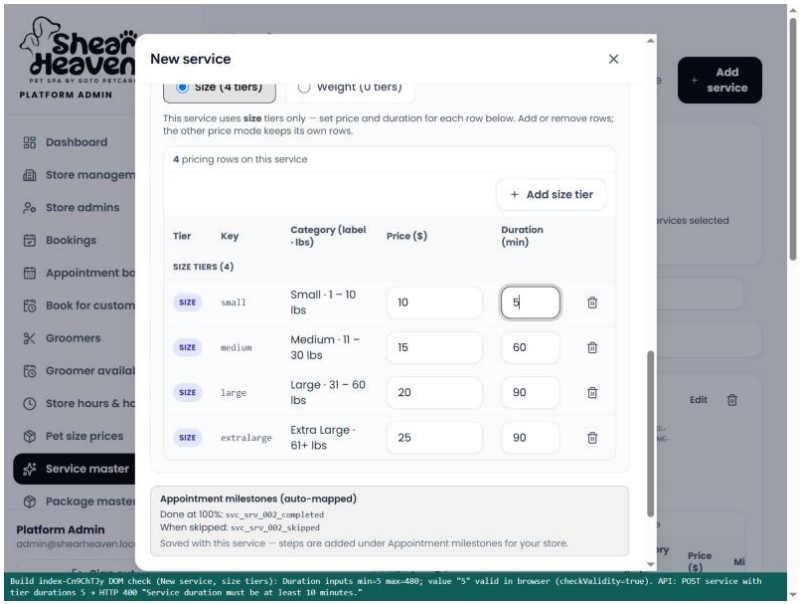

Evidence for NEW-VAL-16 (1 screenshot):

NEW-VAL-16 on index-Cn9ChTJy: Bookings per slot input still min=0, no max, step=any; value 0 accepted by the browser (server rejects on submit).

NEW-VAL-17	UI tier duration min 5 vs API min 10
Group	New validation bug (14 Nov)
Module / Portal	Service / Package master - size tiers
Retest steps	1. Admin portal (admin@shearheaven.local), store QAA-001: Service master > Add service > Small tier Duration = 5. 2. POST the same via API.
Expected result	Input min=10 so the browser blocks 5-9.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Tier Duration inputs still min=5 max=480 (5 is valid in the browser); API still rejects <10 ('Service duration must be at least 10 minutes.').

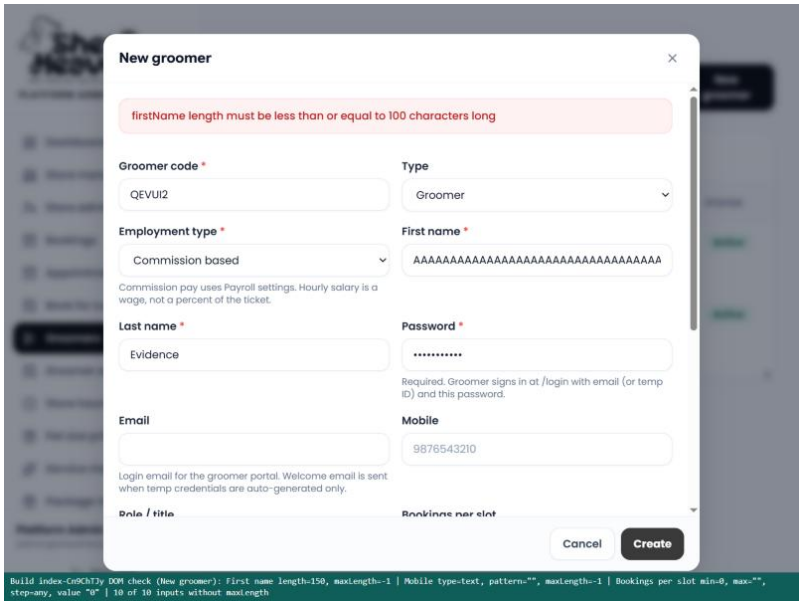

Evidence for NEW-VAL-17 (1 screenshot):

NEW-VAL-17 on index-Cn9ChTJy: Tier Duration inputs still min=5 max=480 (5 is valid in the browser); API still rejects <10 ('Service duration must be at least 10 minutes.').

NEW-VAL-18	Raw / technical server messages shown to users
Group	New validation bug (14 Nov)
Module / Portal	Validation messages (all portals)
Retest steps	1. New groomer with 150-char First name > Create. 2. New groomer with Bookings per slot 0 > Create. 3. Groomer portal (QA Alpha), store QAA-001: Profile > First name 101 chars > Save. 4. New coupon with 256-char title > Create.
Expected result	Friendly field-level messages (e.g. 'First name can be at most 100 characters').
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	New groomer with 150-char First name still shows raw 'firstName length must be less than or equal to 100 characters long'.

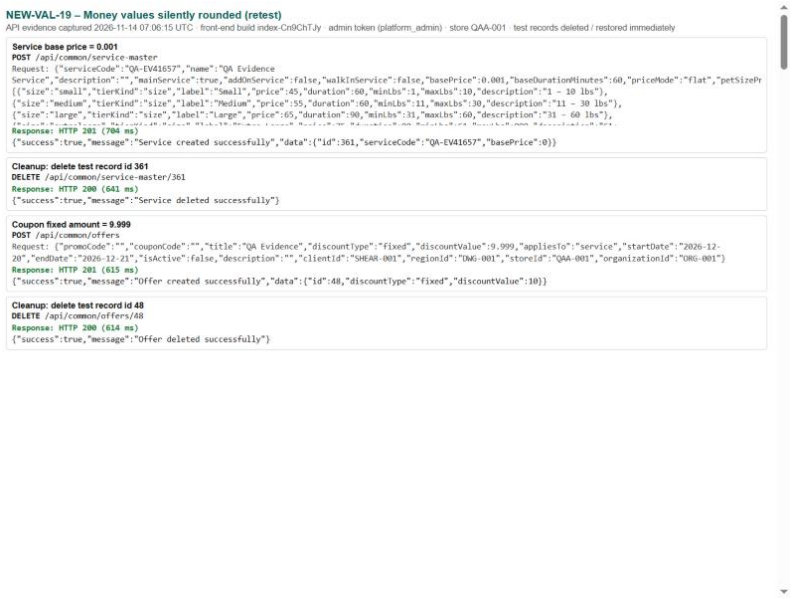

Evidence for NEW-VAL-18 (1 screenshot):

NEW-VAL-18 on index-Cn9ChTJy: New groomer with 150-char First name still shows raw 'firstName length must be less than or equal to 100 characters long'.

NEW-VAL-19	Money values silently rounded instead of validated
Group	New validation bug (14 Nov)
Module / Portal	Service master / Coupon
Retest steps	1. POST service with basePrice 0.001. 2. POST fixed coupon with amount 9.999.
Expected result	HTTP 400 'Use at most 2 decimal places'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Service basePrice 0.001 → 201, stored 0; fixed coupon 9.999 → 201, stored 10 (records deleted).

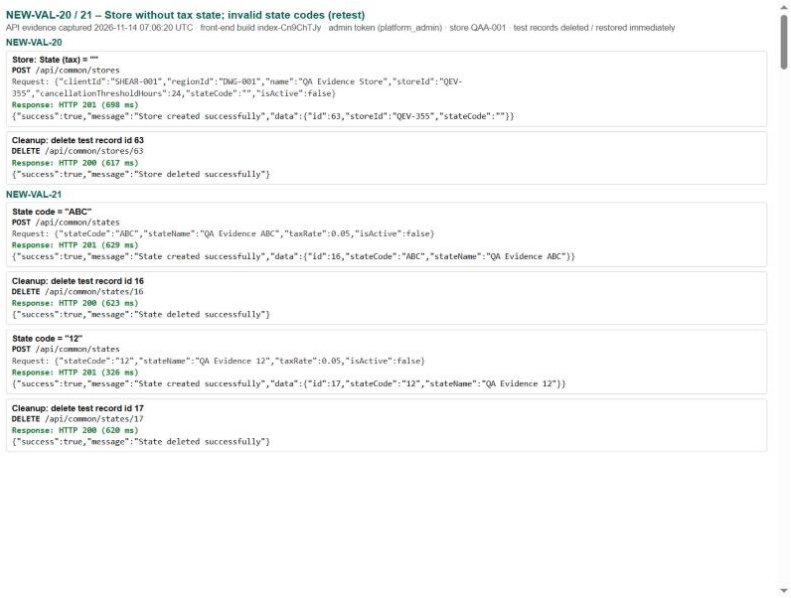

Evidence for NEW-VAL-19 (1 screenshot):

NEW-VAL-19 on index-Cn9ChTJy: Service basePrice 0.001 → 201, stored 0; fixed coupon 9.999 → 201, stored 10 (records deleted).

NEW-VAL-20	Store saved without a tax state
Group	New validation bug (14 Nov)
Module / Portal	Store (Admin)
Retest steps	1. POST /api/common/stores with stateCode ''.
Expected result	HTTP 400 'State is required' (tax depends on it).
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Store with stateCode '' → HTTP 201 (store 63 deleted).

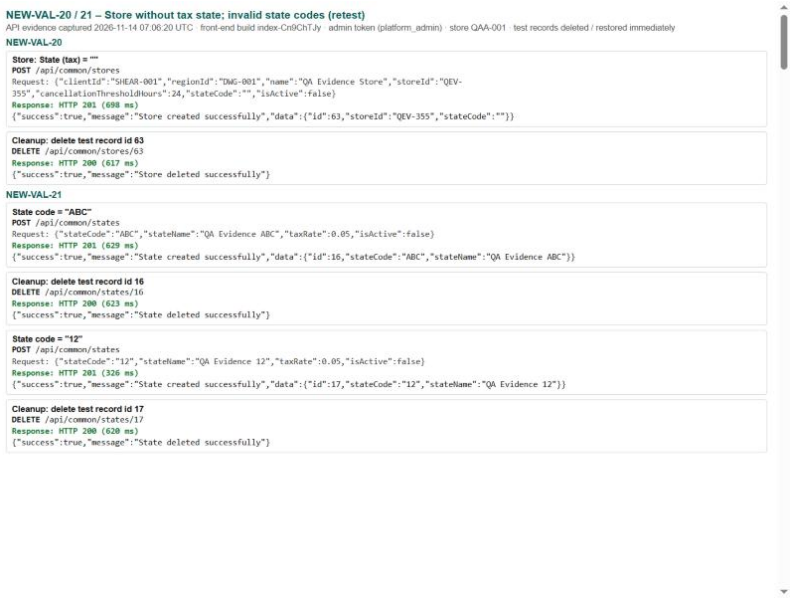

Evidence for NEW-VAL-20 (1 screenshot):

NEW-VAL-20 on index-Cn9ChTJy: Store with stateCode '' → HTTP 201 (store 63 deleted).

NEW-VAL-21	Invalid state codes accepted
Group	New validation bug (14 Nov)
Module / Portal	State & tax (Admin)
Retest steps	1. POST /api/common/states with stateCode 'ABC'. 2. Repeat with '12'.
Expected result	Only 2-letter codes accepted.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	State codes 'ABC' and '12' → HTTP 201 (states 16/17 deleted).

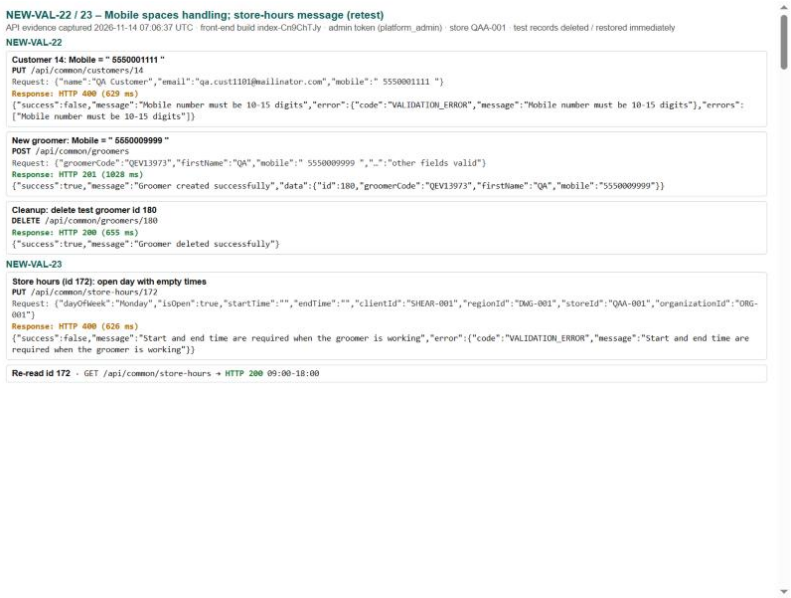

Evidence for NEW-VAL-21 (1 screenshot):

NEW-VAL-21 on index-Cn9ChTJy: State codes 'ABC' and '12' → HTTP 201 (states 16/17 deleted).

NEW-VAL-22	Surrounding spaces in mobile handled inconsistently
Group	New validation bug (14 Nov)
Module / Portal	Customer vs Groomer - Mobile
Retest steps	1. PUT customer 14 mobile ' 5550001111 '. 2. POST groomer with mobile ' 5550009999 '.
Expected result	Same behaviour (trim) in both.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Customer mobile ' 5550001111 ' → 400; groomer mobile ' 5550009999 ' → 201 trimmed (groomer 180 deleted).

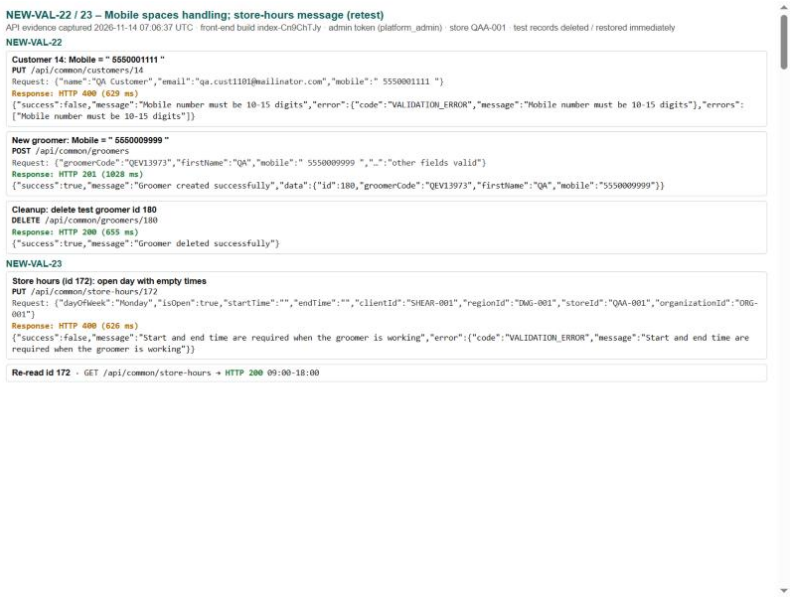

Evidence for NEW-VAL-22 (1 screenshot):

NEW-VAL-22 on index-Cn9ChTJy: Customer mobile ' 5550001111 ' → 400; groomer mobile ' 5550009999 ' → 201 trimmed (groomer 180 deleted).

NEW-VAL-23	Store-hours message refers to 'the groomer'
Group	New validation bug (14 Nov)
Module / Portal	Store hours (Admin)
Retest steps	1. PUT /api/common/store-hours/172 with isOpen true and empty times.
Expected result	'Opening and closing times are required when the store is open'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Store hours with empty times → 400 'Start and end time are required when the groomer is working' (record unchanged 09:00-18:00).

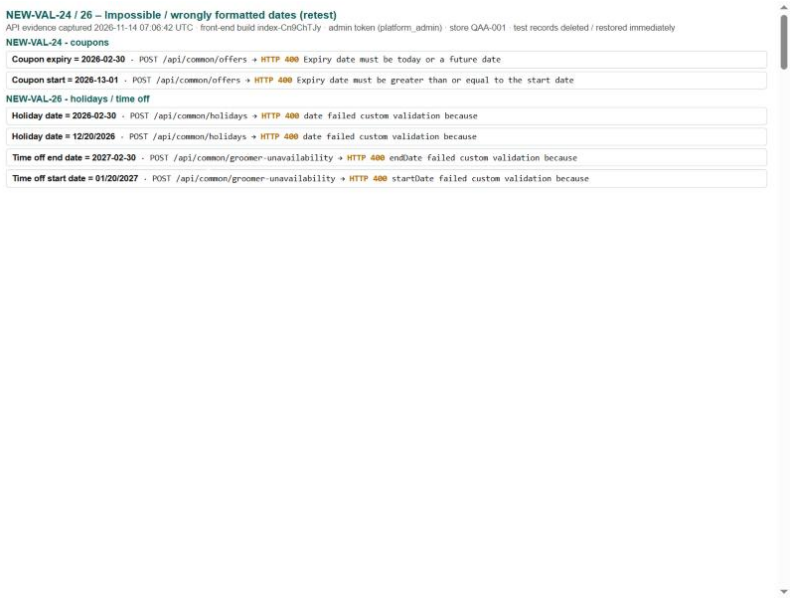

Evidence for NEW-VAL-23 (1 screenshot):

NEW-VAL-23 on index-Cn9ChTJy: Store hours with empty times → 400 'Start and end time are required when the groomer is working' (record unchanged 09:00-18:00).

NEW-VAL-24	Misleading messages for impossible dates
Group	New validation bug (14 Nov)
Module / Portal	Coupon (Admin)
Retest steps	1. POST coupon with endDate 2026-02-30. 2. POST coupon with startDate 2026-13-01.
Expected result	'Enter a valid date'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Expiry 2026-02-30 → 'Expiry date must be today or a future date'; start 2026-13-01 → 'Expiry date must be greater than or equal to the start date'.

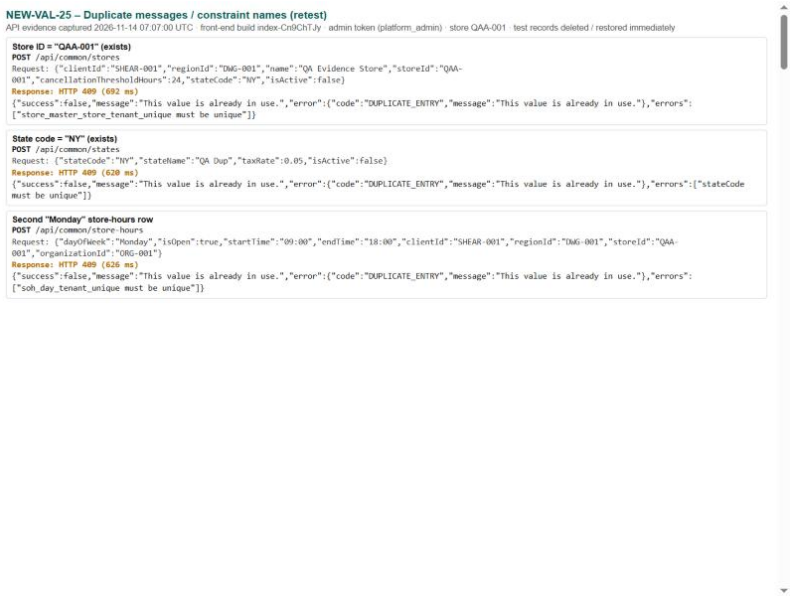

Evidence for NEW-VAL-24 (1 screenshot):

NEW-VAL-24 on index-Cn9ChTJy: Expiry 2026-02-30 → 'Expiry date must be today or a future date'; start 2026-13-01 → 'Expiry date must be greater than or equal to the start date'.

NEW-VAL-25	Generic duplicate message; internal constraint names leaked
Group	New validation bug (14 Nov)
Module / Portal	Store / State / Store hours (Admin)
Retest steps	1. POST store with storeId QAA-001. 2. POST state NY. 3. POST a second Monday store-hours row.
Expected result	Specific message (e.g. 'Store ID QAA-001 already exists'); no database names.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Duplicate store ID QAA-001, state NY, second Monday store-hours row → 409 'This value is already in use.' with constraint names (store_master_store_tenant_unique, stateCode must be unique, soh_day_tenant_unique).

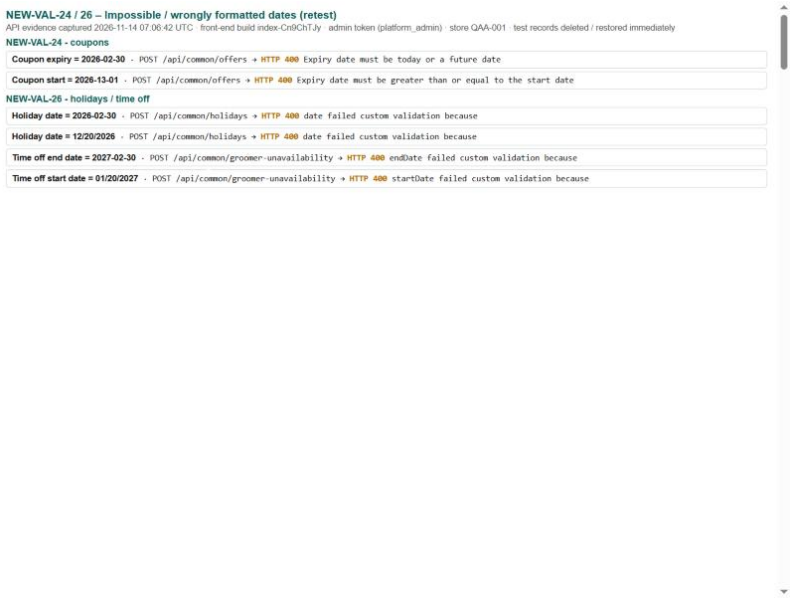

Evidence for NEW-VAL-25 (1 screenshot):

NEW-VAL-25 on index-Cn9ChTJy: Duplicate store ID QAA-001, state NY, second Monday store-hours row → 409 'This value is already in use.' with constraint names (store_master_store_tenant_unique, stateCo…

NEW-VAL-26	Truncated date messages (no reason given)
Group	New validation bug (14 Nov)
Module / Portal	Holiday / Groomer time off (Admin)
Retest steps	1. POST holiday with date 2026-02-30 and 12/20/2026. 2. POST time off with endDate 2027-02-30 and startDate 01/20/2027.
Expected result	'Enter a valid date (YYYY-MM-DD)'.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Holiday 2026-02-30 / 12/20/2026 → 'date failed custom validation because'; time off → 'endDate/startDate failed custom validation because'.

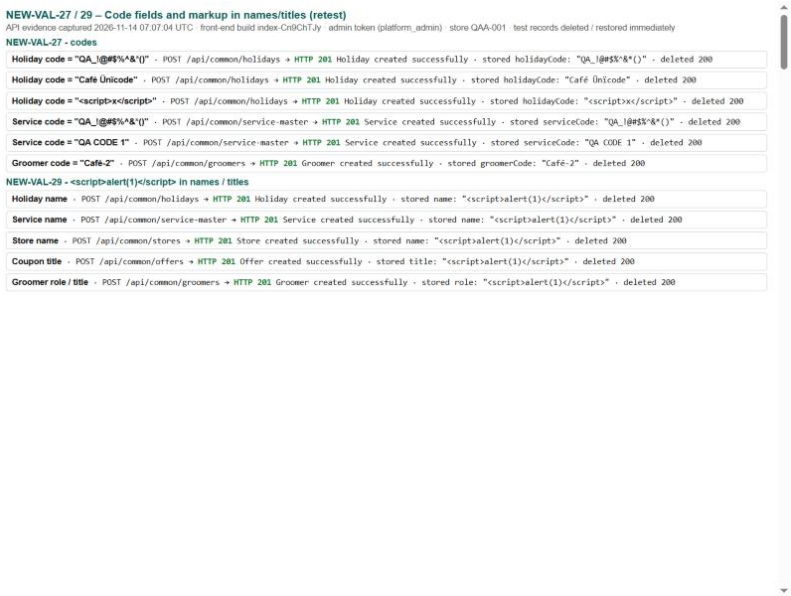

Evidence for NEW-VAL-26 (1 screenshot):

NEW-VAL-26 on index-Cn9ChTJy: Holiday 2026-02-30 / 12/20/2026 → 'date failed custom validation because'; time off → 'endDate/startDate failed custom validation because'.

NEW-VAL-27	Code fields accept special characters, spaces and non-ASCII
Group	New validation bug (14 Nov)
Module / Portal	Holiday / Service / Groomer codes (Admin)
Retest steps	1. POST holiday with codes 'QA_!@#$%^&*()', 'Café Ünïcode', '<script>x</script>'. 2. POST service with codes 'QA_!@#$%^&*()', 'QA CODE 1'. 3. POST groomer with code 'Café-1'.
Expected result	Codes restricted (e.g. A-Z, 0-9, hyphen) like Coupon code and Store ID.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Holiday codes 'QA_!@#$%^&*()', 'Café Ünïcode', '<script>x</script>', service codes 'QA_!@#$%^&*()', 'QA CODE 1' and groomer code 'Café-2' all → 201 (deleted).

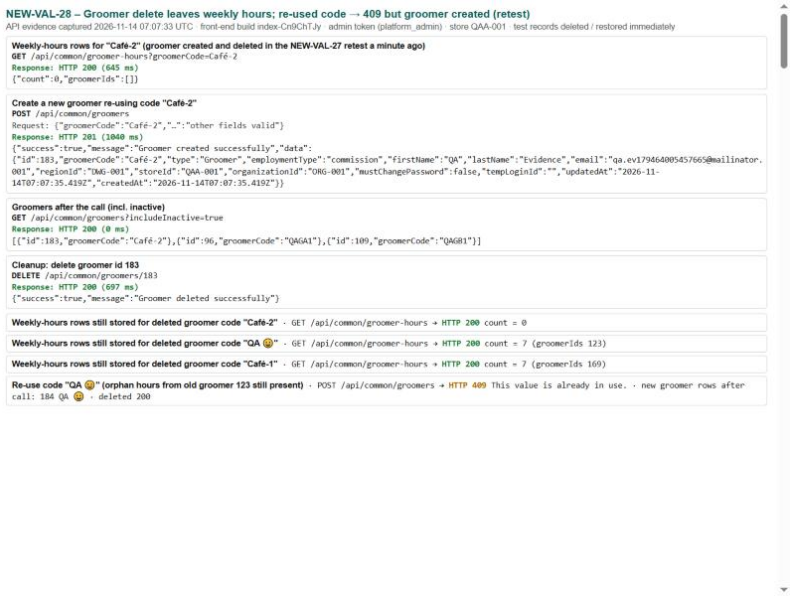

Evidence for NEW-VAL-27 (1 screenshot):

NEW-VAL-27 on index-Cn9ChTJy: Holiday codes 'QA_!@#$%^&*()', 'Café Ünïcode', '<script>x</script>', service codes 'QA_!@#$%^&*()', 'QA CODE 1' and groomer code 'Café-2' all → 201 (deleted).

NEW-VAL-28	Deleting a groomer leaves its weekly hours; re-using the code returns 409 but still creates the groomer
Group	New validation bug (14 Nov)
Module / Portal	Groomers (Admin)
Retest steps	1. Create a groomer, then delete it. 2. GET /api/common/groomer-hours?groomerCode=<deleted code>. 3. POST a new groomer with the same code. 4. GET groomers (incl. inactive).
Expected result	Delete removes dependent rows; a failed create leaves nothing behind.
Previous status	Open (new)
Retest status	Partially Fixed
Actual result (index-Cn9ChTJy)	Deleting a groomer now removes its weekly hours (new groomer 'Café-2' re-created and deleted cleanly: 201, 0 hours rows left). Still open: the 7 old orphan rows for deleted groomers 123 ('QA [emoji]') and 169 ('Café-1') remain, and re-using 'QA [emoji]' still returns 409 'This value is already in use.' while creating groomer 184 (deleted afterwards) - the create is still not atomic.

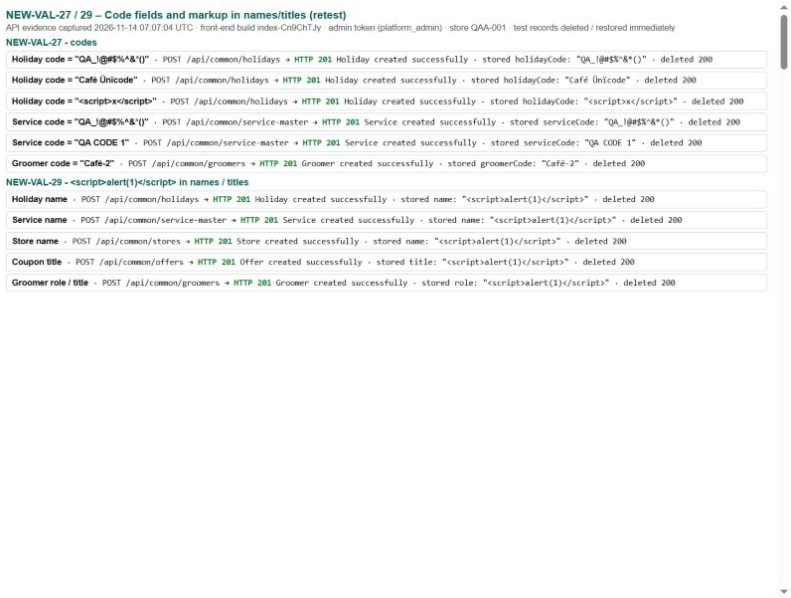

Evidence for NEW-VAL-28 (1 screenshot):

NEW-VAL-28 on index-Cn9ChTJy: Deleting a groomer now removes its weekly hours (new groomer 'Café-2' re-created and deleted cleanly: 201, 0 hours rows left). Still open: the 7 old orphan rows for delet...

NEW-VAL-29	HTML / script markup accepted and stored in names and titles
Group	New validation bug (14 Nov)
Module / Portal	Name / title fields (Admin)
Retest steps	1. POST holiday name, service name, store name, coupon title and groomer role = '<script>alert(1)</script>'. 2. Compare with customer name.
Expected result	Markup rejected or sanitised consistently (customer name already rejects it).
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	<script>alert(1)</script> accepted and stored in holiday name, service name, store name, coupon title and groomer role (all 201, deleted).

Evidence for NEW-VAL-29 (1 screenshot):

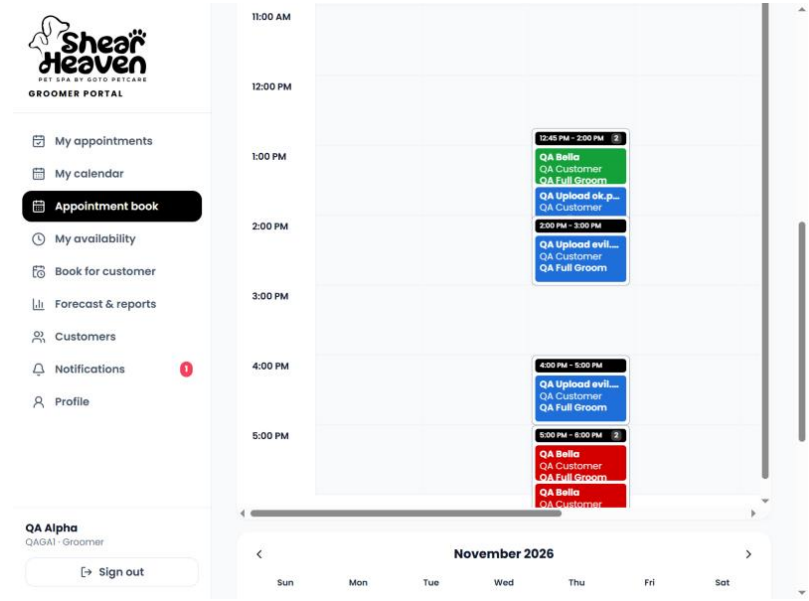

NEW-VAL-29 on index-Cn9ChTJy: <script>alert(1)</script> accepted and stored in holiday name, service name, store name, coupon title and groomer role (all 201, deleted).

New UI issue (14 Nov) - 6 issues

NEW-UI-01	Stacked 12:45 PM block overflows into the 2:00 PM block
Group	New UI issue (14 Nov)
Module / Portal	Groomer - Appointment book
Retest steps	1. Groomer portal (QA Alpha) > Appointment book, week Nov 9-15. 2. Look at Wed 11 Nov 12:45 PM - 2:00 PM.
Expected result	Stacked blocks never overlap the next time slot; every line of each appointment is readable.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Wed 11 Nov: the 2:00 PM block header still covers the last line ('QA Full Groom') of 'QA Upload ok.png' inside the stacked 12:45 PM block.

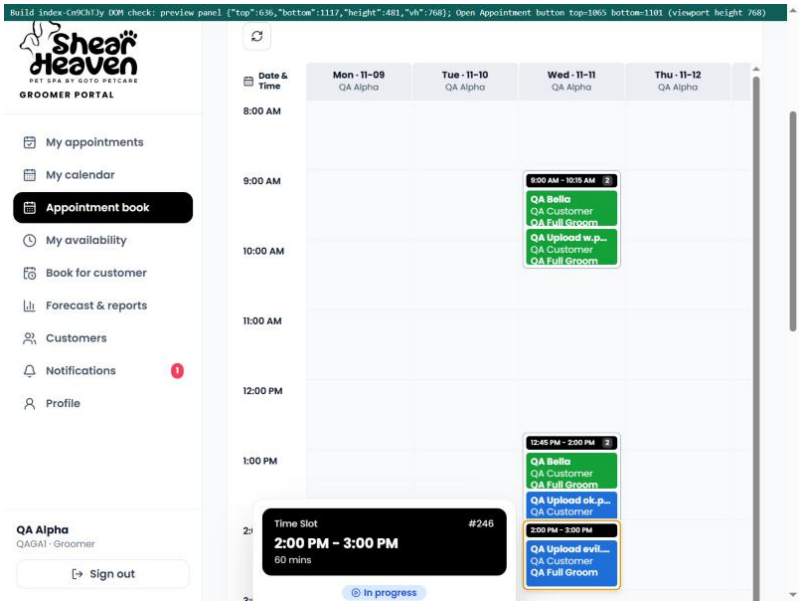

Evidence for NEW-UI-01 (1 screenshot):

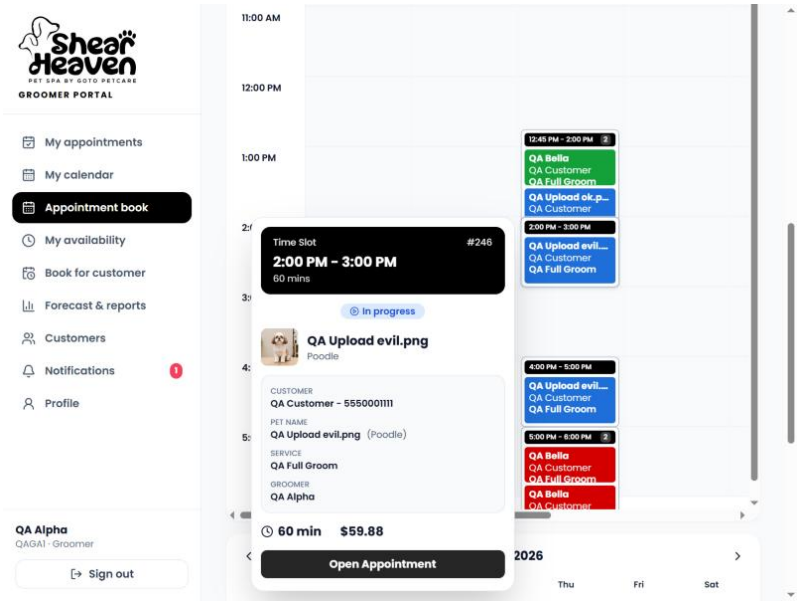

NEW-UI-01 on index-Cn9ChTJy: Wed 11 Nov: the 2:00 PM block header still covers the last line ('QA Full Groom') of 'QA Upload ok.png' inside the stacked 12:45 PM block.

NEW-UI-02	Appointment preview panel opens partly off-screen
Group	New UI issue (14 Nov)
Module / Portal	Groomer - Appointment book
Retest steps	1. Appointment book. 2. Scroll so the 2:00 PM block on 11 Nov is near the bottom of the screen and click it.
Expected result	The preview panel opens fully inside the viewport (flips upward near the bottom).
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	With the 2:00 PM block near the bottom of the screen, the preview panel opens at top 636 px with height 481 px in a 768 px viewport (bottom 1117 px); 'Open Appointment' button at 1065-1101 px is off-screen. (When the block is higher up the panel fits.)

Evidence for NEW-UI-02 (2 screenshots):

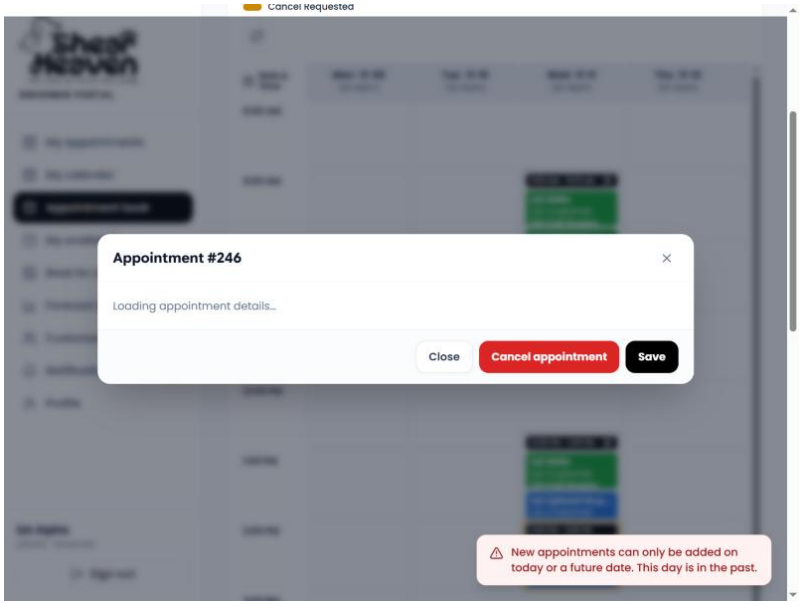

NEW-UI-02 on index-Cn9ChTJy: With the 2:00 PM block near the bottom of the screen, the preview panel opens at top 636 px with height 481 px in a 768 px viewport (bottom 1117 px); 'Open Appointment' b...

NEW-UI-03	Clicking an existing appointment on a past day shows an unrelated error toast
Group	New UI issue (14 Nov)
Module / Portal	Groomer - Appointment book
Retest steps	1. Appointment book. 2. Click the 2:00 PM block on 11 Nov (past day) > Open Appointment.
Expected result	Opening an existing appointment shows no 'new appointment' warning.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Opening existing appointment #246 (past day, 11 Nov) still shows the toast 'New appointments can only be added on today or a future date. This day is in the past.'

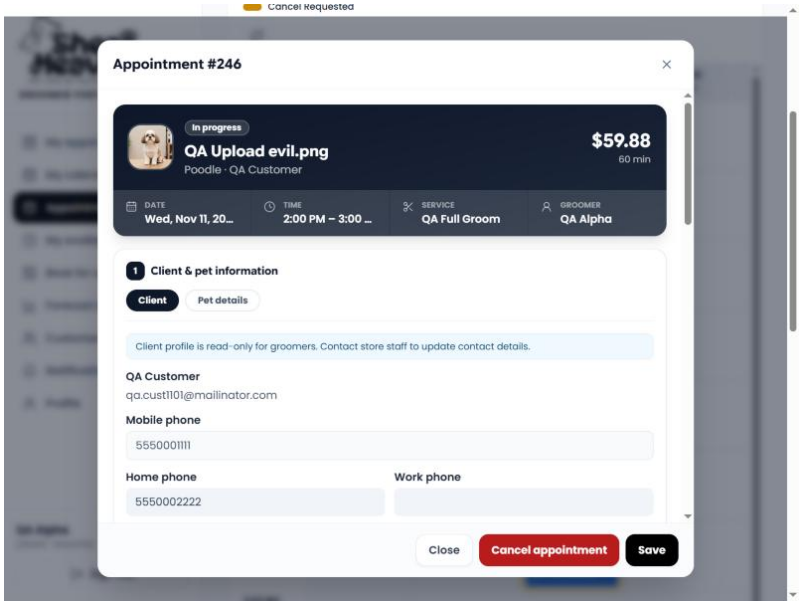

Evidence for NEW-UI-03 (1 screenshot):

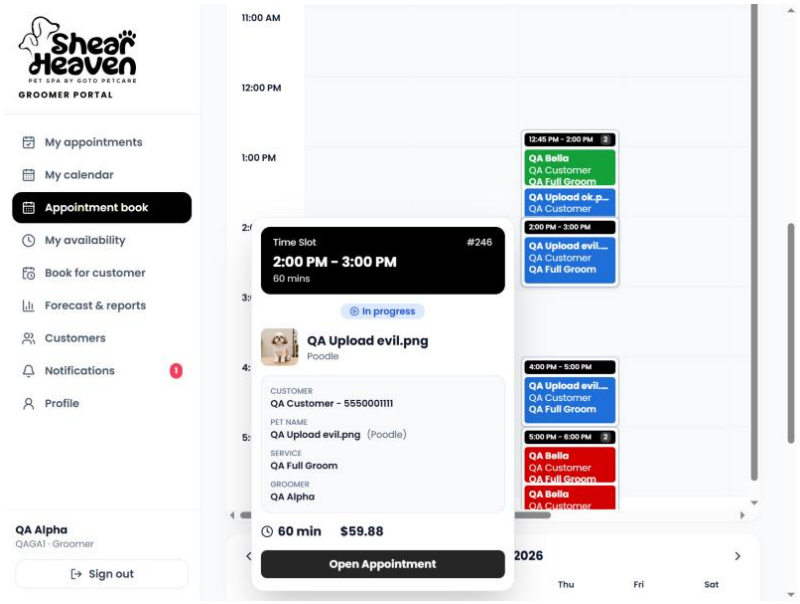

NEW-UI-03 on index-Cn9ChTJy: Opening existing appointment #246 (past day, 11 Nov) still shows the toast 'New appointments can only be added on today or a future date. This day is in the past.'

NEW-UI-04	Time in header card truncated and phone unformatted
Group	New UI issue (14 Nov)
Module / Portal	Groomer - Appointment modal
Retest steps	1. Open Appointment #246 (2:00 PM, 11 Nov). 2. Read the time in the header card and the client phone.
Expected result	Full time range readable in the header; phone formatted '(555) 000-1111' as on Customers.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	Modal header time still truncated '2:00 PM – 3:00 ...' (text 125 px in 120 px); preview and modal still show phone '5550001111' unformatted.

Evidence for NEW-UI-04 (2 screenshots):

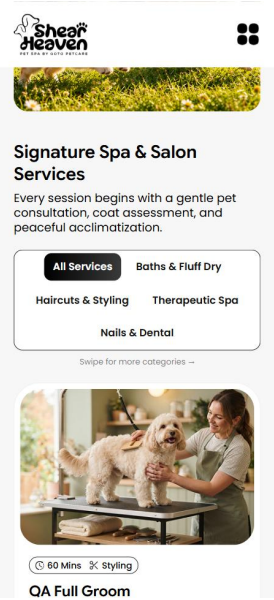

NEW-UI-04 on index-Cn9ChTJy: Modal header time still truncated '2:00 PM – 3:00 ...' (text 125 px in 120 px); preview and modal still show phone '5550001111' unformatted.

NEW-UI-04 on index-Cn9ChTJy: Modal header time still truncated '2:00 PM – 3:00 ...' (text 125 px in 120 px); preview and modal still show phone '5550001111' unformatted.

NEW-UI-05	'Swipe for more categories →' shown when all tabs are visible
Group	New UI issue (14 Nov)
Module / Portal	Landing page - Services tabs (mobile)
Retest steps	1. Landing page at 375 px. 2. Scroll to Signature Spa & Salon Services tabs.
Expected result	The swipe hint is shown only when some tabs are hidden.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	375 px: all 5 tabs visible on 3 rows, but 'Swipe for more categories →' is still shown.

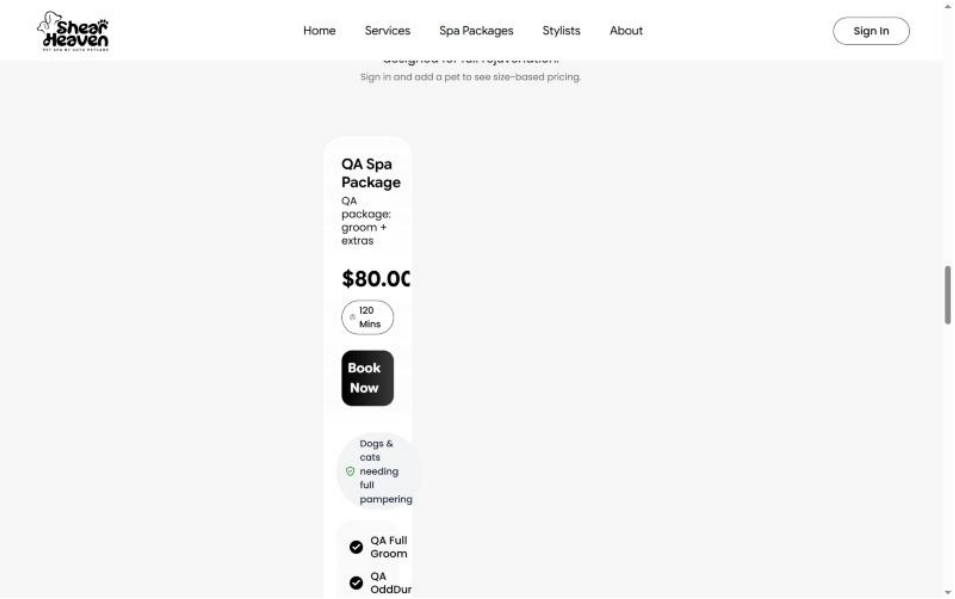

Evidence for NEW-UI-05 (1 screenshot):

NEW-UI-05 on index-Cn9ChTJy: 375 px: all 5 tabs visible on 3 rows, but 'Swipe for more categories →' is still shown.

NEW-UI-06	Single package card squeezed to 136 px and off-centre; price clipped
Group	New UI issue (14 Nov)
Module / Portal	Landing page - All Inclusive Spa Packages (1440 px)
Retest steps	1. Landing page at 1440 px (signed out). 2. Scroll to All Inclusive Spa Packages.
Expected result	A single package card uses a normal card width, is centred, and its price/text fit inside the card.
Previous status	Open (new)
Retest status	Still Reproducible
Actual result (index-Cn9ChTJy)	1440 px: the only package card is still 136 px wide at x 488-624 (centre 556 px vs page centre 720 px); '$80.00' overflows the card ('$80.0'), 'Book Now' and chip text wrap word-by-word, 'QA OddDur…' cut.

Evidence for NEW-UI-06 (1 screenshot):

NEW-UI-06 on index-Cn9ChTJy: 1440 px: the only package card is still 136 px wide at x 488-624 (centre 556 px vs page centre 720 px); '$80.00' overflows the card ('$80.0'), 'Book Now' and chip text wr…
